              (Jury not present)
                   THE COURT: Thank you, be seated.
          Good morning, gentlemen.
```

4 ALL: Good morning. 5 THE COURT: Plaintiffs' counsel are present. All defendants represented this 6 7 morning? MR. OHLEMEYER: Yes, sir. THE COURT: For the record, jury is 9 not present. We have an issue regarding 10 submission of some documentary evidence 11 regarding Dr. Burns' testimony. Who is 12 13 going to handle that for the plaintiff? 14 MR. WESTBROOK: Your Honor, Ed 15 Westbrook for the plaintiffs. We have a 16 group of documents that we would like to 17 argue this morning. If there are no 18 objections, move them into evidence. 19 there are objections, argue those, because 20 we do intend to put those documents into 21 evidence regardless of whether they're used 22 with Dr. Burns. So I think the question is 23 can we get them into evidence. If we can 24 get them into evidence, then the subsequent question is can Dr. Burns comment on them. 25 1 So we would like to address the 2 admissibility question. 3 THE COURT: Last night, if I understood Mr. Motley, the proposal, as I understood it, was that these would be 5 offered in terms of Dr. Burns' expert 6 7 opinion. Is that the purpose of the offer 8 today? 9 MR. WESTBROOK: Your Honor, the 10 purpose of the offer today is to move them into evidence in their entirety. Some of 11 the documents Dr. Burns may rely on for his 12 13 testimony. But the admissibility of these documents is not dependent on Dr. Burns. 14 15 THE COURT: I may have 16 misunderstood Mr. Motley, then, last 17 evening. 18 MR. WESTBROOK: I don't think it's 19 a misunderstanding. It's a matter of which 20 comes first. I think the documents are admissible independently, and then Dr. Burns 21 22 will likely rely and comment on some of 23 those and those will likely become apparent 24 as we discuss them, Your Honor, to --25 THE COURT: They are offered as 1 substantive evidence, not as evidence just in aid of his opinion? 3 MR. WESTBROOK: That's correct, 4 Your Honor. 5 THE COURT: All right. MR. WESTBROOK: Your Honor, to move 7 this along, I've tried to group the documents so we can avoid a one-by-one march 8 and see if it helps or doesn't help. I'm 9 10 not sure it will. 11 THE COURT: All right. 12 MR. WESTBROOK: Your Honor, the 13 first three documents I would like to talk about in order are Exhibit 25028, 7129, and

943. And Your Honor, I'll hand them up to 16 you so that you have a copy while we discuss 17 them. 18 And, Your Honor, what those are, just in outline, 25028 is a Tobacco Institute 20 1979 Counter-Surgeon General's Report. A 21 report that the Institute got prepared and 22 argue to steal the thunder from the Surgeon 23 General's 1979 report. That's what the 24 first document is. 25 The second document, 7129, is a Tobacco Institute memo a few weeks later discussing 1 2. how they prepared the Counter-Surgeon 3 General's report and what success they had 4 in stealing the Surgeon General's thunder. 5 The third document, 943, is a BATCO 6 document several months thereafter in 7 September of '79, giving BATCO's comments 8 both on the Surgeon General's report and on 9 TI's Counter-Surgeon General's Report. So that's why the three documents are 10 11 grouped together. We have the Counter-Surgeon General's Report, the TI 12 13 memo discussing why they prepared it and how 14 they got it disseminated, and BATCO's 15 comments on both the Surgeon General's Report and the Counter-Surgeon General's 16 17 Report. And we'd move those three documents into evidence, Your Honor. 18 19 THE COURT: Mr. Ohlemeyer, let me 20 ask you, first of all, have you had an 21 opportunity to review all the documents offered by plaintiff? 22 23 MR. OHLEMEYER: Yes, I have, Your 24 Honor. THE COURT: All right. Are there 25 1 documents against which there is no 2 objection? 3 MR. OHLEMEYER: There may be a 4 couple but there aren't many. THE COURT: All right. 5 MR. MOTLEY: Gee, I'm surprised. 6 7 THE COURT: First three, 8 Mr. Ohlemeyer? 9 MR. OHLEMEYER: First of all, Your 10 Honor, I'm not sure who they're offered 11 against, so... THE COURT: Good point. 12 MR. WESTBROOK: Your Honor, the 13 Tobacco Institute Counter-Surgeon General's 14 15 report is offered against the Tobacco 16 Institute and its members as we did with the 17 other Tobacco Institute documents. That is 18 document 25028. 19 The second document, the Tobacco 20 Institute memorandum on how they prepared 21 the Counter-Surgeon General's Report and the 22 success they had is similarly offered 23 against the Tobacco Institute and its 24 25 And the third document, the BATCO

comments on the Counter-Surgeon General's Report, is offered against BAT and Brown & Williamson.

MR. SHOCKLEY: Mr. Westbrook, who are the members in '79 and TI you maintain it's admissible against?

MR. WESTBROOK: 1979, Your Honor, according to the defendants' responses, the members of the Tobacco Institute, Brown & Williamson Industries, Brown & Williamson Tobacco, Liggett & Myers, Lorillard, Philip Morris, RJ Reynolds Industries, RJ Reynolds Tobacco.

MR. OHLEMEYER: Your Honor, with respect to 25028, this so-called Counter-Surgeon General's Report, there may have been such a report, and it may have been distributed, but there is no evidence that this is it. I mean, this is -- you know, look at it. It could be a draft of that, it could be the first draft, it could be the last draft, it could be anything in between. But 7129 does not identify this as such a report, and it doesn't indicate that this, 25028, was actually distributed to

anyone.

With respect to 7129, there is no foundation to establish who Mr. Frankovic is, whether anyone agrees with anything he said or whether any of this is accurate or inaccurate, or whether it was the result of conduct on the part of one or more of the parties in this case.

And with respect to 943, Your Honor, we have somebody that's -- the title is "Some Comments." Somebody's comments on the '79 Surgeon General's Report. There is no indication who this was shared with, who this was shared by, or who this was communicated to.

So for all those reasons, Your Honor, I don't think there is a foundation established to admit these or to establish relevance to this case, and to admit them would cause confusion or prejudice which outweighs the probative value.

THE COURT: On the last it says author P.N. Lee, but your comment is we don't know who P.N. Lee is.

MR. TRINGALI: Your Honor, may I 2327

just be heard separately with regard to the last document, 943?

THE COURT: 943, sure.

MR. TRINGALI: One of the defendants they want to introduce it against is BAT Industries. Mr. Westbrook has represented that the document is from British American Tobacco Company, which is a subsidiary. It is not the parent company, BAT Industries. The document, I don't think

that Mr. Westbrook would deny this, is 12 neither written by nor sent to, nor found in 13 the files of BAT Industries. And there is 14 no basis, just because we're the parent company, under the law, to introduce that 16 document against us. Thank you. 17 MR. OHLEMEYER: Or anyone else, for 18 that matter. 19 THE COURT: Mr. Wagner. MR. WAGNER: To supplement 20 21 Mr. Ohlemeyer's objections to 943, if I may, 22 I'd also like to object to 943 on these 23 grounds. 24 First of all, it's irrelevant and 25 contains much irrelevant material such as children of parents who smoke, heart 1 2 problems, it's replete with double hearsay, 3 Your Honor, and it's extremely prejudicial, and I know what the plaintiffs want to do 5 with this. If you'd look at page 6, for example --6 7 these pages are not numbered. If you go to 8 page 6, you see there in 3.2 subparagraph b 9 a double hearsay statement, a reference to a 10 Julian Peto about saving the country money 11 by increasing the number of people dying soon after retirement as a reference to the 12 13 document, the Surgeon General's Report, 14 about costing the nation so much money and 15 so forth. 16 So we've got not only hearsay here, but 17 we've got double and triple hearsay throughout this document. And it's going to be very prejudicial to the defendants if 19 20 this is admitted. Also on page 14, Your Honor, there is a 21 reference to youth smoking, which is a 22 subject of Your Honor's motion in limine 23 24 which was granted before trial, and that 25 subject is excluded from the trial. It also, second page from the end, Your 1 2 Honor, contains references to documents that 3 are not before the jury and it's going to be 4 very confusing. We don't know who the author is. We don't know what was done with 5 this document, we don't know who it was 7 given to, and the jury is going to speculate 8 about this document and its intentions and 9 what was done with it, and I think for all those reasons it is further objectionable 10 11 and should not be admitted. 12 MR. WESTBROOK: Your Honor, would 13 you like me to respond to some or all of 14 those? 15 THE COURT: Take the first one, 16 what you call a Counter-Surgeon General 17 Report. 18 MR. WESTBROOK: Yes, Your Honor.

First of all, with respect to whether it's a

draft of whose document it is, if Your Honor

would turn into the fourth page of the

19

20

21

22 document, you will see that it is not a 23 draft. It's signed by the president of the Tobacco Institute. Your Honor, it is their 24 25 document. On the first page it bears the 1 stamped typed logo, "The Tobacco Institute." It is a defendant's document in this case. 2. It was produced to us by one of the Tobacco Institute members, of Philip Morris. 4 5 As to the redactions, Your Honor, if there is something within the document that refers to children or something that they 8 want specifically redacted, we don't have a 9 problem with taking that out of the 10 document. But there is no question that 11 this is an authentic document, Your Honor. 12 There has been no challenge to authenticity of the document. It's a business record and 13 14 it's a signed copy of the document. 15 Also, Your Honor, the document also is 16 consistent with the next memorandum, that is the Tobacco Institute January 25 memorandum 17 18 which was issued just two weeks after the 19 January 10th document. And that's where 20 they report to their members on the 21 activities that they undertook in issuing 22 this document. And you'll notice on the second page of 23 Exhibit 7129, they've specifically 24 25 referenced our report, "Smoking and Health 1964 to 1979, The Continuing Controversy." 1 That is exactly the title of 25028, the 2. major report. And they talk about exactly how they put it together. There couldn't be 5 a more specific road map as to how this document was created than what it is than Exhibit 7129, 425028. 7 THE COURT: Talk about the third Я 9 document, 943. 10 MR. WESTBROOK: The third document, 11 943, was produced to us by BATCO, and that document is internally consistent as to 12 13 time. It comes several months after the 14 report was issued, and Your Honor will 15 notice that back on page 17, the author discusses the Tobacco Institute report, The 16 17 Continuing Controversy, and goes through it 18 and discusses that specific report. As to the issue, Your Honor, of BATCO 19 20 and BAT, Your Honor did address that in 21 connection with some other documents, and I 22 have some further information that I think, 23 hopefully, will clear up BATCO issues and 24 move these BAT things along which will put 25 the relationship, I believe, Your Honor, of 2332 BAT, BATCO and B&W hopefully to rest. 1 2 If I may, Your Honor, I have a notebook 3 of exhibits with a short outline and 4 improved diagram, and a copy for the 5 defendants as well.

Your Honor, if I could take a minute,

because I think through the rest of the case when this issue comes up about BATCO documents, to discuss why it is that BATCO documents are admissible against both BAT and B&W.

THE COURT: Go ahead.

MR. WESTBROOK: Basically, Your Honor, the documents that I have attached to the short outline indicate that BAT, I believe as Mr. Motley calls them, Big BAT, delegated worldwide tobacco issue coordination to BATCO, and that is in attachment one, Your Honor, which is a BAT annual report.

The document states -- this is a BAT report saying that British American Tobacco Company, Limited, that's BATCO, is responsible for the group's tobacco interests in 48 countries with principal

subsidiaries in the U.K., Europe, Latin America, the Caribbean, Asia and Africa. It also coordinates key strategies for all group tobacco companies, including those in the U.S.A.

That's Brown & Williamson, Your Honor. So BAT, Big BAT, gives BATCO the responsibility for coordinating all those responsibilities. BATCO accepts those responsibilities.

Attachment 2, Your Honor, is BATCO's chairman's advisory conference. And on page 4 of that document, BATCO now -- this is the company that generates the document -- says the meeting, that is, the chairman's meeting of BATCO, endorsed the responsibility delegated by BAT, Big BAT, to BATCO to develop, agree, and coordinate the key strategies for its tobacco activities and agreed the exchange of information necessary to achieve this.

So the parent says BATCO, you take care of the tobacco matters for everybody, including the U.S. company; BATCO says we'll do it. We go on, Your Honor, and we see 2334

that BAT did do it.

The third document, which is a 1989 BATCO document, indicates it is certainly doing it. Paragraph 4. In addition to its direct role in the management and development of its own business, BATCO will also be responsible through the tobacco strategy review team.

They've set up a team now for formulating and agreeing with the other tobacco companies, that includes Brown & Williamson, a group-wide R & D program for the preparation of compendiums on smoking issues and for initiating and coordinating meetings and other activities to promote the group's views on these issues. So they're actively doing it.

The next document, attachment 4, is another document that states the same thing. The American Tobacco Companies recognized that BATCO was representing B&W.

1 2

Attachment 5, Your Honor, which is a BATCO document written to Philip Morris. It says to Philip Morris: Two of your competitors are represented on TRC, that's

the English Tobacco Research Committees; American Brand by Gallahers, and B&W by ourselves. BATCO is telling Philip Morris we are representing B&W in tobacco matters.

So not only have they told the parent they accept the responsibility; not only are they doing it, they tell the rest of the industry that they're representing B&W on tobacco matters. They actually do it. We know they did it. We know they met with B&W. We know they cooperated with B&W on joint research.

Attachment 6 tells us that, Your Honor. That's another BATCO document. The first paragraph says that they're working on a project with different aspects of the work being done in South Hamilton, that's BATCO; Hamburg, that's their German company; and Louisville, that's Brown & Williamson in Louisville, Kentucky. The development follows a meeting in South Hamilton in September involving representatives from all three centers. B&W people come to South Hamilton, meet with the BATCO people, they're exchanging information.

It's an ongoing constant relationship as we see in Exhibit 7, Your Honor, which is attached on page 8. They're talking their need to cooperate, Your Honor, on environmental tobacco smoke.

Paragraph 18 on page 8 says, In view of the fast growing importance of environmental smoke, it was agreed there should be close communication on research between GR in D.C., that's BATCO, B&W, Brown & Williamson, Canada and Germany, with regular meetings of experts at not more than six-month intervals.

This is a document, Your Honor, which is a BATCO document but you'll notice it was produced by B&W. They had it. They knew it.

And finally, Your Honor, Attachment 8, we not only know that everybody knew they were doing it, we know that they actually did it. The B&W people attended the BATCO-sponsored planning meetings which in the English parlance they call structured creativity conferences. Attachment 8 is one of those.

Background. First page says this conference was to bring together key

marketing and product application thinkers to stimulate innovative ideas.

The third page has the list of participants, Ted Para, Brown & Williamson; Mike Scott from BAT; and other members from BATCO.

So, Your Honor, that is an explanation of the chart that's on the left showing that BATCO was in the center. It had the responsibility from the parent. It was coordinating constantly with B&W. It was the agent for B&W on tobacco research matters.

It's for that reason, Your Honor, that we have maintained and do maintain that the BATCO documents are admissible against both the parent and against its sister for whom it was given responsibility of representation on tobacco matters and for whom it was responsible to coordinate the research with B&W.

That's a long way, Your Honor, of discussing why 943 is admissible, but I hope 2338

it sets the stage for the rest of the BATCO documents throughout this trial.

MR. OHLEMEYER: If I may, Your Honor, that's a very eloquent jury argument, but they could have established any or all of that, and I don't know that any of it is true or I agree with any of it. They could have taken 36(b) depositions, they could have served requests for admissions, they could have established through evidence everything they just argued.

Every morning they come in here and they argue to you instead of proving evidentiary foundation. And it's all foundation that may or may not exist.

We spent six years getting this case ready for trial. They could have sued BATCO. They could have asked people to authenticate these documents, they could have asked people to explain it. They could have asked people who communicated these thoughts, who received these thoughts, who acted upon these thoughts. They haven't done any of that. They come in here every morning and make a jury argument and say 2339

admit this stuff.

MR. WESTBROOK: Excuse me, Your Honor. That's not jury argument. I attached the exhibits for everything said and I'll stand by everything said. It's in the documents. It's not my argument.

MR. TRINGALI: If I might respond on behalf of BAT Industries. I think the problem here is that they have not sued BATCO. If they had British American Tobacco Company here as a defendant as they have in most of their cases, then they wouldn't have this issue of trying to find someone to pin

the British American Tobacco Company 15 documents on so they can get them into evidence. That's what's going on here. 16 17 They make this argument about BAT Industries delegating everything and, therefore, these 19 are all their documents. 20 The fact of the matter is, Your Honor, 21 you haven't heard Mr. Westbrook make any contrary assertions. None of these 22 23 documents are written by, sent to, or found 24 in the files of BAT Industries. The only 25 hook he has for BAT is that it's the parent 1 company and he says because it's the parent company and because, as the parent company, 2 3 one of its companies is coordinating activities for the other companies, then 4 every document in its files is admissible 5 against the parent. But that isn't the law. You don't admit documents that are 7 found in the files of a subsidiary against 8 the parent. The issue here is that they 9 10 have not named the person whose documents 11 they want as a defendant, and they're trying 12 to find a hook to get those documents in, 13 and they've now come up with this argument that because there's a parent/subsidiary relationship that any document, even though 15 16 they haven't shown that the document was in 17 any way communicated to the parent, becomes 18 the admission of the parent. And that's not 19 the law, Your Honor. 20 THE COURT: All right. You have another group prepared, Counselor? 21 22 MR. WESTBROOK: Yes, Your Honor. THE COURT: For the record, 25028 23 will be admitted. 7129 will also be 24 admitted. 943 will not be admitted at this 25 2341 1 time. (Plaintiffs' Exhibit(s) 25028, 7129 3 received in evidence.) (Plaintiffs' Exhibit(s) 943 not 4 5 received in evidence.) THE COURT: Go ahead, 6 7 Mr. Westbrook. 8 MR. WESTBROOK: Thank you, Your 9 Honor. Next we have 9338 and 20461. THE COURT: Did you say 9338? 10 MR. WESTBROOK: Yes, Your Honor. 11 12 THE COURT: What's the purpose of 13 9338? 14 MR. WESTBROOK: Your Honor, 9338 is 15 a document produced by Brown & Williamson, a 16 research conference, and on page 6, Your 17 Honor, they discuss the position -- their 18 position with respect to environmental and 19 ambient sidestream smoke. 20 THE COURT: This is offered as to 21 whom? MR. WESTBROOK: This is offered as 22 23 to BAT and as to Brown & Williamson. And this is the document that on page 8

25 discusses the fact that BATCO was going to have close coordination with Brown & 1 Williamson on environmental tobacco smoke issues. And, Your Honor, the reason I've offered it with 20461 is 20461 is an environmental smoke memorandum by C.I. 7 Ayres, and in the research conference memo, 8 9338, Your Honor, they discuss that very 9 document. And on page 7, paragraph 17, they 10 say the personal paper by Dr. Ian Ayres was regarded as a useful contribution and that 11 12 it highlighted our need for better knowledge 13 and understanding of the key chemical and 14 biological aspects of environmental tobacco 15 smoke. 16 THE COURT: This is also offered as 17 to BAT and B&W? 18 MR. WESTBROOK: Yes, Your Honor, so 19 these two documents are internally 20 consistent. One refers to the other. They 21 both refer to environmental tobacco smoke. 22 THE COURT: Mr. Ohlemeyer? 23 MR. OHLEMEYER: May I see a copy of 24 the document in the form that they're 25 offering it? 2343 MR. WESTBROOK: Sure. 1 2 MR. OHLEMEYER: This one? 3 MR. WESTBROOK: Yes. MR. TRINGALI: While Mr. Ohlemeyer 4 5 is looking at the document with regard to BAT Industries, it's the same argument. 7 THE COURT: Same argument? MR. TRINGALI: Yes. 8 THE COURT: That would be to 20461. 9 MR. TRINGALI: It's an internal 10 11 document to British American Tobacco Company 12 not sent to, found in the files of BAT 13 Industries. 14 MR. MOTLEY: Your Honor, may I add one thing to the record. I know Mr. -- we 15 16 learned yesterday that there was some event 17 that occurred in the state of Minnesota case 18 with respect to BAT documents. I don't have 19 the details of it yet, but I think it bears 20 on this very issue that we're addressing 21 this morning, 69 new documents were 22 disgorged in some fashion. 23 You may or may not know, BAT 24 Industries, in fact, was sued. There were a 25 bunch of depositions taken in England and 2344 that sort of thing, and at some point in 2 time, once we figure out exactly what did happen yesterday, my information is from the 3 4 Internet, we may ask Your Honor to revisit. 5 If it makes no difference, we won't. 6 THE COURT: I may revisit this but 7 20461, the same rule would apply, same 8 order. I will not admit. (Plaintiffs' Exhibit(s) 20461 not

received in evidence.) 11 THE COURT: Any objection to 9338, 12 Mr. Ohlemeyer? 13 MR. OHLEMEYER: Yes, Your Honor, for the reasons stated before, there is no 15 foundation established that this was communicated to anyone at Brown & Williamson 16 17 at any point in time that's relevant to the lawsuit, and that it was acted upon or 18 19 agreed to or discussed or in any other way 20 connected to the conduct of the company as 21 it relates to the issues to be tried in this 22 case. So I'd object to it for lack of foundation, lack of relevance, and under 403 23 24 its probative value is outweighed by its 25 confusing and time-consuming fact. 1 MR. TRINGALI: On 9338, if I may, Your Honor, I believe they're also trying to introduce it against BAT Industries. It's 3 the same argument. It's not a BAT Industries document. It's not in their 5 files. 7 THE COURT: 9338, the Court is 8 persuaded should be admitted. 9 (Plaintiffs' Exhibit(s) 9338 received in evidence.) 10 THE COURT: What's the next group 11 12 Counselor? 13 MR. WESTBROOK: Fortunately I had 14 been flipping by some that have previously 15 been admitted in the notebook. The next document, Your Honor, is 9645. 16 17 THE COURT: This is offered as to 18 whom? 19 MR. WESTBROOK: This document is 20 offered as to Philip Morris, Your Honor. I've got another copy of it here, Your 21 22 Honor. It's a 1968 memorandum produced by 23 Philip Morris involving a research meeting 24 of Philip Morris officials on smoking and 25 health and how they're going to approach the issue of whether they'll continue their 1 2. policy of vigorous denials, whether they 3 need to do something else when they're 4 dealing with these issues, especially now 5 that as the federal government is becoming 6 more active on it. 7 MR. OHLEMEYER: Your Honor, it's not on letterhead. It is written by one 8 individual at Philip Morris to another 9 10 individual at Philip Morris. It's entitled 11 "Some Thoughts." There is no evidentiary 12 foundation that these are the thoughts of 13 the company, that these are the actions of 14 the company, or that these were communicated to anyone within or beyond the company. So 15 16 I think it lacks foundation to establish its 17 relevance to this case. And under Rule 403, 18 even if you found it of marginal relevance, 19 it should be excluded because its probative 20 value is far outweighed by its ability to

confuse and mislead the jury. 21 22 MR. WESTBROOK: Your Honor, it's 23 signed by their research director on the 24 last page. It reports on a Hilton Head meeting they had of the company. 25 THE COURT: How do I know that's a 1 2 research director? MR. OHLEMEYER: He is. There's no 3 doubt about that, Your Honor. But my point 4 5 is, this is a document that says some thoughts. The title says "Some Thoughts." 7 These are his thoughts. And at this point, 8 there is no way to know whether his thoughts 9 were shared by the company. Mr. Goldsmith 10 might have written them a memo back that 11 said you're all wet. That's the kind of 12 evidentiary foundation that's necessary to 13 establish the relevance of the issues in 14 this case. MR. WESTBROOK: At most that goes 15 to the weight. And the title isn't "Some 16 17 Thoughts." The title begins "Hilton Head 18 Meeting of the Cigarette Company Research 19 Directors." 20 THE COURT: I think that does go to the weight. 9645 will be admitted. 21 (Plaintiffs' Exhibit(s) 9645 received 22 23 in evidence.) 24 MR. WESTBROOK: Next, Your Honor, 25 is 10513. Hopefully it will be next in 1 order in your notebook. Another Philip Morris document also produced by Philip Morris from a research -- a scientist and 3 researcher to the research director. 5 Mr. Wakeham wrote another document concerning tobacco matters. Also discusses 7 the issue which has been brought up in this 8 case about how asbestos or radioactivity may 9 interact with smoking. 10 THE COURT: Mr. Ohlemeyer? MR. OHLEMEYER: First paragraph 11 12 says, Your Honor, all the suggestions which 13 are written as titles of proposed studies 14 seem to be relevant to cancer research. 15 will assume I know what Summers has in mind 16 and that I know the attitude of the tobacco 17 working group. With these assumptions, I'll 18 try to make some constructive comments. 19 I don't see how this has any relevance or probative value in this case. For all 20 21 the same reasons on the last document, Your 22 Honor, I would object to its admissibility. 23 MR. WESTBROOK: The paragraph on 24 epidemiology states: Aside from the well-known -- occupational synergy is 25 2349 1 suggested. That is, synergy being the 2 interaction of two proposed carcinogens 3 working together. He continues: Aside from the well-known ones of asbestos, radioactive dusts and gases, Summers believes others

should be looked for retrospectively. It 7 shows in 1973 that Philip Morris was aware R of the synergy between asbestos, 9 radioactivity, and other carcinogens. THE COURT: 10513 will be admitted. 10 11 (Plaintiffs' Exhibit(s) 10513 received 12 in evidence.) MR. WESTBROOK: Next, Your Honor, 13 14 is 12879, a trip report dated 1979 produced 15 by Philip Morris. Reports on a meeting that Dr. Osdene, who Your Honor has heard a lot 16 17 about, with a German tobacco scientist 18 discussing smoking and health problems. 19 MR. OHLEMEYER: In Germany, Your 20 Honor. MR. WESTBROOK: There's no 21 22 difference, where they're discussing smoking 23 and health problems. MR. OHLEMEYER: I think at this 25 point in this case there hasn't been any evidentiary foundation established that anything that went on in Germany caused or 3 contributed to cause anything that went on in Mrs. Wiley's world. And I think we're 4 way far afield at this point, Your Honor, and I object to it for all the reasons I've 6 7 previously stated with respect to the last 8 document. 9 MR. WESTBROOK: Your Honor, we're 10 talking about where Philip Morris went and 11 discussed tobacco and health matters with people worldwide. Philip Morris is a 12 worldwide company. From what source they 13 get their information is irrelevant. The 15 fact is they got the information. MR. WAGNER: Judge, if we're making 16 17 objections, I have a couple I need to add. 18 THE COURT: Go ahead. 19 MR. WAGNER: Your Honor, this 20 document is replete, again, with double 21 hearsay and it's essentially, if you read through it -- and I know Your Honor hasn't 22 23 had a chance to read through this, but --24 MR. MOTLEY: I object to 25 Mr. Wagner, who doesn't represent Philip Morris, standing up here and hasn't read through a document, just like the last one 3 he stood up here and ranted that it wasn't signed and all that. Before he stands up and makes these representations, I respectfully suggest he ought to read the 7 document. It's not his client, number one. THE COURT: It's offered against 9 all Defendants. 10 MR. WESTBROOK: Philip Morris is, 11 Your Honor --12 MR. WAGNER: There's a reference in 13 here to my client in the very second 14 paragraph. 15 THE COURT: Go ahead. MR. WAGNER: If you see that RJ 16

17 Reynolds, that's why I'm making the 18 objections, Your Honor. THE COURT: All right. 19 MR. WAGNER: This document, if you 20 even scan through it, doesn't contain 21 22 admissions. What it is are opinions and 23 commentary about apparently people who had 24 meetings and they're now talking about what 25 they -- their impressions were of the things that they observed. These are not 1 admissions, Your Honor. And they are conclusions. 3 4 And just as an example -- and this 5 would be a very prejudicial document, the 6 writer of this document forms the opinion, 7 makes the comment in the second paragraph, 8 if you just look at it, Dr. Koenig felt that 9 RJ Reynolds, through Frank Colby, has been using ICOSI to control the various national 10 associations and so forth. 11 Now, Judge, I mean, there has to be a 12 13 limit as to what can be admitted here in 14 terms of fact versus fiction, fact versus 15 opinion, fact versus commentary. 16 This is not a document that contains admissions. This is a document that 17 contains impressions, commentary by somebody 18 19 about what other people think, what other 20 people are doing and that sort of thing. 21 It's certainly not admissible under any 22 basis. It contains double, triple hearsay 23 and everything else. MR. WESTBROOK: Your Honor, first 24 25 of all, the document is a Philip Morris 2353 business record. Second of all, the statements, whether they're true or not, are not offered for the 3 fact that these people are saying the truth. It's offered for the fact that these people 6 were discussing these things at the time. 7 These are the defendants discussing these 8 things at the time internally. 9 In fact, we contend many things they 10 said were untrue, but the truth of it is not 11 what's important in this case. The fact is 12 that they were saying these things and 13 thinking these things and planning these 14 things. MR. WAGNER: All documents are 15 admitted for -- if they're hearsay 16 17 documents, they have to come in, Your Honor, 18 as an exception to the hearsay rule. If 19 they come in as an exception to the hearsay 20 rule, they're coming in for the truth of the matter asserted in them. They have to have 21 relevancy, have to have basis, have to have 22 23 something in them that makes them an 24 admission, not some commentary, not some 25 reference to what somebody else said about

somebody else about somebody else, Your

1

Honor. Just because it's a Philip Morris 3 document doesn't make it admissible. THE COURT: In my mind, at least at 4 this point, the prejudicial nature of the document outweighs any probative value. 7 12879 will not be admitted. (Plaintiffs' Exhibit(s) 12879 not 8 9 received in evidence.) 10 MR. WESTBROOK: Next, Your Honor, 11 is 12894. 12 THE COURT: Counselor, how many 13 more numbers are there, do you know? 14 MR. WESTBROOK: I would say there 15 appear to be about ten or so, Your Honor. THE COURT: Ten more? Is it 16 17 possible we could bring the jury in, start 18 with your witness, and take this up later or 19 do you need this? 20 MR. MOTLEY: Yes, sir. We won't 21 need this until later on today. 22 THE COURT: I appreciate this, 23 because I did make a promise to that jury. 24 MR. MOTLEY: I might make an 25 observation, Judge, that we've been sitting 1 here and I have yet to hear one of these documents, just keeping score, that they don't object to. 3 MR. WAGNER: If you don't bring 4 5 objectionable evidence in, we don't object. 6 MR. TRINGALI: Your Honor, may I 7 just take one second and ask, with regard to 9338, if there would be a limiting 8 instruction so that it not be as to BAT 9 Industries? It's a research conference, the 10 11 attendees are no one from BAT Industries, 12 again not in their files, not sent or 13 received by them. 14 THE COURT: Mr. Westbrook, you 15 offered that as to BAT and B&W. The request is that it would only be offered to Brown & 17 Williamson. MR. TRINGALI: For the reasons as 18 19 to each of those others documents. We 20 weren't at the conference. 21 THE COURT: I think that's a fair 22 request. Make that limiting instruction. 23 MR. WESTBROOK: Based on your 24 ruling, Your Honor, yes, we'll do that. 25 THE COURT: Let me ask you again, Mr. Westbrook, 10513 was offered as to whom? 1 MR. WESTBROOK: 10513, Your Honor, 2 3 Philip Morris. THE COURT: All right. 5 MR. CROSS: If the Court please. THE COURT: Do you have a witness 6 7 for us, Mr. Cross? 8 MR. CROSS: She is on her way over. 9 It will be just a couple minutes. 10 THE COURT: Who is your first? 11 MR. CROSS: Mary Jane Slaughter. THE COURT: How is the doctor 12

```
13
          today?
14
                   MR. MOTLEY: I just sent to find
15
         out. I will know, hopefully, in a few
16
          minutes. I know he was sick through last
         night. He didn't have dinner with us.
17
18
                  MR. CASSELL: All rise.
19
             (Jury present)
20
                   THE COURT: Be seated. Good
21
          morning, ladies and gentlemen.
22
                   ALL: Good morning.
23
                   THE COURT: Jury appears in its
24
          entirety along with all three alternates.
25
               Plaintiffs will call your next witness.
                   MR. CROSS: Your Honor, at this
 1
          time the plaintiffs would call Mary Jane
          Slaughter to the stand.
 3
                   THE COURT: All right. Raise your
 4
          right hand, ma'am.
    PLAINTIFFS' WITNESS, MARY JANE SLAUGHTER, SWORN
 7
                   THE COURT: Have a seat right over
          there, would you, please. Would you tell us
9
          your name.
10
                   THE WITNESS: Mary Jane Slaughter.
11
                   THE COURT: Spell your last name,
12
          please.
13
                   THE WITNESS: S-L-A-U-G-H-T-E-R.
                   THE COURT: Thank you.
14
15
               Mr. Cross.
16
                   MR. CROSS: Thank you, Your Honor.
17 DIRECT EXAMINATION
18 BY MR. CROSS:
19 Q Mrs. Slaughter, where do you live?
     A I live [DELETED].
     Q What is your address there in [DELETED]?
2.1
     A [DELETED].
22
     Q And where is [DELETED]?
A It's [DELETED].
23
24
25
     Q How long have you lived at that address?
                      SLAUGHTER-DIRECT
                                                2358
 1
      A 34 years, 35 years.
      Q Were you --
 2.
 3
      Α
          34 1/2.
      Q Were you raised in that area?
 5
     A No. I came from Pennsylvania.
 6
     Q Are you a little nervous this morning?
7
     A I'm very nervous.
8
     Q That's quite all right. Everyone who sits
9
          up there generally has that same experience.
10
          Just take a deep breath and we'll get
11
          through this and, hopefully, it won't be
12
          quite such an ordeal.
13
               I want you to give your answers to
14
          these folks over here because they are the
15
          ones that need to hear what you have to say.
     A Okay.
16
17
     Q Where were you -- you were raised as a child
18
          in Pennsylvania?
19
     A Yes, I was.
20
     Q How did you come to Indiana?
21
     A I came to Marion to go to college.
22
     Q What college was that?
```

23	А	I went to, it was called Marion College at
24	11	the time. It's Indiana Wesleyan University
25		in Marion, Indiana.
23		SLAUGHTER-DIRECT
		2359
1	0	
1	Q	And did you then graduate from high school
2	-	in Pennsylvania as well?
3	A	I graduated from high school in
4		Pennsylvania, and I went to college about
5		three years.
6	Q	Did you get a degree from Marion College?
7	А	No, I didn't get a degree. I went from
8		there into nursing school at Methodist
9		Hospital in Indianapolis.
10	Q	Are you a married lady?
11	A	Yes, I am.
12	Q	What is your husband's name?
13	A	Wallace Arthur, Jr.
14	0	And have you how long have you been
15	~	married to him?
16	A	It will be 36 years in June.
17	0	Okay. When did you go to Methodist that
18	×	was Methodist Hospital in Indianapolis?
19	А	That's right.
20		_
	Q	When did you go there for nurse's training?
21	A	I went there in 1957, in August.
22	Q	And is that how long the program is, three
23	_	years?
24	A	It's three years. I graduated in August of
25		1960.
		SLAUGHTER-DIRECT
		2360
1	Q	And what kind of a degree or title did you
2		have after you completed that course?
3	А	I have a diploma from a three-year nursing
4		school.
5	Q	And what does that entitle you to do?
6	A	That entitles me to take state boards and be
7		an RN.
8	Q	Did you take the state Boards an become an
9		RN?
10	A	Yes.
11	0	What is an RN?
12	Ã	Registered nurse.
13	0	There was a lady that testified yesterday,
14	×	Marilyn Bardsley. Do you know her?
15	A	Yes, I went to nursing school with her.
16	0	At Methodist?
17	~	Yes. We were in the same class.
	A	
18	Q	Now, during the course of your training at
19		Methodist, did you have occasion to were
20		there any courses or any educational
21		programs that talked about secondhand smoke
22		or the health hazards that might be
23		associated with it?
24	A	No, there wasn't.
25	Q	After you graduated in 1960, where did you
		SLAUGHTER-DIRECT
		2361
1		go to work?
2	A	I went to work for a month at Marion General
3		Hospital in Marion. And then I went out to
4		VA and applied and got a job there.

5	Q	And you worked at Marion General Hospital
6		for one month?
7	A	Yes.
8	Q	Did you work anywhere else before you went
9	×	to which VA Hospital did you go to?
	7\	
10	A	At Marion.
11	Q	Did you ever work in the Indianapolis
12		Veteran's Administration Hospital?
13	Α	One year. I was at Marion from September of
14		1960 to July, the end of July 1961. And I
15		transferred to 10th Street in Indianapolis.
16		These two years I took some part-time
17		classes at Marion College and then at IU
18		downtown center while I was here in
19		Indianapolis. And then in June of 1962 I
		-
20		got married and transferred back to Marion
21		VA.
22	Q	But your first hospital that you worked as
23		an RN was Marion General Hospital?
24	A	Yes.
25	Q	And that was what year?
	~	SLAUGHTER-DIRECT
		2362
1	7\	1960.
	A	
2	Q	Was smoking permitted in the halls of Marion
3		General Hospital?
4		MR. WAGNER: Objection, Your Honor.
5		Relevancy, time, nothing to do with this
6		case.
7		THE COURT: Sustained.
8	Q	Why did you seek employment at the Marion VA
9	~	Hospital if you had a job at Marion General?
10	A	I wasn't happy at Marion General.
11		Why not?
	Q	-
12	A	Because I didn't like the way I was assigned
13		and I thought there was more security at
14		Marion VA with insurance programs and so on.
15	Q	Can you explain what you mean by more
16		security?
17	A	Well, their benefits, retirement program and
18		insurance and so on.
19	Q	Okay. And so you were, if I may take you
20	~	through this, you were from 1962 to 1965
21		you were at Marion; is that right?
22	7\	Marion VA.
	A	
23	Q	And just so that we're clear on this, there
24		is another Veteran's Administration Hospital
25		in Indianapolis, is there not?
		SLAUGHTER-DIRECT
		2363
1	A	At the time when I was there, there was only
2		10th Street, although they did have a longer
3		term care. Goodness, I can't remember
4		exactly where it was. That was sort of part
5		of the hospital. It was for long-term care
6 7	^	patients.
7	Q	But there was a complex of
8	A	It was Cold Springs Road. It just came into
9		my mind.
10	Q	So there were some there were hospitals
11		or a hospital in Indianapolis that was
12		administered by the Veteran's
13		Administration

```
Yes.
     Q -- in addition to the one in Marion.
     A Yes.
16
17
     Q Okay. So from 1965 to 1973, I think you
          gave us a brief course on what you did.
19
         Let's -- while you were -- that 1962 to 1965
          period that you were at the Marion VA
20
21
          initially, what kind of work did you do
22
          there?
23
     A I was an RN.
     Q And were you assigned to a specific
24
          building? What were your duties?
25
                     SLAUGHTER-DIRECT
          I was a staff nurse on several buildings,
1
          because they would make changes in the way
          they ran the hospital, and for the most part
3
          I was assigned to one unit which consisted
          of about four different buildings. And the
          patients at that time were placed according
7
          to like admissions and then we would send
8
          them out from admissions to the appropriate
9
          other three buildings that they would fit
10
          into for their needs.
11
     Q And why did you come to leave the VA in
12
          1965?
     A Because we had been in a tornado in -- Palm
13
          Sunday tornadoes, and I had a lot of
14
          traumatic stress. And the end of December
15
16
          there were a lot of stormy nights that whole
17
          year, and I was sort of very nervous, and I
18
          stopped working.
19
     Q But you came back to the Veteran's
          Administration in the year 1973; is that
20
          right?
21
22
     A Yes.
      Q What did you do in those intervening years,
23
24
          1965 to 1973?
25
     A After my second son was born in September of

                                                2365
1
          '66, I -- my husband was laid off or was --
          the union had gone on strike, where he
          worked at Haynes Stellite in Kokomo, and I
          went back to work full-time until the strike
5
          was over, which was about the end of
6
          December. So I worked about six weeks, I
7
          suppose, on full-time. And then I went to
8
          part-time until spring of '68 when our third
9
          son was born.
10
      Q
          What hospital was that?
11
     A That was at Howard Community Hospital in
12
          Kokomo.
13
     Q Howard County Community Hospital?
14
     A Howard Community Hospital.
15
      Q And that's in Kokomo?
      A Yes.
16
     Q Okay. Was there smoking permitted on the
17
18
          floor of --
     A Yes, there was.
19
20
                   MR. WAGNER: Excuse me, Judge.
21
         Move the answer go out for purposes of
22
          making an objection. Irrelevant.
```

23 24 25		THE COURT: Objection sustained. The answer will go out and the jury will disregard. SLAUGHTER-DIRECT
		2366
1 2 3 4 5	Q A	You started working part-time in 1968? Yes. Then after our son was born in, like, August, I believe it was, I went to St. Joseph Hospital in Kokomo and started working part-time there until 1973. February.
7 8 9 10 11	Q	Let me just, in order to save the Court some time, let me just ask you this question: Up until, let's say, the late 1980 Let me ask you this. When did you retire from the nursing profession?
12	A	In 1992.
13 14 15 16 17	Q	And up until that time let's take it to just before that time. Let's say up until the late 1980s, at any event, were you aware of any hospital anywhere that prohibited smoking in
18		MR. WAGNER: Objection, Your Honor.
19		No foundation.
20		THE COURT: Sustained.
21		MR. MOTLEY: Your Honor, may I
22		approach?
23		THE COURT: All right.
24		(Bench discussion)
25		THE COURT: Go ahead, Counselor.

```
nurses during your day-to-day employment
6
          activities, did you not?
7
     A
          Yes.
     Q And were you generally aware of the various
8
          current events, if you will, that were going
9
10
          on with regard to the nursing profession in
11
          those years?
12
          Yes.
      Α
13
      Q And were you aware of the employment
14
          opportunities available for nurses in the
15
          year 1973?
16
                   MR. WAGNER: Excuse me. That's a
          yes or no answer, Judge.
17
18
                   THE COURT: You can answer that yes
19
          or no.
20
          Let me repeat the question, Mrs. Slaughter.
21
          Were you aware, generally speaking, of the
22
          employment opportunities available for
23
          nurses in central Indiana in the year 1973?
24
     A Yes, I was.
25
     Q And what was the -- what was the source of
                      SLAUGHTER-DIRECT
                                                 2369
1
          your knowledge --
2.
                   MR. WAGNER: Objection.
3
                   MR. CROSS: May I finish the
          question?
                   MR. WAGNER: I'm sorry, Mr. Cross.
5
          What was the source or basis of your opinion
 6
7
          and your awareness of these matters?
8
     A Well, it was after 1973 that -- in fact, it
9
          was in the 1980s that Medicare started
          cutting out benefits as far as patients in
10
          hospitals. They grouped them in
11
          diagnostic-related groups. And people who
12
13
          were in these -- their diagnosis fell in
          certain groups, they were given so many days
14
          in the hospital and then they were to be
15
16
          discharged in order to cut down financial
17
          output from Medicare.
18
               And also they weren't admitted to the
19
         hospital for X-rays and diagnostic studies
20
          in a lot of cases if they could be done
          without them being in the hospital.
21
22
               So that cut down on patient load in
23
          hospitals. And as a result, nurses were
          being laid off, or the older ones were put
24
25
          down to part-time positions, and the younger
                      SLAUGHTER-DIRECT
                                                 2370
1
          ones were being laid off. And I had some
          nurses asking me, and I --
 3
                   MR. WAGNER: Excuse me, Judge,
          hearsay.
                   THE COURT: We don't want you to
 6
          tell us what other nurses may have told you,
7
          but I think you've generally answered his
          question, ma'am. Thank you.
8
          So if I may paraphrase -- how would you
9
10
          describe the employment opportunities, the
11
          job market for nurses in the mid- to late
12
          '70s?
13
                   MR. WAGNER: Excuse me, Your Honor.
```

14 15 16 17 18 19 20 21 22 23 24 25	Q	You know, there is no foundation here. The witness just answered the last question of Mr. Cross with respect to the 1980s, a period of time not particularly relevant in terms of what we're talking about. THE COURT: I'm not sure it's relevant, the last question. Let's move on, Mr. Cross. Were you concerned about your job security in 1973? MR. WAGNER: Objection, Your Honor, as to this witness' concern. It's not SLAUGHTER-DIRECT
1		relevant.
2		MR. CROSS: It absolutely is, Your
3		Honor.
4	A	I'm sorry I got into the wrong
5		MR. CROSS: Just a minute. It goes
6 7		to whether it goes to the basis of why Mildred Wiley went there too. She was a
8		registered nurse just like this lady, they
9		both went to the Veteran's Administration
10		Hospitals.
11		THE COURT: Are you talking about
12		her job security at Marion VA?
13		MR. CROSS: Yes.
14		THE COURT: If you are, you can ask
15		her that.
16	A	I'm sorry. I got the wrong decade. It was
17		in the mid-'70s that Medicare did this. And
18 19		I'm sure MR. WAGNER: Your Honor, please.
20		The witness is volunteering. This is not
21		there's no question before the witness here.
22		THE COURT: If she wants an
23		opportunity to correct her last answer, she
24		may have that.
25		Now, the answer that you gave regarding
		SLAUGHTER-DIRECT
1		2372
1 2		nurses being laid off, did you mean that to
3		apply to the '70s or '80s? THE WITNESS: That's right. I was
4		confused.
5		THE COURT: Which should it apply
6		to?
7		THE WITNESS: It was in the '70s.
8		About '75, '74, '75.
9		THE COURT: All right. Now the
10		next question he's asked you regarding your
11		job security at Marion VA. Were you
12		concerned about your own job security at Marion VA?
13 14	А	Marion va? No. That's why I went to Marion VA. And
15	A	I'm sure that's why Mrs. Wiley went there.
16	Q	Thank you.
17	×	MR. WAGNER: Judge
18		THE COURT: The last as to after
19		she said I'm sure that's why Mrs. Wiley went
20		there will go out. The jury will disregard
21		that.
22		I'm going to tell you, ma'am, I just

THE COURT: Go ahead, Mr. Cross. MR. CROSS: Thank you. Q Would you tell this jury why you felt that going to the VA Hospital job offered you security. MR. WAGNER: Judge, it asks for mental process of this witness and her motivation. THE COURT: I think she's answered that, Counselor, in terms of security. Let's move on. So was it 1973 or 1974 that you returned to the Veteran's Administration? I returned in February of 1973. Where were you assigned when you returned? A I was assigned to Building 16. What kind of hospital ward or whatever was Building 16? A It was chronic psychiatric patients and also some with some medical disabilities. How long did you work in Building 16? A I worked there from 1973 until I retired in 1992. So that would have been 19 19 years. SLAUGHTER-DIRECT 2374 Were these older patients or younger patients or a mix of both that you treated there? A At first it was a mix of both and gradually as the patient population got more debilitated, we got more and more debilitated, we got more and more debilitated patients. Over what time frame did this transformation occur? A The whole 19 years. A Yes. A Over what time frame did this transformation occur? A And were these all veterans? A Yes. A Chronic psychiatric patients. Describe for the jury, please, what your understanding of the chronic psychiatric patient was. I would say they are long-term psychiatric patients who didn't respond well enough to leave the hospital with medication. Were these people basically permanently institutionalized as a result of their condition? A It would say they are long-term psychiatric patients who didn't respond well enough to leave the hospital with medication. Were these people basically permanently institutionalized as a result of their condition? A It always sort of appeared that way, but our SLAUGHTER-DIRECT 2375 goal was to get them back to the community if we could. And what degree of success did you have generally speaking?	23 24 25		want you to answer the questions. Don't volunteer anything. THE WITNESS: Okay.
THE COURT: Go ahead, Mr. Cross. MR. CROSS: Thank you. Would you tell this jury why you felt that going to the VA Hospital job offered you security. MR. WAGNER: Judge, it asks for mental process of this witness and her motivation. THE COURT: I think she's answered that, Counselor, in terms of security. Let's move on. Building 16? If was chronic psychiatric patients and also some with some medical disabilities. Q How long did you work in Building 16? A I worked there from 1973 until I retired in 1992. So that would have been 19 SA 19 years. SLAUGHTER-DIRECT 2374 Q Were these older patients or younger patients or a mix of both that you treated there? A At first it was a mix of both and gradually as the patient population got more debilitated, we got more and more debilitated patients. Q Over what time frame did this transformation occur? A The whole 19 years. Q And were these all veterans? Yes. Q And when you say "chronic," I think you used the word "chronic patients"? A Chronic psychiatric patients. Q Describe for the jury, please, what your understanding of the chronic psychiatric patient was. A I would say they are long-term psychiatric patients who didn't respond well enough to leave the hospital with medication. Were these people basically permanently institutionalized as a result of their condition? A It always sort of appeared that way, but our SLAUGHTER-DIRECT 2375 goal was to get them back to the community if we could. Q And what degree of success did you have			
19 A It was chronic psychiatric patients and also some with some medical disabilities. 21 Q How long did you work in Building 16? 22 A I worked there from 1973 until I retired in 1992. 24 Q So that would have been 19 25 A 19 years. There were some who we managed to discharge. A lot of them would go to other facilities, 6 7 like nursing homes. Or some of them might even -- early on they used to have like a community residence program where patients 9 10 could go live in the community, like group homes. But it was set up with individuals 11 who owned their home and would sort of room 12 13 and board these patients. 14 Q Can you describe for the jury generally what 15 you did, what your duties were, the positions you occupied during the 19 years 17 you worked in Building 16. 18 A When I first went there, I worked on evening shift. I was the only RN on evening shift. 19 And I had nursing assistants. There was 20 21 three floors. The first few months they were remodeling the first floor, so we sort 22 23 of had more patients on up on the other wards. We sort of moved them together. And 24 25 then after a few months we had all three SLAUGHTER-DIRECT 1 floors occupied by these patients. And I was in charge of all three floors and did the RN duties and supervised the nursing assistants. And at that time I also supervised four 5 6 other wards where there was an LPN who did 7 the medications and so on. 8 Q And did those duties change over the years? 9 A Gradually they changed. They reduced the patient load, and so it ended up that I 10 was -- well, I don't think they completely 11 got back to just Building 16 while I was 12 13 evenings, because I changed and went on days 14 for a couple of years because my husband had to -- well, I worked evening shift for about 15 16 five and a half -- it was about five and a 17 half years when he was laid off at Stellite 18 in Kokomo. And he was off for six months. 19 And then he got a job at Chrysler 20 Transmission Plant. And after working one 21 week he had to go on evening shift, which I 22 was on. 23 And in order to take care of our boys at home, I went to day shift, and I was on 24 25 day shift and did all the midnight relief SLAUGHTER-DIRECT 2377 1 for the nurse that would be off who was doing the midnight duties. And I would take her days off. So I worked day shift three 3 days a week and was on nights two days a week for two years. And then I went on night shift full-time. 6 7 What approximate year was this? 8 That would have been apparently about '81, I 9 believe. 10 Q Okay. And then what happened? 11 A Then I went on full-time night shift I think 12 for about two years with the night relief 13 again. And then I went on full-time nights

14		again for the rest of my employment.
15	Q	When did you first meet Mildred Wiley?
16	A	When she came to work at VA, I believe it
17		was the summer of 1993.
18	Q	1993?
19	A	I believe so.
20	Q	Think hard. 1993?
21	A	I'm sorry. No. It was in 1973.
22	Q	That was just a few months after you started
23		there?
24	A	Yes.
25	Q	This was in she worked in Building 16,
		SLAUGHTER-DIRECT
_		2378
1		did she not?
2	А	That's right.
3	Q	And you were still working in Building 16 at
4		the time of her death, were you not?
5	A	Yes, I was.
6	Q	So you were there before and after her?
7	A	Yes.
8	Q	The entire time she was there?
9	A	Yes.
10	Q	Can you tell this jury what you observed
11		personally about the practice of people
12		smoking in Building 16 during that time
13		period.
14	A	The patients were allowed to smoke and
15		employees both. The patients who could not
16		manage their own cigarettes, the ones who
17		smoked, which was almost all of them, were
18		given cigarettes by the staff that had been
19		purchased for them and stored on the ward
20		about every two hours. Sometimes we had to
21		hold their cigarettes for them. We always
22		had to light their cigarettes.
23	Q	Why was that?
24	A	Because they weren't allowed to carry
25		matches.
		SLAUGHTER-DIRECT
_		2379
1	Q	So the nurses carried matches?
2	A	Yes. Or we had them in available there
3		where we kept the cigarettes where we would
4		get them for them.
5	Q	Were there you kept the cigarettes in the
6	_	ward?
7	A	Yes. We stored them in the ward in what we
8		call the canteen. It was cabinets that we
9		locked their cigarettes in. And each day we
10		would give each patient a package of
11		cigarettes according to which ones they had
12		in the canteen.
13		And we would take their cigarettes, a
14		pack of cigarettes out a day each day and
15		put it in a box. And then when every
16		patient when the patients were given
17		cigarettes, it was their cigarette was
18		removed from their package and given to
19	_	smoke.
20	Q	So the patients did not get to keep the pack
21	_	of cigarettes during the day?
22	A	It depended on the patient, whether they

23		were trustworthy. Some of the patients
24		might carry their cigarettes. Other ones
25		who couldn't, we kept them in the box.
		SLAUGHTER-DIRECT
		2380
1	Q	And were there any patients on the floor
	Q	
2		that did not smoke?
3	A	There were very few.
4	0	And what did did they receive any kind of
5	~	distribution of anything from the canteen
6		while the other people were getting their
7		cigarettes?
8	A	Well, if they wanted them, they would have
9		candy bars available which would be in
10		there. We had a bin for each patient in the
11		canteen. It would be in their bin and we
12		would get it out and give it to them when we
13		passed out the canteen.
14	Q	Were these the same bins or whatever that
	Q	
15		the cigarettes were stored in?
16	A	Yes.
17	Q	So some bins had cigarettes and some bins
18		had candy bars?
19	A	That's right.
		_
20	Q	Did you observe any of the staff of the
21		hospital smoking in Building 16?
22	A	Almost all of them did.
23	0	And would that include the nursing staff?
24	Ā	Some of them. Yes. The nursing assistants
25		and the RNs.
23		
		SLAUGHTER-DIRECT

would go down to breakfast. 6 Q Most of them got up around 6:00 in the 7 morning? 8 A That's right. Q Were there any chain smokers on the floor 9 10 that you observed? A I'm sure there were some chain smokers. I 11 12 can't recall any names at this time, but the 13 ones who were privileged and carried their 14 own cigarettes, they would smoke as much as 15 they wanted to. Q When this smoke would be generated from the 17 patients and the staff smoking on the floors 18 of Building 16, how long would it take for 19 it to dissipate? 20 A It would take a long time. Because it was 21 so constant, it's hard to say how fast it 22 would dissipate. But like when they would 23 come back from breakfast and they were all 24 smoking at the same time, it would take a 25 long time to clear out all that smoke so you SLAUGHTER-DIRECT 1 can see without a fog being above your head or down to your head. Q When you were working third shift, did there come a time during the -- third shift is nights; right? 5 A That's right. 6 Q From when to when roughly? 7 8 A Excuse me? 9 Q What time to what time? 10 A 12:00 midnight to 8:00 in the morning. Q And during that time period did the smoke 11 ever go completely away? 12 A I suppose while the patients were sleeping 13 14 it wasn't -- you know, the smell was always 15 there. 16 Q Did it ever go completely away? Did the 17 smell ever go completely away? 18 19 Q Were there fans or anything like that in the building during your time there? 20 A On third floor there was a large exhaust fan 21 22 about three feet in diameter up near -- up 23 near the ceiling on the wall. And on the 24 other side of the room there was a smaller 25 fan. I suppose it was maybe 18 inches that SLAUGHTER-DIRECT 2384 was an exhaust fan, but it didn't take care 1 of that much smoke. 3 Q Did they run the fans all year round? A No. They would just turn them on whenever it got really smokey. And then there were 6 always -- also fans on the walls in 7 different areas that would move the air 8 around, but they weren't exhaust fans. Q Did there come times during the winter when 9 10 they would turn the fans off? 11 A Yes, when it was cold. 12 Q Why would they turn the fans off when it was 13 cold?

Because it would get too cold in there. The 14 15 patients would complain to personnel that it 16 was too cold. 17 Q And the fans running would make that happen? 18 19 Q Do you recall during this time period attending staff meetings at the hospital in 20 21 Building 16? 22 A Yes. 23 Q What were these staff meetings? A Well, they had staff meetings, like when the 24 day shift came in, they would have a meeting 25 SLAUGHTER-DIRECT 1 to discuss what needed to be done during the day or what -- if there was any policies or anything changed that needed attention right 3 then. They would relay this to the personnel on day shift, and once a week the night shift was included in a staff meeting 7 with the day shift in the break room. And 8 it was for the same purposes, communication 9 between all the nursing employees. 10 Q And you may have said this, but I didn't 11 catch it if you did. Would these meetings 12 take place at the same time every day? 13 A Yes. Q What time was that? 14 A The night shift people would come into work 15 16 at 7:30, and they would all meet in the 17 break room. And on the mornings that night 18 shift met with them, anytime after 7:30 we 19 would try to get there for a meeting. Q Would these -- did you attend all these 20 meetings on a regular basis? 21 22 23 Q And did they occur pretty much as you 24 described them throughout the time you 25 worked there? SLAUGHTER-DIRECT 2386 A No. That was -- that was -- I don't even 1 know how long. The meetings between the 3 employees when they came on duty was pretty much of the time. With the two shifts 5 together, oh, I suppose it was the last -- I think the head nurse before Millie did that. 6 7 I think it was about seven years, I suppose. 8 Q Did Millie Wiley attend any of these 9 staffings, to your knowledge? 10 Yes. She was the head nurse, so it was her 11 meetings. Q And she conducted them then? 12 13 A Yes. 14 Q I think there's been some testimony that she 15 became a head nurse around the year 1985. Would that comport with your memory? 16 17 A Somewhere around there, uh-hum. Q So from that point, the last six years, she 18 19 would conduct these staff meetings? 20 A Yes. 21 Q Now, was there smoking taking place in these 22 meetings?

23	Α	Yes. The employees, all the employees that
24		smoked, smoked at that time.
25	Q	And the room where these staff meetings took
43	Q	
		SLAUGHTER-DIRECT
		2387
1		place, was it ventilated very well?
	70	
2	A	No. It had a wall fan. It didn't have an
3		exhaust fan.
4	Q	So it just blew the smoke around?
5	Ã	Yes.
6	Q	How did the smoke affect you?
7	A	It made me cough.
8	Q	Did you take any reminders of the smoke home
	Q	
9		with you in the evenings or the mornings
10		when you went home?
11	A	Oh, yes. I was saturated with smoke, my
12		hair, my clothes. I go from my garage into
13		the utility room and take my uniform off
14		right there. And then I would shower, wash
15		my hair.
		-
16	Q	Was that true the entire time period that
17		you worked there?
18	A	Yes.
19	Q	Now, did you ever participate in the process
20		of getting into the bins in the canteen and
21		the ward to take out cigarettes or candy
22		bars for the patients?
23	А	Yes. When I was on day shift, I did that.
24	Q	And did you have occasion in so doing to
25	~	
23		observe what kinds, what brands were being

5		correct?
6	A	That's right.
7	Q	I'd ask you to look at that list that you
8		have there, Deposition Exhibit 3, and I'd
9		ask you to look at the next to the last item
10		on that list. I don't think you mentioned
11		that one.
12	А	Winston.
13	Q	You saw Winstons being smoked in the
14		hospital?
15	A	Yes.
16	Q	And your testimony to this jury is that you
17		saw each and every one of those brands being
18		smoked in the Veteran's Administration
19		Hospital in Building 16 during the years
20 21		1973 to 1991 when Mildred Wiley worked there?
22		MR. WAGNER: Leading and
23		suggestive.
24	А	That's right.
25	А	THE COURT: She can answer that.
23		SLAUGHTER-DIRECT
		2390
1		What was your answer?
2		THE WITNESS: I said that's right.
3	Q	Thank you. Now, you were you, as I
4	~	remember, submitted to two different
5		depositions in this case, did you not?
6	А	Yes, I did.
7	Q	When was the first deposition that you gave?
8	A	December 1994, I believe.
9	Q	And you gave another deposition when?
10	A	I believe it was August of '97.
11	Q	How long did the first deposition go?
12		MR. WAGNER: Your Honor, objection.
13		Irrelevant.
14		THE COURT: How is that relevant?
15		Sustained.
16	Q	Do you recognize any of these gentlemen at
17	73	the table as having been at your deposition?
18 19	A	I don't recall. Okay. During that deposition you were asked
20	Q	many, many questions about your knowledge of
21		cigarette smoking and secondhand smoke and
22		direct smoking, were you not?
23		MR. WAGNER: Your Honor, I think
24		this is improper direct examination. It's
25		irrelevant, anticipatory.
		SLAUGHTER-DIRECT
		2391
1		MR. CROSS: Your Honor, may we
2		approach?
3		THE COURT: Well, I don't think
4		that's necessary, Counselor. The last
5		objection is sustained. Let's move on.
6	Q	During the time that you were a nurse, did
7		you ever receive any continuing education?
8	A	Yes. We had classes that gave us education
9	_	on many subjects.
10	Q	And was this a continuing process from the
11		year during your second stay at the VA
12		Hospital from 1973 to your retirement in '92, was this true all the time, you were
13		32, was this true all the time, you were

1 /		
14		getting additional courses?
15	A	There would be like seminars, yes.
16	Q	It was a regular activity for nurses?
17	A	No. It was scheduled by nursing education,
18		and they would tell us to go to certain
19		meetings for that was educational
20		meetings.
21	Q	And you were required to attend these
22	Q	
	_	courses from time to time?
23	A	Yes.
24	Q	During this educational process, did you
25		ever receive any training or education or
		SLAUGHTER-DIRECT
		2392
1		information concerning the health hazards
2		posed by secondhand smoke?
3	А	No, we did not.
4	Q	During your entire tenure at the Veteran's
	Q	
5		Administration Hospital, did you ever
6		receive any bulletins or information or
7		advisories from the Veteran's Administration
8		as to health hazards of secondhand smoke?
9	A	No, we didn't.
10	0	And during that same period, up until the
11	~	time that Millie Wiley died, did you ever
12		receive any information yourself as to the
13		hazards of secondhand smoke?
14	A	No, I didn't.
15	Q	During this same time period, did you
16		attempt to keep up on what was going on in
17		the nursing profession?
18	A	Yes.
19	Q	From 1973 to 1991 did you read journals,
20	×	nursing magazines, anything of that nature?
21	71	
	A	Yes.
22	Q	What were some of the publications you might
23		have read?
24	A	Most of it would be on patient care.
25	Q	Did you ever read any of these that had as
		SLAUGHTER-DIRECT
		2393
1		their subject matter health hazards of
2		secondhand smoke?
3		MR. WAGNER: Objection, Your Honor,
4		as to what this witness may or may not have
5		read that pertains to that subject. It's
6		not relevant.
7		THE COURT: Overruled. You can
8		answer that.
9	А	Please state the question again.
10	0	Was the subject matter of any of these
11	Q	
		journals or publications that you read in an
12		attempt to keep current on what was going on
13		in your nursing profession from 1973 to 1991
14		a concern with the health hazards of
15		secondhand smoke?
16	A	No.
17	Q	Do you believe strike that.
18		What would be your belief as to the
19		extent to which you, as a nurse, would have
20		
∠ ∪		had knowledge of gugh matters concerning
21		had knowledge of such matters concerning
21 22		had knowledge of such matters concerning health as opposed to someone who was merely a member a lay person who was not in your

23 24		<pre>profession?</pre>
25		Honor. No foundation, irrelevant. SLAUGHTER-DIRECT
		2394
1 2 3 4	Q	THE COURT: I'm going to ask you to rephrase that question. I know where you're going here, but I want you to rephrase it. People who are let me do it this way:
5 6 7 8		Mrs. Slaughter, do you think that, in general, you kept up on current affairs in the nursing profession as much as other nurses?
9	А	Yes.
10	Q	Do you think that other nurses generally
11 12	V	exercised the same amount of continuing interest in that subject as you did?
13	A	You mean continuing education?
14	Q	Yes.
15	A	Yes.
16	Q	Do you feel like you were about do you
17		think you were all doing about the same in
18		terms of keeping up on new trends and new
19		affairs?
20		MR. WAGNER: Excuse me. I didn't
21 22		mean to interrupt. This witness doesn't have foundation as to what every other nurse
23		may have known.
24		THE COURT: You can answer that. I
25		think the question was, generally did you
		SLAUGHTER-DIRECT 2395
1		all have about the same level of continuing
2	A	education.
	А	
2	A	education. Yes. They tried to keep us abreast on
2 3 4	А	education. Yes. They tried to keep us abreast on updates in nursing, from nursing education,

MR. WAGNER: Well, Your Honor. Now we're really far afield. THE COURT: Sustained. Then let me ask the question that goes to the heart of it, Mrs. Slaughter. Do you believe that you, as a nurse who kept up with continuing education and kept current in affairs by reading journals and periodicals and so forth, did you have a better knowledge and understanding of current status of health affairs than the average person, than a lay person? MR. WAGNER: Objection. No foundation. It's irrelevant also as to that SLAUGHTER-DIRECT 2396 kind of an opinion coming from a lay
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25	Q A Q	education. Yes. They tried to keep us abreast on updates in nursing, from nursing education, and I'm sure that a lot of us I did. I got magazines pertaining to nursing to keep up with our profession. Now, what did your husband do? He was a factory worker. Did he keep abreast of recent changes in health and nursing as you did? MR. WAGNER: Well, Your Honor. Now we're really far afield. THE COURT: Sustained. Then let me ask the question that goes to the heart of it, Mrs. Slaughter. Do you believe that you, as a nurse who kept up with continuing education and kept current in affairs by reading journals and periodicals and so forth, did you have a better knowledge and understanding of current status of health affairs than the average person, than a lay person? MR. WAGNER: Objection. No foundation. It's irrelevant also as to that SLAUGHTER-DIRECT
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25	Q A Q	education. Yes. They tried to keep us abreast on updates in nursing, from nursing education, and I'm sure that a lot of us I did. I got magazines pertaining to nursing to keep up with our profession. Now, what did your husband do? He was a factory worker. Did he keep abreast of recent changes in health and nursing as you did? MR. WAGNER: Well, Your Honor. Now we're really far afield. THE COURT: Sustained. Then let me ask the question that goes to the heart of it, Mrs. Slaughter. Do you believe that you, as a nurse who kept up with continuing education and kept current in affairs by reading journals and periodicals and so forth, did you have a better knowledge and understanding of current status of health affairs than the average person, than a lay person? MR. WAGNER: Objection. No foundation. It's irrelevant also as to that SLAUGHTER-DIRECT 2396 kind of an opinion coming from a lay

5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Q A Q	Limiting your answer to just members of your profession, the nursing profession, you believe that you were as educated and familiar with the current affairs in nursing and health care as any other member of your profession during the time period you worked at the VA? I believe I was. Let me just ask you this question then: When was the first time that you had an awareness in your life that secondhand smoke had the potential to cause lung cancer? MR. WAGNER: Objection as to what this witness may or may not have known. It's not relevant. MR. CROSS: It certainly is, Your Honor. Their defense is that Mildred Wiley
22 23 24 25		knew and should have known better, should have got another job. And this witness is her contemporary, had the same education, was there during the same period, had the SLAUGHTER-DIRECT
		SLAUGHTER-DIRECT 2397
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17		same continuing education and knowledge and if she didn't know, Mildred Wiley didn't know, and it's probative and we should be allowed to go into it. THE COURT: Mr. Ohlemeyer. MR. OHLEMEYER: For the record, Your Honor, I'd move to strike Mr. Cross' characterization of our defense. There will come a time when we will get to present our defense and I think Mr. Cross shouldn't be telling the jury what he thinks our defense is. MR. CROSS: Does he want to stipulate that is not their defense? I'll be happy to move on. MR. WAGNER: We object to Mr. Cross' comments, Your Honor.
18		THE COURT: The last objection is
19 20 21 22		sustained. You may want to rephrase that, Counselor. MR. CROSS: Might I have just a
23 24 25	Q	moment? Mrs. Slaughter, when was the first time that you had an awareness that secondhand smoke SLAUGHTER-DIRECT
-1		2398
1 2 3 4 5 6		could cause fatal lung cancer? MR. WAGNER: Objection, Your Honor, as to what this witness may or may not know. It's not relevant. THE COURT: I'll allow it. You may answer.
7 8 9 10 11 12 13	A Q A Q	My first knowledge was when Mrs. Wiley died. And what year was that? 1991. Do you recall giving a contrary opinion during your deposition in 1994? MR. WAGNER: Well, now, I'm going to object.

```
14
                   THE COURT: Objection is sustained.
15
                   MR. CROSS: Do I take it that that
16
          subject matter is not to be explored during
17
          the course of her testimony?
                   THE COURT: You take it I sustained
19
          the last question.
      Q Would you describe for the jury your
20
21
          personal relationship with Mildred Wiley.
                   MR. WAGNER: Judge, I believe this
22
23
          is all cumulative again if we're going down
          this road. We've heard this from four or
24
25
          five, six witnesses.
                      SLAUGHTER-DIRECT
                                                 2399
                   MR. CROSS: I don't think the
 1
          testimony will take as long as Mr. Wagner's
          objection, Your Honor.
 3
                   THE COURT: Tell us generally,
 4
          ma'am, were you close friends with Mrs.
 6
          Wiley?
 7
      A We were friends, especially while we were
          working. And there was not really a social
8
9
          relationship except we knew each other, and
          I have been at her home one time. And I
10
11
          would see her at different church functions,
12
          and we would speak. And I met her husband.
                   THE COURT: All right.
13
     Q Did you ever have any conversations with
14
          Mildred Wiley about the health hazards of
15
16
          secondhand smoke?
17
                   MR. WAGNER: Objection, Your Honor.
18
          Hearsay.
19
                   MR. CROSS: That's a yes or no,
20
          Your Honor.
                   THE COURT: You can answer that yes
21
22
          or no.
23
          Would you rephrase it.
                   THE COURT: Did you talk to Mrs.
24
25
          Wiley about secondhand smoke. You can
                      SLAUGHTER-DIRECT
                                                 2400
 1
          answer that yes or no.
 2
      A Yes.
          Did you ever talk with Mrs. Wiley about the
 3
 4
          health hazards of secondhand smoke and the
 5
          possibility that it could cause fatal
 6
          disease?
7
     A No.
 8
                   MR. WAGNER: Your Honor, move the
          answer go out. Calls for hearsay, Your
9
10
          Honor.
11
                   MR. CROSS: It's yes or no.
12
                   MR. WAGNER: What's happening here
13
         is counsel is interjecting in his question
14
          the subject matter which then calls for a
15
          hearsay yes or no answer.
16
                   THE COURT: Objection is overruled.
17
               Your answer was, ma'am? What was your
18
          answer to the last question?
19
                   THE WITNESS: I said -- I think I
20
         said yes. Rephrase that question.
21
     Q I'll be glad to ask that question again.
22
     A If I can remember the question.
```

23 24 25	Q	Did you ever have any conversations with Millie Wiley about the health hazards of secondhand smoke and in particular whether SLAUGHTER-DIRECT
		2401
1 2	А	or not it could cause fatal lung cancer?
3	Q	Thank you. Are you familiar in working
4	~	with her in the same environment for that 17
5		years she was there, did you have occasion
6 7		to observe whether or not she was taking the same continuing education courses you were?
8	А	No. There were different times when there
9		would be nursing education courses. And all
10 11		the nurses could not leave the wards at the same time. Some of the courses would be
12		repeated, and they would try to get
13		everybody included. And then other times
14 15		she would get to some of them and I would get to some of them.
16	Q	But you were aware that she was taking
17		courses throughout that time period?
18 19	A	Yes. She would take the available go to the available meetings and courses on
20		nursing education subjects.
21	Q	You understood that she had that she was
22 23	А	a registered nurse? Yes, she was.
24	Q	And you understood that she was a head nurse
25		for a long period of time, I believe you
		SLAUGHTER-DIRECT 2402
		2402
1		said?
2	A	said? Yes, she was.

And do you know what did you personally SLAUGHTER-DIRECT 2403 observe what measures she might have taken

```
to be a foundation laid here, Your Honor.
 6
          Whether was she in her home for breakfast,
 7
          dinner.
                   THE COURT: She said she was in her
8
          home one time. Are you talking about work,
9
10
          Counsel?
                   MR. CROSS: I am, Your Honor.
11
12
          What did you personally observe in terms of
          what measures Mrs. Wiley took to take care
13
14
          of herself?
15
      A Well, she was careful not to gain weight.
          If she gained a few pounds, she would try to
17
          get it taken off. She was very neat and
          clean and had very good hygiene.
18
19
     Q Do you know, based on your familiarity with
20
          this woman in the nearly two decades you
21
          spent working with her, do you have an
22
          opinion as to whether or not she would have
23
          knowingly exposed herself to a potentially
24
          fatal health hazard?
25
                   MR. WAGNER: Well, Your Honor, this
                      SLAUGHTER-DIRECT
 1
          is --
 2
                   THE COURT: Objection sustained.
 3
                   MR. WAGNER: These prejudicial
          questions that Mr. Cross is asking, the way
          he phrases it, Your Honor, it's just totally
 5
          basically unfair to the defendants to allow
 6
 7
          this to continue to go on. This is probably
 8
          the 10th or 12th time Mr. Cross has done
9
          this.
10
                   MR. CROSS: I have no more of these
          questions, Your Honor.
11
     Q You've been retired since 1992?
12
13
      A That's right.
14
     Q Have you observed any effects on your health
          as a result of the time you spent at the
15
16
          Veteran's Hospital?
17
                   MR. WAGNER: Your Honor, objection.
18
          Not relevant.
19
                   MR. CROSS: I'll stand by the
          question, Your Honor.
20
21
                  MR. WAGNER: Your Honor, may we
22
          approach if we're going to argue about this?
23
                   THE COURT: I'll sustain the
          objection at this point.
24
25
               Go ahead, Mr. Cross.
                      SLAUGHTER-DIRECT
                                                 2405
 1
                   MR. CROSS: Can I have a moment to
          confer?
 3
               I pass the witness, Your Honor.
                   THE COURT: All right.
          Cross-examination, Mr. Wagner?
                   MR. WAGNER: Yes, Your Honor.
 6
 7
   CROSS-EXAMINATION
8 BY MR. WAGNER:
     Q Good morning, Mrs. Slaughter.
9
10
     A Good morning.
11
     Q We've never met; right?
12
     A Right.
13
     Q My name is Richard Wagner. I'm one of the
```

14		
		attorneys for a couple of the defendants in
15		this case. I want to ask you some
16		questions. I'm going to go kind of slowly
17		back through some things and some of the
18		things I may want to ask you about may have
19		been covered in those depositions that you
20		gave, that you told the jury about. Okay.
21		And if I don't ask you a question that
22		you understand, why you just tell me and
23		
	_	I'll try to rephrase it. Okay?
24	A	Uh-hum.
25	Q	All right. You were pretty well acquainted
		SLAUGHTER-CROSS
		2406
1		with Mrs. Wiley, as you testified. You
2		knew, did you not, that Mrs. Wiley worked at
3		the Davis Clinic before she came to the
4		Veteran's Administration Hospital?
	7\	I knew she worked there.
5	A	I IIION DIIO NOTITOG OFFOTO.
6	Q	Did you know she worked there for four years
7		before she came to the Veteran's
8		Administration Hospital?
9	A	I wasn't aware how long she worked there.
10	0	But you do remember that?
11	A A	Yes.
12	Q	Now, just to kind of put things in
13		perspective a little bit, Mrs. Slaughter,
14		you belong to a church that doesn't believe
15		in smoking; correct?
16	А	That's right.
17	0	And that church is the Wesleyan Church?
18	A A	
		That's right.
19	Q	That's the same church that Mrs. Wiley and
20		Phil Wiley belong to; correct?
21	Α	That's right. But I don't see what
22		relevance that has to do with this.
		THE COURT: What you want to do,

Would that

23 24		say, Mrs. Slaughter, that there were fewer
24 25		employees than there were during the daytime working?
		SLAUGHTER-CROSS 2408
1	А	Let's see. Yes, there were fewer employees.
2	0	Thank you. And there would have been fewer
3	~	visitors during those shifts? Evenings and
4		nights?
5	A	Evening shift we probably had more visitors
6		than the days did.
7	Q	But then the midnight to 7:30 a.m. shift
8		there would have been, I suppose, very few
9	-	visitors.
10 11	A	There's not usually visitors at that time.
12	Q	And Mrs. Wiley worked evenings and nights as well as days; right?
13	А	When she was scheduled when they needed
14		somebody from the day shift to cover.
15	Q	But it's a fact, isn't it, that you don't
16	~	recall ever working with Mrs. Wiley on the
17		night shift; right?
18	A	No, I don't believe I ever did.
19	Q	And it's fair to say, isn't it,
20		Mrs. Slaughter, that when Mrs. Wiley became
21		the head nurse, she spent about half of her
22 23	А	workday in her office?
23 24	А	I don't believe she spent half of her workday sitting in her office. She was
25		probably in and out of her office and that
23		SLAUGHTER-CROSS
		2409
1		may have amounted to a half day.
2	Q	
2	Q	may have amounted to a half day. Do you recall telling us in your deposition that Mrs. Wiley spent about half of her day

And from where her office was situated, she SLAUGHTER-CROSS 2410 could not see the nurse's station; right? The nurse's station was on the same side of

5		from where her office was; correct?
6	7\	
	A	No.
7	Q	All right. And Mrs. Wiley did not have any
8		ashtrays in her office, did she? That's a
9		correct statement, isn't it?
	70	
10	A	I don't recall seeing any there.
11	Q	And she had a fan on the wall?
12	A	Yes, there was a fan.
13	Q	In her office?
_	~	
14	A	That's right.
15	Q	And she had a window in her office; correct?
16	A	There was a window there.
17		And generally speaking, everybody that
	Q	
18		worked in the Veteran's Hospital knew that
19		Mrs. Wiley did not like smoking; right?
20	A	No, she didn't like smoking.
21		I want to add something else to the
22		question before. There was a window in her
23		office but she could only raise it six
24		inches.
	_	
25	Q	Okay. And you never saw anyone smoking in
		SLAUGHTER-CROSS
		2411
1		
1		Mrs. Wiley's office; correct?
2	A	I wasn't in there when other people were in
3		there as a rule, and I don't recall that I
4		
		saw anybody.
5	Q	Well, it's a fact that, based upon your
6		observations of Mrs. Wiley and what you can
7		remember, you never saw anyone smoking in
8		Mrs. Wiley's office; isn't that correct?
9	A	I don't recall anybody smoking in there.
10	Q	Thank you.
11	Ā	But when I was in there, there wasn't
	А	
12		anybody else in there usually.
13	Q	In fact, you've been in Mrs. Wiley's office
14		also when the window was open; right?
		<u> </u>
15		MR. CROSS: Your Honor, could we
16		have a time reference, please, to these
17		questions?
18	Q	During the time that she was head nurse when
	Q	_
19		she had her office, you were in Mrs. Wiley's
20		office when she had the window open; right?
21	А	If you would call six inches a window open,
22	=	yes.
	~	-
23	Q	Was there some remodeling that was done in
24		Building 16 from time to time?
25	А	Yes.
23		
		SLAUGHTER-CROSS
		2412
1	Q	And what did that consist of?
2	Ã	Rearranging the walls.
	_	
3	Q	Ceilings too?
4	A	Yes. The ceilings had been lowered, I think
5		three times on 16A.
6	\circ	Let's talk for a minute about the patients
	Q	
7		in Building 16. Isn't it a fact that during
8		the last several years that you worked in
9		Building 16 there were only 21 patients on
10		the first floor?
11	A	After they remodeled it the last time, which
12		I don't recall what year it was, it was 21
13		patients.

14 15 16 17 18 19 20 21 22 23 24	Q A	Now you recall, don't you, Mrs. Slaughter, reading in the early 1970s reports that were being published about somebody's assertion or possible assertions that there that exposure to secondhand smoke might cause lung cancer? I don't recall that in the '70s. I understand I said that in my deposition, but I was mistaken. There was no secondhand smoke information at that time, and I was confused with primary smoke.
25	Q	Well, you do recall testifying about that in SLAUGHTER-CROSS 2413
1		your deposition; correct?
2	A	I recall that's in my deposition, but it's
3		wrong.
4	Q	And
5	A	At that time that I did not get it
6		straight.
7	Q	And do you remember, Mrs. Slaughter, giving
8		this answer to this question in that
9		deposition at page 123:
10		"So it's your understanding, if I'm
11		correctly understanding, that in the 1970s
12		there was a general understanding among the
13		nursing staff about publications and reports
14		that exposure to environmental smoke could
15		be a health hazard?
16		"Answer: Oh, yes, even my retarded son
17		knows that. He listens to the news, he
18		comes in and tells me when he hears it."
19		Do you remember giving that answer to
20		that question?
21	A	I told you I gave that answer, but I was
22		confused in the time period. There was no
23		such thing as articles on secondhand smoke
24		at that time. It was primary smoke in the
25		'70s. My son I was confused. My son was
		SLAUGHTER-CROSS
		2414
1		too young at that time to even do such.
2		This was in the late '80s.
3	Q	Yes, ma'am. But all I'm asking is that you
4		gave that answer to that question in your
5		deposition; correct?
6	A	Yes, I did in my deposition.
7	Q	All right. And it's also a fact, isn't it,
8		that in the 1970s that you believed that
9		there was a general understanding among the
10		nursing staff about publications and reports
11		that alleged that exposure to environmental
12		tobacco smoke could be a health hazard;
13		isn't that right?
14	A	I just told you that I was confused on that.
15		There was no such thing. Nursing service
16		knew that smoking, primary smoking was not
17		good for your health. In fact, the Surgeon
18		General came out with that information in
19		'64. And there was no such thing on
20		environmental smoke. Do you think we would
21		have allowed patients to have it if we
22		realized that?

23 24 25	Q	All I'm asking you, Mrs. Slaughter, is whether or not you answered this question with this answer in your deposition at page SLAUGHTER-CROSS
		2415
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	A Q	"Do you recall in the early 1970s reports beginning to be published about the possible association between exposure to secondhand smoke and lung cancer? "Answer, yes." I believe I explained that. Excuse me, ma'am. And the next question was, "And was that something that was widely reported at the time? "Answer: Well, you heard it on the news and everything else. How could you help but not know it. "Question: Did you ever have any discussions among the nursing staff when these reports began coming out? "Answer: Only when policies changed. "Question: When was that? "Well, there were different times when reports would come out that the hospital would set up policies as to employee smoking.
23 24		"Question: Can you give me a rough-year period?
25		"Goodness, I believe it was probably in
		SLAUGHTER-CROSS
1 2 3 4 5		the '70s when they came out and said that people weren't supposed to smoke in meetings but they still did." Do you remember giving those answers to those questions in your deposition?
2 3 4 5 6	A	the '70s when they came out and said that people weren't supposed to smoke in meetings but they still did." Do you remember giving those answers to those questions in your deposition? I remember giving those answers.
2 3 4 5 6 7	A Q	the '70s when they came out and said that people weren't supposed to smoke in meetings but they still did." Do you remember giving those answers to those questions in your deposition? I remember giving those answers. And they were true at the time you gave
2 3 4 5 6		the '70s when they came out and said that people weren't supposed to smoke in meetings but they still did." Do you remember giving those answers to those questions in your deposition? I remember giving those answers.

And after you read your deposition, you understood you had an opportunity to make changes that were wrong? That is to say, to make changes as to testimony that you gave SLAUGHTER-CROSS

5		is just arguing with the witness.
6		THE COURT: The last is a fair
7		question. Did they tell you you had an
8		opportunity to change an answer?
	70	
9	A	Yes, they did, but I didn't realize that
10		the time reference. I mean, he keeps
11		talking to me about the time reference when
12		I've told him that I did not understand at
13		the time that I was saying the 1970s.
14	Q	Well, let's move on.
15	~	It's also correct, isn't it,
16		Mrs. Slaughter, that during the entire time
17		that you worked in Building 16, patients
18		were not allowed to smoke in their rooms?
19	A	Yes, that was a fire hazard.
20	Q	Nurses, I take it, would spend time in the
21		patients' rooms caring for them; right?
22	А	Yes.
23	Q	And did the patients on the first floor go
24	Q	to bed about 8:00 or 9:00 p.m.?
	7	
25	A	Yes.
		SLAUGHTER-CROSS
		2418
1	Q	And smoking in the Veteran's Administration
2		Hospital was prohibited after the patients
3		went to bed?
4	А	Yes, it was prohibited in the bedrooms.
	_	
5	Q	It was always prohibited in the bedrooms,
6		wasn't it?
7	А	Yes.
8	Q	Now, you never complained about having to
9		help patients smoke; isn't that correct?
10	А	No.
11	0	It's not correct?
12	A	No. I never complained.
13		You never made any formal complaints about
_	Q	
14		the smoke; isn't that also correct?
15	А	That's right. Just complained to people
16		around me.
17	Q	You talked about, in answer to Mr. Cross'
18		questions, you talked about fans and where
19		they were and also there was also a smoke
20		eater in the day room. Isn't that correct?
	7	
21	A	There was a smoke eater in the day room on
22		the second floor. There was not an exhaust
23		fan there.
24	Q	But there was a smoke eater on the second
25		floor in the day room?
		SLAUGHTER-CROSS
		2419
1	7\	
1	A	That's right.
2	Q	And you also recall, do you not,
3		Mrs. Slaughter, that the Veteran's
4		Administration instituted no smoking
5		policies and designated certain areas where
6		smoking could be done?
7	A	When are you referring to this?
8	Q.	I'm just asking if you recall that
	Q	
9		occurring. You do recall, do you not, that
10		the Veteran's Administration issued no
11		
		smoking policies and designated certain
12		smoking policies and designated certain areas where smoking could be done?
	A	

1 /		-haut 100
14	0	about '89.
15	Q	Now, these windows in Building 16 that you
16		referred to, I think you said they could be
17	7	raised about six inches; right?
18	A	That's right.
19	Q	And they could be opened anytime; right?
20	A	That's right.
21	Q	And in the warm weather, the windows were
22	70	always open, weren't they? Yes. It was hot.
23 24	A	
25	Q	And in colder weather they would be opened to get the air circulating and stay open SLAUGHTER-CROSS
-1		2420
1		until it got too cold and then someone would
2	_	close them; right?
3	A	Yes, it depended on the weather.
4	Q	And you recall when the Veteran's
5		Administration installed window air
6	_	conditioners in Building 16; correct?
7	A	Yes, they installed one at a time as they
8		had funds appropriated.
9	Q	And talking about the day room in Building
10		16 on the first floor and fans, there was
11 12		always an exhaust fan in the first floor day
	70	room; correct?
13 14	A	I believe they took that exhaust fan out
15		when they put the air conditioning in. I'm
16	0	not positive. Do you remember that you told us that that
17	Q	was the case in your deposition?
18	А	There had been an exhaust fan in there. I
19	А	can't recall if it was in there the last
20		time the last time they did or not. I
21		don't recall for sure. It seems like it was
22		in the other window. The air conditioner
23		was in one window.
24	Q	Let me see if I can refresh your
25	×	recollection. At page 81 of your deposition
23		SLAUGHTER-CROSS
		2421
1		do you recall this question and your answer:
2		"Did anyone ever suggest putting fans
3		in the day room to help ventilation in the
4		day room?
5		"Answer: There was one exhaust fan put
6		in on the first floor."
7	A	Now that I think about it, the second floor
8		was the one that didn't have an exhaust fan.
9		The first floor did. It was about, I
10		suppose, an 18-inch exhaust fan.
11	Q	Now, that list of cigarette brands that
12		Mr. Cross asked you about; do you remember
13		the questions that he asked you about those?
14	A	Uh-hum.
15	Q	And let me ask you a few questions about it.
16		You worked at the Veteran's Administration,
17		just to go back for a moment, from 1960 to
18		1965 and 1973 to 1992. Is that correct?
19	A	That's right.
20	Q	And all those years were a few years ago at
21		this point; right?
22	A	That's right.

23 24 25	Q	And when you before you made that list, Mr. Howard met and talked with you about that list?
		SLAUGHTER-CROSS
1 2 3	A	No. He called me on the telephone and asked me if I could recall. And I told him the names of some of the cigarettes.
4 5 6 7 8	Q	In fact, in about October of 1970 1997, Mr. Howard called you and asked you if you would sign an affidavit listing brands of cigarettes smoked at the Veteran's Administration; correct?
9	A	That's right.
10 11	Q	And then he prepared an affidavit and brought it out to your house?
12	A	That's right.
13	Q	This was on October 18, 1997?
14	A	Yes.
15 16 17	Q	Did he tell you at that time that it was something that would be used in this lawsuit?
18	Α	That's right.
19 20	Q	Now, October of 1997 was five years after you retired from the Veteran's
21		Administration Hospital; correct?
22	A	Yes.
23	Q	And you may not know this, but this lawsuit
24		was filed in 1993, so it was four years
25		after this lawsuit was filed; right?
23		SLAUGHTER-CROSS
		2423
		2423
1	7\	Voc
1	A	Yes.
2	A Q	And Mrs. Slaughter, you've given different
2		And Mrs. Slaughter, you've given different versions of that list of cigarette brands
2 3 4		And Mrs. Slaughter, you've given different versions of that list of cigarette brands that you identified; right?

```
mentioned to the jury?
 6
      A All it said was generic. I don't know who
 7
          made them.
     Q As to that list of brands that you told the
8
          jury about, it's a fact, isn't it,
9
10
          Mrs. Slaughter, that you don't know what
          specific years those brands were sold or
11
12
          smoked at the Veteran's Administration?
13
      A Between 1973 and 1992, I know.
      Q But you don't know what specific years
14
15
          within that long time period that any of
          those brands were sold at the hospital;
          correct?
17
18
      A I don't have a running list of what
19
          cigarettes were sold what years, but I know
20
          during the time I worked there, these
21
          cigarettes were sold and smoked.
22
     Q Patients smoked cigars and pipes there too?
23
     A Not very many. Occasionally you might have
24
          one that did.
25
     Q Visitors brought the patients cigarettes,
                      SLAUGHTER-CROSS
                                                 2425
 1
          cigars, pipes from time to time?
 2.
      A On occasion they might.
 3
                   MR. WAGNER: Let me check my notes
          here for a minute, Your Honor.
                   THE COURT: All right.
 5
                   MR. WAGNER: I think that's all I
 6
 7
          have. Thank you.
 8
                   THE COURT: Mr. Ohlemeyer, any
9
          questions?
10
                   MR. OHLEMEYER: Yes, Your Honor.
          Do you want to ask them now or take a break?
11
                   THE COURT: Go ahead.
12
                   MR. OHLEMEYER: Thank you, Your
13
14
          Honor.
15 CROSS-EXAMINATION
16 BY MR. OHLEMEYER:
17
       Q Good morning, Mrs. Slaughter. My name is
          Bill Ohlemeyer, and I represent three of the
19
          companies Mr. Wiley has sued. And we've not
20
          met before today, have we?
21
      A
          No.
     Q I want to ask you a couple of questions.
22
23
          First of all, may I see the list that you
24
          brought with you?
25
      A Sure.
                      SLAUGHTER-CROSS
                                                 2426
 1
          Am I correct, Mrs. Slaughter, that you were
 2
          deposed in this case in December of 1994?
          Do you remember that?
 3
 4
      A Yes.
          And do you remember that there was a court
 6
          reporter there, just like there is today,
 7
          that took down the questions and the
 8
          answers?
9
      A
          Yes.
10
     Q And you remember Mr. Howard was there
11
          representing Mr. Wiley?
12
13
      Q Mr. Cross and Mr. Motley weren't there;
```

14 15 16	A Q	isn't that right? No. They weren't there. And a man by the name of Mr. Koethe asked
17 18	~	you the questions first. Do you remember that?
19 20 21 22 23	A Q	I remember he asked me some questions. And you remember at page 8, Counsel, line 5, that he told you if you didn't understand any of his questions, to let him know and he would clarify or rephrase the questions.
24 25	A Q	Yes. And you remember that he told you if you SLAUGHTER-CROSS
_		2427
1 2 3		wanted to take a break at any point in time that you should let him or Mr. Howard know and he would be happy to take a break?
4	A	Yes.
5 6 7	Q	And he asked you, even, if you were on any medication or anything that might interfere with your ability to understand the
8		questions?
9 10		MR. CROSS: Your Honor, I will object to these questions. They are not
11		relevant to any issue that's before this
12		court.
13		THE COURT: Where are you going,
14		Counselor?
15 16		MR. OHLEMEYER: To the errata sheet, Your Honor.
17		THE COURT: All right. Go ahead.
18	Q	Do you remember that?
19	A	Yes.
20	Q	And you remember at the end of the
21		deposition the court reporter asked
22 23		everybody at the table, including you, whether you were going to read and sign the
23 24		deposition? Do you remember that?
25	A	Yes.
		SLAUGHTER-CROSS
		2428
1	Q	And Mr. Howard told you it was up to you
2 3		whether you wanted to see a copy of what you said and you said you did.
4	А	Yes.
5	Q	And then do you remember the court reporter
6		actually sent you a sheet of paper on which
7		you could make corrections to the
8		deposition?
9	A	Yes.
10 11	Q	Let me hand you what I've marked, Your Honor, for identification as Exhibit I-1.
12		MR. OHLEMEYER: May I approach?
13		THE COURT: Sure.
14	Q	Is that the sheet, Mrs. Slaughter, that the
15		court reporter sent you?
16	A	Yes.
17	Q	And you made those corrections to those
18 19	А	pages? Yes.
		4
Z ()		
20 21	Q	And it's cut off at the bottom but that's the top of your signature there on the

23 24 25	A Q	It looks like it. All right. And am I correct that on page 50, line 15, you said they wrote the word SLAUGHTER-CROSS
		2429
1		"retired" when it should have been
2		"returned"; right?
3	А	That's what I wrote on the paper. I don't
4	11	recall that line.
5	Q	And there was another point where you said
6	×	they wrote the word "she" and it should have
7		been "we"?
8	А	If I wrote it down, that's what it was.
9	Q	Another one where it says "course" and it
10	~	should have been "nurse"?
11	A	Apparently that's right.
12	Q	One said "on" and you said it should have
13		been "off duty." Right?
14	A	To the best of my knowledge, it must be. I
15		wrote it there.
16	Q	And then at one point in the deposition the
17		word "occasion" occurred and you said it
18		should have been "occasions" with an S.
19	А	Yes.
20	Q	Those are the only changes you wished to
21		make following your deposition.
22	A	I didn't notice anything else or I would
23		have written it.
24	Q	And am I correct at that deposition,
25		Mrs. Slaughter, you listed three brands of
		SLAUGHTER-CROSS
		2430
1		cigarettes that you could remember being
_		
2		sold at the VA?
3	А	sold at the VA? I also stated that there were other brands
3 4	A	I also stated that there were other brands that I didn't remember.
3	A Q	I also stated that there were other brands that I didn't remember. But you could only remember three in

```
We worked on the same building. There were
          times when we worked on the same ward.
6
7
      Q What was her assignment?
8
     A She was a staff nurse.
9
     Q Where?
10
     A Building 16.
      Q What floor?
11
      A Usually she worked on third floor.
12
     Q Did you see her every day at work?
13
14
     A Well, I saw her when she was there and I was
15
        there at the same time. Our schedules were
16
          according to nurses. They had to cover the
17
          assignments.
     Q You had different assignments and different
18
19
          schedules; isn't that right?
20
     A Oh, yes.
21
     Q When is the last time you saw her?
22
     A When is the last time I saw her?
23
     Q Yes.
24
     A I saw her yesterday.
25
     Q And how?
                      SLAUGHTER-CROSS
                                                2432
1
      A I met her in the hotel.
      Q Did you have dinner together?
2.
3
      A Yes.
      Q Am I correct, Mrs. Slaughter, that Mrs.
          Wiley didn't like cigarette smoke?
5
      A That's right.
 6
7
      Q
          And she didn't allow cigarette smoking --
8
          let me rephrase that.
9
               You never saw anyone smoke cigarettes
10
          in her office?
     A I don't recall seeing anybody smoke in her
11
          office.
12
13
      Q And you doubt that anyone would have smoked
14
          in her office?
          I never said that and I don't know.
15
      A
     Q Well, do you remember page 60, Counsel, line
16
17
          2, the December 19, 1994 deposition,
18
          Mrs. Slaughter, these questions and your
19
          answers:
20
               "Question: Did you ever observe people
21
          smoking in her office?
22
               "Answer: I never did.
23
               "Question: Did she indicate to you
24
          that she didn't like or didn't want people
25
          smoking in her office?
                      SLAUGHTER-CROSS
                                                2433
               "Answer: I don't think she ever did
1
          verbally but I know she wouldn't like that.
               "Question: That was your understanding
 3
          based on knowing her?
               "Answer: I doubt that anybody smoked
          in her room."
6
7
               Do you recall those questions and those
8
          answers, Mrs. Slaughter?
      A I do recall it.
9
10
     Q Now --
     A I said I doubt it. I did not say that they
11
12
         did not or that they did.
13
     Q Do you know whether there were health
```

14		warnings or warnings on the packages of
15		cigarettes that were used at the VA?
16	А	Yes, as I recall, there was warnings on them
17		after the Surgeon General.
18	Q	And you understand who the Surgeon General
19	~	is?
20	А	Yes. He's the Surgeon General of the United
21		States.
22	Q	And do you know who operates the Veteran's
23	×	Administration Hospital?
24	А	The Veteran's Affairs.
25	Q	Is that a government agency?
23	Q	SLAUGHTER-CROSS
		2434
1	А	Yes.
2		
	Q	Do you know whether or if the Surgeon
3		General of the United States issued any kind
4		of report in 1986 about the health effects
5	_	of exposure to environmental tobacco smoke?
6	A	I don't recall.
7	Q	Is it your testimony that no one at the
8		Veteran's Administration Hospital ever said
9		anything to you about any Surgeon General's
10		Report?
11		MR. MOTLEY: Excuse me, Your Honor,
12		I'll raise once more what I raised at your
13		bench yesterday, and it's just one more
14		incidence of what I raised yesterday, and I
15		ask again for a 105 instruction. If they
16		can persist in this line of questions, I
17		think that the case is building that that
18		needs to be given.
19		MR. OHLEMEYER: Your Honor, this
20		was a question on direct examination of this
21		witness.
22		THE COURT: The request for special
23		instruction is denied.
24		Go ahead, Mr. Ohlemeyer.
25	Q	Mrs. Slaughter, do you remember the names
		SLAUGHTER-CROSS
		2435
1		of any of the names of the candy bars
2		that were distributed at the VA Hospital?
3	А	I don't recall the names of the candy bars.
4	Q	Just a couple of questions, Mrs. Slaughter.
5	~	Am I correct that there are laws that
6		require certain procedures to be performed
7		only by doctors and registered nurses?
8	А	I never saw any laws. There are certain
9		things that I understand nurses and doctors
10		do.
11	Q	And do you know whether let me rephrase
12	Q	the question.
13		There came a time in the 1980s in this
13 14		
		part of Indiana where nurses were being
15 16		recruited by other hospitals; isn't that
16	77	right?
17	A	Nurses were being recruited by who?
18	Q	Other hospitals.
19	A	I don't recall. I know VA recruited nurses.
20	Q	Did there come a time, do you recall, in the
21		'80s where the Medicare people tried to
22		encourage the use of home care by nurses?

23 24 25	А	Nurses in the home rather than putting people into the hospitals? When did you say that was?
		SLAUGHTER-CROSS
1	Q	During the 1980s.
2	A	Yes. That was my understanding.
3	Q	And that created a demand for nurses in this
4	~	part of Indiana, didn't it?
5	A	I wasn't aware of it.
6	Q	You didn't a recruiter or nobody ever
7		called you and ever tried to get you to
8		move?
9	A	No.
10		MR. OHLEMEYER: That's all I have,
11 12		Your Honor. Thank you. I'll give the witness the list back.
13		THE COURT: Any redirect,
14		Mr. Cross?
15		MR. CROSS: Yes, Your Honor, thank
16		you.
17	REDIRE	CT EXAMINATION
18	BY MR.	CROSS:
19	Q	Mrs. Slaughter, you were did you have any
20		specialization as a respiratory nurse?
21	A	No, I didn't.
22 23	Q	Did Millie Wiley?
23 24	A O	Not to my knowledge. And there are such there are nurses who
25	Q	specialize in respiratory care; is that not
25		SLAUGHTER-REDIRECT
		2437
1		correct?
1 2	А	correct? There probably are now, because nurses have
2	А	There probably are now, because nurses have gone into all areas on specialization. And
2 3 4	A	There probably are now, because nurses have gone into all areas on specialization. And on units in hospitals that deal with

```
to the time only when she was head nurse?
 6
                  MR. OHLEMEYER: Objection, Your
 7
          Honor, leading.
8
     A Yes.
                   THE COURT: The last was leading
9
10
          and the jury will disregard the response.
          Rephrase that, Counselor.
11
                   MR. CROSS: I will, Your Honor.
12
13
     Q During what period of time was it that you
14
          were referring to when you were responding
15
          to Mr. Wagner's questions about Mrs. Wiley's
17
     A During the time she was head nurse.
18
     Q And when was the time that she was the head
19
     A I believe she became head nurse in 1985 or
20
21
          '86.
22
     Q And did she have an office at any time prior
23
         to 1985 or 1986?
24
     A No.
     Q Okay. Now, do you know anything about an
25
                     SLAUGHTER-REDIRECT
          open door policy that Mrs. Wiley had with
 1
 2.
          regard to her office?
 3
                  MR. OHLEMEYER: Objection, Your
          Honor, leading.
                  MR. WAGNER: Also outside the scope
 5
          of redirect, Your Honor.
 6
 7
                  THE COURT: You can answer that.
 8
      A Her door was always open.
9
     Q Do you know why that was?
10
     A Because she didn't want to exclude herself
          from anybody. She wanted her office an open
11
          door so we could come in any time to talk to
12
13
          her.
     Q Thank you. Did you ever see Mrs. Wiley
14
15
          actually light a cigarette for a patient?
                  MR. WAGNER: Outside the scope of
16
17
          redirect, Your Honor.
                  MR. CROSS: This is redirect,
19
          Mr. Wagner. It can't be outside the scope
20
          of it.
                   THE COURT: Overruled. You can
21
22
          answer that question. Did you understand
23
          the question?
24
     A Yes, I have.
25
     Q Why was smoking prohibited in the bedrooms?
                     SLAUGHTER-REDIRECT
                                                2440
 1
          For safety reasons.
      Α
      Q
          What do you mean?
 3
      A Patient may drop a cigarette, set the place
 4
          on fire.
     Q Was there smoke in the bedrooms,
          nonetheless, even though smoking was not
 6
 7
          permitted in there?
 8
     A Oh, it saturated all the air, wherever it
9
          was in the building.
10
     Q Anywhere in the building?
11
     A Yes.
12
     Q Including Mrs. Wiley's office?
13
     A Yes.
```

Mr. Wagner read you an extended bit of 14 15 testimony from your first deposition in 1994 in which you talked about your retarded son 16 17 came in and told you things about that he had seen on television. How old is your 18 19 son? A My son is now $34 \frac{1}{2}$. 20 Q And can you tell this jury the nature of his 21 22 impairment? MR. WAGNER: Well, Judge, this is 23 24 irrelevant, Your Honor. 25 MR. CROSS: It is not irrelevant. SLAUGHTER-REDIRECT I'm entitled to explain her testimony. 1 THE COURT: Generally. Go ahead and answer that. 3 He was brain damaged at birth and he had 4 epilepsy. 6 Q When was he born? 7 A He was born in 1963. Q So in the years of the 1970s he would have 8 9 been anywhere from 7 to 16 years of age? 10 A That's right. Q How old was he when he would come in and 11 12 tell you about these reports he was seeing 13 on television? MR. WAGNER: Well, Judge, you know, 14 15 this is improper. The answer that was read 16 to her was her answer about what she knew, 17 and she emphasized her answer in her 18 deposition by referring to the fact that 19 even her son would know that, and it's not proper to go into all that. That was just part of the deposition answer, Your Honor. 21 22 THE COURT: Overruled. You can 23 answer the last question. A My son finished school when he was -- it was 24 in 1982, and after that he decided to have a 25 SLAUGHTER-REDIRECT 1 bike riding program for exercise, because we talked about exercise. I had two other sons 2. who were high school students. And so he 3 4 decided for his exercise he would ride a bike. And he would have a radio. And so in 5 the late '80s he would come in because he 6 7 knew that smoking had been in the news during that time, and he didn't like smoke, 8 9 and he would come in and tell me anything he 10 heard about it on the radio. Q And I want to draw your attention to a 11 12 specific provision in the deposition. This 13 was in the testimony that Mr. Wagner read to 14 you. 15 Page 122, line 20, Counsel. MR. WAGNER: Excuse me, Your Honor, 16 17 it's improper for Counsel to inquire of the 18 witness about things that she said in her 19 deposition. We're certainly allowed to 20 question the witness on cross-examination 21 about things she said in her deposition but 22 it's improper for Mr. Cross to read parts of

23 24 25		her deposition. MR. CROSS: I was reading the same thing he read to her. I would like to ask SLAUGHTER-REDIRECT
1 2		her the question THE COURT: Is it the same question
3 4		he asked? MR. CROSS: The same question he
5 6		asked. THE COURT: Go ahead.
7		MR. CROSS: Again, this is on page
9		122, line 20, for the record. MR. WAGNER: Which deposition?
10 11	Q	MR. CROSS: First deposition. "Question: Did you ever have any
12	~	discussions among the nursing staff"
13 14		This is in the context of the early 1970s reports that he was talking about.
15 16		"Question: Did you ever have any discussion among the nursing staff when
17		these reports began coming out?"
18 19		Your answer was: "Only when policies changed." And Mr. Wagner asked you if that
20		was your testimony.
21 22	Q	MR. WAGNER: Excuse me. May I finish the question? And that was
23 24		your answer. The question I have is what policies were you referring to in your
25		answer?
		SLAUGHTER-REDIRECT 2444
1	А	Those were the policies like I said, I
2 3		was mixed up on the date. Those were the policies in the late 1980s when they started
4 5		changing the rules for where personnel could smoke.
6	Q	In the 1970s, was there any restriction on
7 8		smoking anywhere in the Veteran's Hospital other than the bedrooms because of the fire
9 10	A	hazard? No, there wasn't.
11	Q	Now, being as how where is that errata
12 13		sheet? There has been submitted to you
14		Defendants' Exhibit I-1.
15 16		MR. CROSS: May I approach, Your Honor?
17 18	0	THE COURT: Go ahead. This, you understand, as Mr. Ohlemeyer
19	Q	questioned you, these are a list of items
20 21		that you read and you found incorrect in your deposition and you corrected them;
22	70.	correct?
23 24	A Q	That's right. How many are there? How many things did you
25		note? SLAUGHTER-REDIRECT
_	_	2445
1 2	A Q	Five. There were five different items. Now, let
3 4		me suggest to you this: Your first deposition was attended by ten lawyers.

```
MR. OHLEMEYER: Your Honor, I
6
          object to all of this.
7
                   THE COURT: Sustained to the last.
      Q All right. The first deposition was 144
9
          pages long.
10
      A That's right.
                   MR. OHLEMEYER: Same objection.
11
12
                   MR. CROSS: This is relevant, Your
13
          Honor.
14
                   THE COURT: Sustained. Let's move
15
          on.
      Q Mr. Ohlemeyer asked you some questions about
          whether or not you understood the ground
17
18
          rules of the deposition. Correct?
19
      Α
          Yes.
20
          Whether you understood you could take a
          break, and if you didn't understand the
21
22
          question, you were supposed to give -- tell
23
          them so. Do you remember giving that
24
          answer?
25
      A Yes. That's right.
                     SLAUGHTER-REDIRECT
                                                 2446
1
          Do you recall how long the first deposition
2.
          took?
3
                   MR. OHLEMEYER: Same objection,
          Your Honor.
                   MR. WAGNER: Same objection, Your
5
 6
          Honor.
7
                   MR. CROSS: He's asked her about
8
          her -- you know, whether she was alert and
9
          she understood the ground rules. I ought to
10
          be able to get into the fact that this
11
          was --
                   THE COURT: Objection sustained.
12
13
          Let's move on.
14
          In any case, Mrs. Slaughter, do you have an
          impression as to whether these questions
15
          were asked of you near the beginning of your
16
17
          deposition, in the middle or near the end?
     A It was near the end, close to 4:00 in the
19
          afternoon.
     Q Thank you. Now, when you -- that was your
20
21
          first deposition. You gave another
          deposition, looks like last year sometime.
22
23
          Do you recall how long that deposition took?
24
                   MR. OHLEMEYER: Same objection.
25
                   MR. CROSS: I'll withdraw the
                     SLAUGHTER-REDIRECT
                                                 2447
1
          question.
          In both of your depositions, Mrs. Slaughter,
 3
          do you recall the court reporter giving you
 4
          an oath to tell the truth, the whole truth,
          so help you God?
      A Yes, I do.
 6
7
          And what does that mean to you?
      A That means as close as I can recall and as
8
9
          truthful as I know.
10
      Q Mr. Wagner asked you do you have any
11
          religious convictions about cigarette
12
          smoking. Do you remember that question?
13
          Yes.
     Α
```

14 15 16	Q	What are the nature of the convictions that you have in your religion concerning that subject?
17	А	I was always taught that it was wrong to
18		smoke because it was harmful to the body,
19		and I have always felt that it was not good
20		to put things into your body that would be
21		harmful.
22	Q	And does your religion have convictions
23		about what your conduct should be when you
24		assume an oath to tell the whole truth and
25		nothing but the truth so help you God?
		SLAUGHTER-REDIRECT
		2448
1		MR. WAGNER: Your Honor, I think
2		the oath speaks for itself.
3		THE COURT: Sustained.
4	Q	And as you sit here today, would you
5		represent to this jury that you, in fact,
6		told the truth to the best of your ability
7	_	every time you have taken such an oath?
8	A	I certainly have.
9	Q	These cigarette packs that when you were
10		discussing cigarettes from the canteen to
11 12		the patients who smoked, you would actually take the cigarettes out of the packs and
13		hand them to the patients, would you not?
14	А	Yes.
15	Ō	And did you then you then had to assist
16	Q	the patients in smoking sometimes, did you
17		not?
18	А	Yes, we did.
19	Q	How would you do that?
20	~	MR. WAGNER: Your Honor, it's all
21		repetitious and outside the scope of our
22		cross-examination and proper redirect
23		examination.
24		THE COURT: I agree. Sustained.
25	Q	Well, did you have to feed the veterans the
		SLAUGHTER-REDIRECT
		2449
1		candy bars or were they able to unwrap those
2		wrappers themselves?
3	A	Usually if a patient had a candy bar, they
4		would do it themselves because, if they
5		weren't able to open up candy, there may be
6		nuts and so on in it that they would choke.
7		Unless they just requested it, we didn't
8 9	0	order candy bars. And what was the relative amount of
10	Q	cigarettes that you would dispense from the
11		canteen as opposed to candy bars?
12	А	It depended on the ward that you were on.
13	21	Some wards no patients would get candy bars.
14		Other wards there may be anywhere from two
15		to maybe five. Depends on the size of the
16		ward.
17	Q	And how many people on those same wards
18	~	would be given cigarettes?
19	А	Any of them that smoked, which was usually
20		all of them except maybe a few. One or two,
21		three, depends on how many veterans were on
22		that ward.

23 24 25	Q	Do you know what nitrosamines are? MR. WAGNER: Objection, Your Honor. Outside the scope. SLAUGHTER-REDIRECT
1 2 3 4 5 6 7 8 9 10 11	Q	MR. CROSS: He was inquiring THE COURT: It's outside the scope. MR. CROSS: He was inquiring into her knowledge of secondhand smoke. I didn't mean to intrude. You stated Mr. Wagner was asking you a question about what your knowledge of secondhand smoke was in the 1970s, and you appeared to get upset with the idea that you, as a nurse, would be exposing to patients exposing patients in the hospital to a health hazard that could cause
13 14 15 16 17 18 19 20 21 22 23 24 25	Q	fatal lung disease. MR. WAGNER: Your Honor, this is a speech. It's leading. THE COURT: Rephrase that, Counselor. MR. CROSS: Let me finish the question. THE COURT: Rephrase that. MR. CROSS: Thank you. In the 1970s when you worked in Building 16, what knowledge did you have as to the health risks associated with secondhand smoke, in particular the possibility that it could
1 2 3 4 5		SLAUGHTER-REDIRECT 2451 generate fatal lung disease? MR. OHLEMEYER: I object to the question as argumentative, Your Honor. THE COURT: I believe it is. Sustained.
6 7 8	Q	What knowledge did you have about secondhand smoke and its health risks in 1970 in the 1970s?
9 10 11 12 13 14 15 16	A Q	We had no information on this. We had all that I thought was that it was not good for your health. Did anyone have do you know of any person who had any knowledge in the 1970s at the Veteran's Administration Hospital that secondhand smoke could cause fatal lung disease?
17 18 19 20 21 22 23 24 25	Q	MR. WAGNER: Objection, Your Honor, no foundation as to what she might know and what everyone else knew. MR. CROSS: That's not the question. I asked her if she knew any person, any one person. THE COURT: Let me hear the question again. Did you know any single individual at the SLAUGHTER-REDIRECT
1 2 3 4		Veteran's Administration Hospital in the 1970s that was aware that secondhand smoke could cause fatal lung disease? THE COURT: Objection sustained.

7
          you if you remembered saying in your
          deposition that there were three brands.
                   MR. CROSS: Your Honor, I would
9
10
          like to read a few lines -- I would like to
          read the lines of testimony he was referring
11
12
          to in order to ask her a question in order
          to rehabilitate that particular testimony.
13
14
                   MR. WAGNER: Objection, Your Honor,
15
          it's improper for counsel who takes the
          witness on to read from a deposition.
17
                   THE COURT: Sustained.
18
     Q Is there any question in your mind as you
19
          sit here today that all of the brands that
20
          you gave to this jury were, in fact, smoked
21
          by patients or staff at the Veteran's
22
          Hospital during the time you worked there?
23
     A That's right.
24
      Q And after all of Mr. Wagner and
25
          Mr. Ohlemeyer's questions, do you have
                     SLAUGHTER-REDIRECT
                                                 2453
1
          any -- does that affect the reliability of
          your earlier testimony that you had no
          knowledge of secondhand smoke until after
          Millie Wiley died?
                   MR. WAGNER: Objection, Your Honor,
5
6
          as to what her opinion is or her own
7
          reliability.
8
                   THE COURT: Sustained.
9
      Q Was there anything about any of their
10
          questions that changed your mind from your
          testimony when I was up here about --
11
     A The only thing I want to say is that --
12
                   MR. WAGNER: Judge, we're going to
13
14
          get a volunteer statement here.
                   THE COURT: I think your question
15
          is, if I understand you, correct me here if
16
17
          I'm wrong. Are you asking this lady if she
          wants to change any of her testimony from
19
          when you talked to her before?
          As a result of anything these people asked.
20
21
                   THE COURT: You can answer that yes
22
          or no.
23
     A No.
24
                   MR. CROSS: Thank you. Nothing
25
          further.
                     SLAUGHTER-REDIRECT
                                                  2454
1
                   THE COURT: Mr. Wagner, anything
          further?
 3
                   MR. WAGNER: I just have one brief
          question.
 5 RECROSS-EXAMINATION
   BY MR. WAGNER:
6
7
          You described to Mr. Cross the seriousness
8
          that you attribute to giving testimony under
9
          oath; correct?
10
      A Correct.
      Q And it's correct, isn't it, that when you
11
12
          gave your depositions in this case you were
13
          under oath to tell the truth?
```

```
14
          That's correct.
15
                   MR. WAGNER: Thank you very much.
16
                   THE COURT: Mr. Ohlemeyer?
17
                   MR. OHLEMEYER: Very briefly, Your
          Honor.
19 RECROSS-EXAMINATION
20 BY MR. OHLEMEYER:
          Am I correct, Mrs. Slaughter, that as a
22
          nurse it was your practice to keep abreast
23
          of current health developments, new studies,
24
          declarations by public health officials
25
          about matters of public health?
                     SLAUGHTER-RECROSS
                                                  2455
          I tried.
 1
      A
 2.
      Q And that was something that was fairly
          common among the nursing staff at the VA,
 3
          wasn't it?
 4
 5
      A Yes.
 6
          And you recall in the early '70s reports
 7
          beginning to be published about the possible
 8
          association between exposure to secondhand
9
          smoke and lung cancer; isn't that correct?
10
                   MR. CROSS: Your Honor, I'll
11
          object. This is repetitive to Mr. Wagner's
12
          line of questioning, Mr. Ohlemeyer's
13
          questioning, and I didn't go into that on
14
          redirect.
          I did not lie.
15
16
                   THE COURT: Just a minute, ma'am.
17
               The objection is overruled. Repeat
18
          your question.
19
     Q My question, Mrs. Slaughter, is isn't it a
          fact that you recall in the early '70s there
20
          were reports that were beginning to be
2.1
22
          published about the possible association
23
          between exposure to secondhand smoke and
24
          lung cancer?
25
      A Not in the '70s. I told you I was confused
                     SLAUGHTER-RECROSS
                                                  2456
 1
          when that question was asked. I had the
 2.
          wrong date in mind.
          And I understand that, but let me just make
 3
 4
           sure this question, that you agree with me,
 5
          this question and this answer were asked of
 6
          you at your deposition at page 122, line 9,
 7
          Counsel.
 8
                "Question: Let me see if I can refresh
9
          your recollection on the matter. Do you
10
          recall in the early 1970s --"
11
                   MR. CROSS: Well, Your Honor, this
12
          is the same question. This was asked, it's
13
          repetitive, it's argumentative. Asked and
14
          answered.
15
                   THE COURT: You asked this question
16
           on cross?
17
                   MR. CROSS: Yes, he did.
18
                   MR. OHLEMEYER: This is a different
19
           question, different answer.
                   THE COURT: 24 is a different
20
21
           question. Go ahead.
22
          "Do you recall in the early 1970s reports
```

23 24 25		beginning to be published about the possible association between exposure to secondhand smoke and lung cancer?"
		SLAUGHTER-RECROSS 2457
1 2 3		And your answer was "yes." Do you recall that question and that answer?
4	A	Yes.
5	Q	And then the next question, Do you recall
6 7 8		being asked whether that was something that was widely reported at the time? And do you recall your answer being, Well, you heard it
9		on the news and everything else, how could
10		you help but not know it. Do you remember
11 12	А	that question and that answer? Yes.
13	0	And then do you remember being asked whether
14	~	you had any discussions among the nursing
15 16		staff when these reports became or began coming out, and your answer was only when
17 18	7\	the policies changed. That's right.
19	A O	And there were policies that the VA put out
20	~	about smoking in the hospital.
21	A	In the late '80s.
22 23		MR. OHLEMEYER: That's all I have, Your Honor.
24		THE COURT: All right. You may
25		step down. Thank you. SLAUGHTER-RECROSS

```
5
                   THE COURT: That's all.
 6
                (A brief recess was taken.)
 7
                (Jury not present)
                   THE COURT: All right. We're back
          on the record. Jury is not present.
9
               Mr. Young, did you have a matter?
10
                   MR. JOSEPH YOUNG: No, Your Honor.
11
12
          I just wanted to assure you that I saw Mrs.
13
          Bardsley come into the court. I checked
14
          with Counsel at counsel table on your order
15
          to make sure and then I asked her to leave
          and I don't believe it was any more than
17
          five minutes. That would be my
          responsibility, Your Honor, and I apologize,
18
19
          but I wanted to make sure, and then I asked
20
          her to leave, so I was attempting to comply
21
          with your order to the best of my ability.
22
                   THE COURT: Thank you, Counselor.
23
          My point, when these witnesses -- when you
24
          talk to these witnesses, tell them this
25
          order is in effect.
                                                 2460
 1
                   MR. JOSEPH YOUNG: Yes, sir.
 2
                   THE COURT: Who will be your next
 3
          witness?
                   MR. JOSEPH YOUNG: Be one of the
          fact witnesses, and Mr. Cross has that
 6
          information.
                   THE COURT: All right.
 7
8
                   MR. CROSS: Your Honor, the next
9
          witness will be Mrs. Jean Lavengood, please.
10
          And Mr. Motley will conduct the direct
11
          examination.
                   THE COURT: All right.
12
                   MR. MOTLEY: Do you want her to
13
          wait until the jury is in, Your Honor?
14
                   THE COURT: Please.
15
                   MR. MOTLEY: She is nervous.
16
17
                   MR. CASSELL: All rise.
18
                (Jury present)
19
                   THE COURT: Be seated. Jury back
20
          in its entirety, together with all three
21
          alternates.
22
               Mr. Motley, you may call your next
23
          witness.
24
                   MR. MOTLEY: Ms. Jean Lavengood,
25
         Your Honor.
                                                 2461
                   THE COURT: All right.
1
                   MR. MOTLEY: Go up there. The
          Judge is going to swear you in.
                   THE COURT: Would you raise your
 5
          right hand.
   PLAINTIFFS' WITNESS, MARTHA JEAN LAVENGOOD, SWORN
 7
                   THE COURT: Have a seat right
 8
          there, please. Would you tell this jury
9
          your name.
10
                   THE WITNESS: I'm Martha Jean
11
          Lavengood.
12
                   THE COURT: Would your spell your
13
          last name.
14
                   THE WITNESS: L-A-V-E-N-G-O-O-D.
15
                   THE COURT: Mr. Motley.
```

```
16 DIRECT EXAMINATION
17 BY MR. MOTLEY:
18
    Q Would it be fair to stay you're scared to
19
          death?
     A Yes, it would.
      Q You've been in a court of law before and
21
22
          testified in a --
     A No, I've not.
23
     Q I'm going to try to get through this as
24
25
         painlessly as possible and as quickly as
                     LAVENGOOD-DIRECT
          possible, but you must listen very carefully
 1
          to my questions. And if one of these folks
          over here objects before you answer, you've
 4
          got to give the Judge a chance to rule.
 5
          Those are the rules. Okay? Will you try to
 6
          do that for us?
7
     A I will.
     Q State your name and, I hate to ask you this,
8
9
          but your age for the record.
     A Martha Jean Lavengood, and I'm 67.
10
     Q Can you get up a little closer to the
11
12
          microphone so we can hear a little bit
13
          better.
14
               Now, you said you were 67. Are you
15
          retired?
16
     A Yes.
      Q Okay. Where do you live?
17
     A I live at [DELETED]
18
19
20
     Q What occupation -- are you still working?
21
     A No, I'm not.
22
     Q Are you retired?
     A Yes, I am.
2.3
24
     Q And what were you when you were working?
25
          What did you do?
                      LAVENGOOD-DIRECT
                                                2463
 1
      A I'm a registered nurse.
      Q And you carry that through your life. Just
 3
          because you retire, you still look at
          yourself as a registered nurse, don't you?
 4
 5
          Yes, I am.
 6
      Q
          You were proud of that, weren't you?
 7
      A Yes, I am.
8
     Q Tell the jury about where you went to
9
          school.
     A I went to school at Wishard Hospital in
10
11
          Indianapolis, Indiana, which is -- was
12
          General Hospital at the time I went.
13
      Q And you took training there?
14
     A Yes, I did.
15
     Q Let's get right down to Mildred Wiley's
16
          case, okay. Can you tell us, did you know
17
          Mildred Wiley?
     A I knew Mildred Wiley as a friend and as a
18
19
          co-worker.
     Q When did you first meet Mildred Wiley as a
20
21
          co-worker and where?
22
     A The first meeting I had with Millie was in
23
          1954 at Home Hospital in Indianapolis -- or
24
          excuse me, in Lafayette. She was a student
```

25		nurse and she was a night nurse on my shift LAVENGOOD-DIRECT
		2464
1		or on my ward.
2	Q	And did you ever work at any hospital with
3	_	Mildred Wiley other than the VA Hospital?
4	A	Just at Home Hospital that one year.
5	Q	That one year at Home Hospital?
6	A	Yes.
7	Q	Okay. And the jury has already heard
8		testimony about it from other witnesses, but
9	70	what kind of nursing did you do there?
10	A	At?
11	Q	Home.
12	A	At Home Hospital? I was a pediatric nurse.
13	Q	What kind of nurse was she? She was a student nurse at the time, and she
14 15	A	
16	0	worked the whole hospital. They did what's called rotate; right?
17	Q A	She rotated from unit to unit, yes.
18	Q	When did you next professionally meet
19	Q	Mildred Wiley?
20	A	In 1973 at the VA Hospital at Marion,
21	А	Indiana.
22	Q	And how was it that you met her there?
23	A	We were assigned to the same building.
24	Q	And that would be Building 16?
25	A	Right.
		LAVENGOOD-DIRECT
		2465
1	Q	Now, the jury has heard a lot about Building
2		16 and I don't want to repeat all that
3		again, okay?
4	A	Okay.
5	Q	But tell the ladies and gentlemen of the
6		jury, please, Ms. Lavengood, how long you
7		worked as a colleague, professional nursing
8		colleague of Mrs. Wiley.
9	A	I worked with her from 1973 to 1976 and from
10		1986 to 1991.
11	Q	All right. And both of these times were
12	_	Building 16?
13	A	Yes, they were.
14	Q	From 1973 to '76, you all were both nurses?
15 16	A	Yes, we were. We were staff nurses.
16 17	Q	And did you work the same shift sometimes?
17 10	A	We did, during that time, would work the
18 19	0	same shift, yes.
20	Q	Now, the jury has heard a lot about the conditions there from '73 to '76. I'm not
21		going to ask you to go back into all the
22		detail of that, but those patients were
23		veterans, most of them were disabled?
24	А	Yes, they were.
25	Q	And large a large percentage of them
	×	LAVENGOOD-DIRECT
		2466
1		smoked?
2	А	Yes, a large number of them.
3	Q	And can you tell the ladies and gentlemen of
4		the jury that, from '73 to '76, just
5		generally in your own words describe the
6		conditions in the building from the

```
7
          standpoint of smoke being in the air. Was
8
          it in the air or not?
9
     A Most of the time it was always smoke filled.
10
         We put all the patients in a large what we
          call the day room, and they were allowed to
12
          smoke in this room. And it was -- when you
          walked in there, a lot of times it was blue
13
14
          with smoke.
15
      Q Now, do you know what the term "chain
16
          smoker" means?
     A Yes, I do.
17
     Q What do you understand that to mean?
     A A person that continually smokes one
19
20
          cigarette after another.
     Q And were there any such as that amongst the
21
22
          veterans between 1973 and 1976?
23
     A Yes, there were.
24
     Q Now, the fact of the matter, from 1973 to
25
          1976, Ms. Lavengood, was there anywhere you
                     LAVENGOOD-DIRECT
          could get in Building 16 that you didn't run
1
          into smoke?
3
      A No, there wasn't.
4
      Q Do you know what I mean when I say brand
5
         names of cigarettes?
6
      A Yes, I do.
      Q Do you know of your own knowledge that there
7
8
          are lots of different brands of cigarettes?
9
      A
          Yes, I do.
10
     Q Can you remember every brand of cigarette
11
         that was ever at that VA Hospital?
     A No, I can't.
12
     Q Do the best you can. Just tell them what
13
         you remember as best you can.
14
     A Chesterfield, Lucky Strike, Camel, Pall
15
          Mall, Salem, Winston. I have a list. May I
16
17
          look at it? Right now that's all I can
18
         recall.
19
     Q Do you know what a cheat sheet is?
     A Yes. I know what a cheat sheet is. That's
         all I can remember right now.
2.1
     Q Who made that list up that you got?
22
      Α
23
         I did.
     Q When did you make it up?
24
     A Mr. Howard called me one morning and said
25
                     LAVENGOOD-DIRECT
                                                2468
          that he wondered if I could remember the
1
          number -- the names of brand cigarettes that
          were smoked at the VA.
      Q And did you -- I'm sorry. Go ahead.
5
      A And I made up a list for him.
 6
      Q Have you got that list for you?
7
      A Yes, I do.
8
      Q Can I have it?
     A Yes, you may.
9
                  MR. MOTLEY: Mark it for
10
          identification, Your Honor.
11
12
     Q If I told you that your list contains the
13
          name Marlboro and Philip Morris, would that
14
          refresh your memory?
15
     A Yes.
```

```
16
                   MR. MOTLEY: Move the list into
17
         evidence, Your Honor.
                  THE COURT: Any objection?
18
19
                   MR. OHLEMEYER: At this point there
          is, Your Honor. It's hearsay. There is no
20
21
          foundation that it's prior recollection
          recorded at a time. It's just a list. We
22
23
          don't even know when the list was made or
24
          how it was made.
25
     Q Could you tell us when it was made?
                     LAVENGOOD-DIRECT
 1
                   MR. OHLEMEYER: May I ask questions
 2.
          for foundation?
                  THE COURT: Go ahead if you have a
 3
 4
          question for objection.
 5
                  MR. OHLEMEYER: Is it
 6
          Mrs. Levengood or Lavengood?
 7
                  THE WITNESS: Lavengood.
                   MR. OHLEMEYER: My name is Bill
8
9
          Ohlemeyer. Could you tell us when you made
10
          this list?
11
                   MR. MOTLEY: Approximately.
                   THE WITNESS: It was this fall, but
12
13
          I can't tell you exactly when.
14
                  MR. OHLEMEYER: This list that
15
          they've marked as No. 23, you made this
16
          fall?
                   THE WITNESS: I copied it from -- I
17
18
         copied it from the list that I gave you --
19
         gave the tobacco company at a deposition
20
         that they took from me.
21
                  MR. OHLEMEYER: So what's been
         marked as 23 isn't a list that you made --
          tell me when you made this list, when you
23
24
          wrote this list down.
                  THE WITNESS: I wrote that from
25
                     LAVENGOOD-DIRECT
                                                2470
1
          memory this morning.
 2 BY MR. MOTLEY:
      Q Is this list the best you can do today?
 3
      A Yes, it is.
 4
      Q Are you pretty nervous?
 5
      A Yes, I am.
 6
 7
     Q And do you believe this to be honest and
8
        true as best you can remember today?
     A Yes, it is.
9
                  MR. MOTLEY: Your Honor, I move its
10
11
          admission at this time.
                  THE COURT: Any objection?
12
13
                   MR. OHLEMEYER: Your Honor, under
14
          803, I have no objection to her using it to
15
          refresh her recollection, but unless we
16
          offer it into evidence, it's not admissible.
17
                   THE COURT: Well, she can use that
          list to refresh her recollection, but the
18
          list itself could not come in unless -- he's
19
20
          right -- unless they offer it.
21
     Q You can't talk to me without talking to the
22
       Court.
23
                   THE COURT: She can see the list.
Q Do you want some water?
```

25 Α No. LAVENGOOD-DIRECT 2471 Just read that into the record, okay? A Philip Morris --3 MR. OHLEMEYER: Excuse me, Your Honor, she can use it to refresh her recollection to answer questions he asks, but I don't think she can read it into the 7 record. MR. MOTLEY: I ask you to look at 8 9 803-5, Your Honor, it's not hearsay. 10 THE COURT: You can ask her to 11 refresh her recollection from that list and 12 she can tell us what her memory is of the 13 types of cigarettes that were at the VA. 14 Look at that list for a second, okay? Does 15 that refresh your memory that Philip Morris 16 and Marlboro were at the hospital when you 17 and Mildred Wiley were there together? Yes, they were. 18 19 Okay. Now, did there come a time --20 MR. MOTLEY: Excuse me one second, 21 Your Honor, if I might. 22 Now, you -- excuse me, ma'am. You came back 23 and you worked with Millie from 1986 to 24 1991? Yes, I did. 25 Α LAVENGOOD-DIRECT 2472 1 Now, ma'am, the brands of cigarettes you may remember, nervous as you may be, from 1986 2. 3 to 1991, would they be the same or different from that list that you just gave the jury? Some of them would have been the same and 5 there probably were new brands at that time. 6 7 But the ones you've read to the jury and you 8 told the jury about, they were there again 9 in 1986 to 1991? 10 Yes, they were. 11 MR. WAGNER: Objection. That's 12 leading and suggestive, Your Honor. Leading 13 and suggestive. THE COURT: Overruled. 14 15 They were there then, too, weren't they? 16 Α Yes, they were. 17 Q Ms. Lavengood, listen carefully to this 18 question, if you don't mind. Prior to 19 Mildred Wiley getting sick with cancer and 20 dying, as a nurse, did you know, did you 21 personally know that smoke from other 22 people's cigarettes could cause lung cancer 23 and kill you? 24 MR. WAGNER: Well, Your Honor, 25 objection, prejudicial characterization. LAVENGOOD-DIRECT 1 It's irrelevant as to what this witness knew and I think Counsel should be admonished

6 THE COURT: That objection is

3

about asking questions that have those kind

of characterizations in them, Your Honor.

```
overruled as it goes to what training the
 8
          lady may have. You can answer the question.
9
     A Could I hear the question?
10
                  MR. MOTLEY: Could the reporter
11
          read it?
12
               (The requested material was read by the
13
          reporter.)
     A No, I did not.
14
     Q Did you leave the VA Hospital?
15
16
     A Yes, I did.
     Q When?
17
     A In '76 the first time.
19
     Q But I mean the second time.
     A In 1991 after Millie's death.
20
     Q Why did you leave the hospital?
21
22
                  MR. WAGNER: Objection, Your Honor,
23
        as to why she left. It calls for
24
          motivation, mental processes.
25
                  MR. MOTLEY: I don't understand
                     LAVENGOOD-DIRECT
          this motivation, mental process objection.
 1
          Your Honor, there is no such objection in
 3
          that rule book.
                  THE COURT: The objection is
 4
          overruled. You can tell us why you left in
 6
          '91.
                  MR. MOTLEY: Go ahead.
 7
     A I left in '91 to go up -- we moved away from
8
9
          Marion, Indiana. My husband worked in Gary,
10
          Indiana, as a teacher and I went to join
11
          him.
12
     Q Now, did you know Mildred and you were
         friends with her?
13
     A Yes, we were.
14
15
     Q Just because you were friends with her,
16
          would you tell this jury anything
17
          untruthful?
18 A No, I wouldn't.
19
                  MR. MOTLEY: No further questions,
20
         Your Honor.
21
                  THE COURT: Mr. Wagner.
                  MR. WAGNER: Thank you, Your Honor.

23 CROSS-EXAMINATION
24 BY MR. WAGNER:
    Q Good morning, Mrs. Lavengood.

                                               2475
1
      A Good morning.
      Q We've not met. My name is Richard Wagner.
          I'm one of the attorneys for one of the
 4
          defendants in this case; a couple of the
 5
          defendants, actually.
               As far as cigarette smoke is concerned,
 7
          that's something that you personally don't
 8
          like; right?
     A No, I don't.
9
10
     Q And you sit in the no-smoking section in
         restaurants?
11
12
     A Yes, I do.
13
     Q And you wouldn't ride in a car with somebody
14
         who is smoking; is that so?
15 A Yes, it is.
```

```
Q And you wouldn't sit in a room with anybody
17
         that smoked?
     A Not if I can help it.
18
     Q And Mrs. Wiley was a close personal friend
19
20
         of yours?
21
     A We were friends, yes.
     Q And Mr. Philip Wiley is a close personal
22
23
          friend of yours?
24
     A Yes.
     Q And you and Mrs. Wiley saw each other
25
                  LAVENGOOD-CROSS
                                               2476
          socially and ate lunch together?
 1
          Sometimes.
 3
      Q
          Went on religious retreats with her?
      A Yes, we did.
 5
     Q And went out shopping together?
 6
     A Sometimes.
7
     Q And like Mrs. Wiley, you also did missionary
8
         work, isn't that so?
     A Yes, I did.
9
     Q And in 1973 Mr. Philip Wiley telephoned you
10
          and asked you if you would be a witness for
11
12
          him in this lawsuit against the tobacco
13
         companies; isn't that so?
14
     A In what year?
                  THE COURT: You said '73,
15
        Counselor.
16
     Q I'm sorry. 1993.
17
     A Yes, he did.
18
     Q And you told him you would be glad to do it;
19
20
        right?
     A I told him I would.
21
     Q He telephoned you long distance from North
22
         Carolina?
23
     A Yes, he did.
24
25
     Q Now, let me focus for a moment on your work
                     LAVENGOOD-CROSS
                                               2477
 1
          at the Veteran's Administration Hospital so
          I can get this straight. You worked at the
          Veteran's Administration Hospital from 1971
 3
          to August of 1976; correct?
 4
 5
         That's correct.
 6
     Q And Mrs. Wiley began her work there in 1973;
 7
         right?
8
     A That's correct.
     Q So you only worked with Mrs. Wiley about
9
10
         three years during that period of time;
11
          right?
     A
12
          That's correct.
     Q And then from August of 1976 to October
13
14
          1986, for ten years, you were not an
15
          employee at the Veteran's Administration
16
         Hospital; correct?
17
     A That's correct.
     Q Now, during the 1973 to 1976 period that you
18
19
          worked in Building 16, you were there as a
         staff nurse; right?
20
21 A Pardon me?
22
     Q During the period 1973 to 1976, you worked
23
         in Building 16?
24 A Correct.
```

25	Q	You worked there as a staff nurse; correct? LAVENGOOD-CROSS
-	-	2478
1	A	Correct.
2 3	Q	And you worked predominantly on Floor B;
_	73	right?
4	A	Correct.
5 6	Q	Floor B is the second floor?
7	A	Yes.
8	Q	And you spent about 90 percent of your time on Floor B, the second floor; correct?
9	А	·
10		Probably. And Mildred Wiley worked about 90 percent of
11	Q	her time on Floor A, the first floor;
12		correct?
13	А	
13 14		Probably.
15	Q	And during this period 1973 to 1976, you and Mrs. Wiley did not always work the same days
16		
17	7\	or the same shifts; did you?
	A	Usually.
18	Q	Usually what?
19	A	Usually we did work the same days and same
20	0	shift.
21	Q	But there were days when you and Mrs. Wiley
22		did not work the same days and same shifts;
23	_	correct?
24	A	Correct.
25	Q	And during this period, 1973-1976, there was LAVENGOOD-CROSS
		2479
1	_	a head nurse in Building 16, wasn't there?
2	A	Yes, there was.
3	Q	And her name was Linda Caron?
4	A	Linda Caron.
5	A Q	Caron. Linda Caron. And during that period
5 6		Caron. Linda Caron. And during that period there was a nurse for each of the three
5 6 7	Q	Caron. Linda Caron. And during that period there was a nurse for each of the three floors in Building 16; right?
5 6 7 8	Q	Caron. Linda Caron. And during that period there was a nurse for each of the three floors in Building 16; right? Yes, there was.
5 6 7 8 9	Q	Caron. Linda Caron. And during that period there was a nurse for each of the three floors in Building 16; right? Yes, there was. And there were two or three nursing
5 6 7 8 9	Q	Caron. Linda Caron. And during that period there was a nurse for each of the three floors in Building 16; right? Yes, there was. And there were two or three nursing assistants on the first floor and three or
5 6 7 8 9 10	Q	Caron. Linda Caron. And during that period there was a nurse for each of the three floors in Building 16; right? Yes, there was. And there were two or three nursing assistants on the first floor and three or four on the second floor and two or three on
5 6 7 8 9 10 11	Q A Q	Caron. Linda Caron. And during that period there was a nurse for each of the three floors in Building 16; right? Yes, there was. And there were two or three nursing assistants on the first floor and three or four on the second floor and two or three on the third floor; right?
5 6 7 8 9 10 11 12	Q A Q	Caron. Linda Caron. And during that period there was a nurse for each of the three floors in Building 16; right? Yes, there was. And there were two or three nursing assistants on the first floor and three or four on the second floor and two or three on the third floor; right? I believe that's correct.
5 6 7 8 9 10 11 12 13	Q A Q	Caron. Linda Caron. And during that period there was a nurse for each of the three floors in Building 16; right? Yes, there was. And there were two or three nursing assistants on the first floor and three or four on the second floor and two or three on the third floor; right? I believe that's correct. Now, let's go to the next period. You
5 6 7 8 9 10 11 12 13 14	Q A Q	Caron. Linda Caron. And during that period there was a nurse for each of the three floors in Building 16; right? Yes, there was. And there were two or three nursing assistants on the first floor and three or four on the second floor and two or three on the third floor; right? I believe that's correct. Now, let's go to the next period. You returned to the Veteran's Administration in
5 6 7 8 9 10 11 12 13 14 15 16	A Q A Q	Caron. Linda Caron. And during that period there was a nurse for each of the three floors in Building 16; right? Yes, there was. And there were two or three nursing assistants on the first floor and three or four on the second floor and two or three on the third floor; right? I believe that's correct. Now, let's go to the next period. You returned to the Veteran's Administration in 1986; right?
5 6 7 8 9 10 11 12 13 14 15 16 17	Q A Q	Caron. Linda Caron. And during that period there was a nurse for each of the three floors in Building 16; right? Yes, there was. And there were two or three nursing assistants on the first floor and three or four on the second floor and two or three on the third floor; right? I believe that's correct. Now, let's go to the next period. You returned to the Veteran's Administration in 1986; right? I returned in 1983. I didn't work on 16
5 6 7 8 9 10 11 12 13 14 15 16 17	A Q A Q	Caron. Linda Caron. And during that period there was a nurse for each of the three floors in Building 16; right? Yes, there was. And there were two or three nursing assistants on the first floor and three or four on the second floor and two or three on the third floor; right? I believe that's correct. Now, let's go to the next period. You returned to the Veteran's Administration in 1986; right? I returned in 1983. I didn't work on 16 until 1986.

Yes, there was. And there were two or three nursing assistants on the first floor and three or four on the second floor and two or three on the third floor; right? I believe that's correct. Now, let's go to the next period. You returned to the Veteran's Administration in 1986; right? I returned in 1983. I didn't work on 16 until 1986. All right. You returned to the Veteran's Administration and began work in Building 16 again in 1986? Correct. And you worked there until 1991. Correct. And during that period of time you were the LAVENGOOD-CROSS 2480 evening charge nurse in Building 16, weren't you? Correct.

Yes. 8 Q 3:00 p.m. in the afternoon until around 9 12:00 midnight? 10 A Correct. Q During that period of time Mrs. Wiley was a 11 12 head nurse, wasn't she? A Yes, she was. 13 14 Q And she worked days; right? 15 A Yes, she did. 16 Q Back in that period, 1973-1976, isn't it 17 correct, Mrs. Lavengood, that there were 18 only about 25 patients on Floor A, the first 19 floor? 20 I don't really remember how many patients 21 were on it. I believe that to be so, but 22 I'm not sure. Q Well, you remember telling us that was the 23 number of patients on the first floor in 2.4 25 Building 16 during 1973-1976 when we asked LAVENGOOD-CROSS you that question in your deposition? 1 I believe in that deposition I told you that 3 I thought that was how many that was there. 4 That was your best estimate; right? 5 A Right. Q Thank you. And by the 1980s the patient 6 count in Building 16 was reduced, wasn't it? 7 A Yes, I believe so. 8 Q And it was reduced on all three floors; 9 10 right? 11 A Yes, it was. Q And there were 21 patients, as best you 12 could recall, when you left the Veteran's 13 Administration. 14 15 A Correct. Q Now, during the 1971 to 1976 period of time, 16 17 the nurse's station was first in a separate office; isn't that correct? 18 19 A Yes, it was. 20 Q And then later -- it wasn't until later that 21 it was opened up and made a part of the day 22 room; right? 23 A About a year and a half to two years later, 24 I believe. 25 Q And actually the nurses spent very little LAVENGOOD-CROSS 2482 1 time in the nurse's station; isn't that correct? We spent most of our time in the day room with the patients. 5 Well, my question is about the nurse's 6 station. You spent very little time in the 7 nurse's station. 8 A Correct. 9 Q And you didn't actually hang around the day 10 room all day long either, did you? A We were where the patients were. If they 11 12 were in the day room, yes, we were. 13 Q The patients were in their bedrooms and the 14 rooms they were assigned to, you had to be 15 in there from time to time, did you not?

16 17	A	We checked on our patients, yes. You had to administer medications to them
18	Q	
19		and when they were in the rooms you had to do that; right?
20	А	Correct.
21	Q	You had to chart?
22	Q A	Correct.
23	Q	Sometimes you had to take patients to other
24	Q	places in the hospital?
25	А	The nurses didn't do that.
23		LAVENGOOD-CROSS
		2483
1	Q	Who did that? The nursing assistants?
2	A	Correct.
3	Q	And you were a nurse and did you supervise
4	~	the nursing assistants?
5	A	Yes, we did.
6	Q	And that was one of your duties, to see that
7	~	the nursing assistants carried out their
8		duties; right?
9	А	Correct.
10	Q	Now, when Mildred Wiley became the head
11	~	nurse in Building 16, she got some new
12		responsibilities, didn't she?
13	А	Yes, she did.
14	Q	And when she was the head nurse, assisting
15		patients to smoke was not one of her
16		responsibilities; isn't that correct?
17	A	No, that is not
18	Q	Well, do you remember when you were asked
19		that question in your deposition?
20		MR. MOTLEY: Excuse me, Your Honor,
21		the lady was trying to complete her
22		sentence. Counsel interrupted.
23		THE COURT: Did you complete your
24		answer?
25		MR. WAGNER: Go right ahead.
		LAVENGOOD-CROSS
		2484
1	A	As a registered nurse, Millie was required
2		to do whatever the patients needed. That
3		was not one of her duties, but if she were
4		in the room with the patients or in the day
5		room with a patient and they wanted to
6		smoke, it would have been her duty to have
7		helped them.
8	Q	My question was, Mrs. Lavengood perhaps
9		you didn't understand it. Let me rephrase
10		it.
11 12		After Mrs. Wiley became the head nurse,
13		when she was a head nurse, assisting
13 14		patients to smoke was not one of her
15	А	responsibilities; isn't that correct? No. It's the responsibility of a nurse even
16	A	as a head nurse. If a patient requests
17		something, she would help them.
18	Q	Let me ask you if you remember being asked
19	×	this question and giving these answers in
20		your deposition taken in this case on
21		December 19, 1994, at pages 80 and 81:
22		"Question"
23		This was about Mrs. Wiley and assisting
24		smokers.

25		"Would that have been her
		LAVENGOOD-CROSS
		2485
1		responsibility as head nurse or would this
2		have been back in the earlier time period in
3		the '70s?
4		"Answer: Oh, it would have been
5		definitely during the '70s if no one else
6		was available. It would have been in the
7 8		other time frame, too.
9		"Question: Would it be fair to say that during the '80s it would not be one of
10		her general responsibilities as head nurse
11		to assist the patients in smoking?
12		"Answer: Yes."
13		Do you remember giving those answers to
14		those questions, Mrs. Lavengood?
15	A	That's right. But you asked me if as a
16		registered nurse she still, no matter what
17		her duties on her as a head nurse were,
18		she was still required to help the patients.
19	Q	The answer that you gave to those questions
20		that were asked in your deposition were
21		accurate; isn't that right, Mrs. Lavengood?
22	A	Yes.
23	Q	As a nurse, did you have to feed the
24		patients?
25	A	Yes, we did.
		LAVENGOOD-CROSS
		2486
1	Q	Administer medication to them?
2	A	Yes, we did.
3	Q	You had to check on the patients from time
4	70	to time?
5 6	A O	Yes, we did. Doctors would come to the hospital from time
7	Q	to time to see their patients?
8	А	We only had one doctor per floor. Excuse
9		me. We had a doctor assigned to our
10		building.
11	0	And that doctor would come sometimes to see
12	~	his patients; right?
13	A	Correct.
14	Q	And you had to assist the doctor sometimes
15		while he did go see the patient?
16	Α	Not always.
17	Q	I understand not always, but from time to
18		time you would go along with the doctor and
19		talk to the doctor about the patient; right?
20	Α	Yes.
21	Q	Now, Mr. Motley asked you some questions
22		about your knowledge about certain things.
23		Actually you had discussions with Mrs. Wiley
24		in which you discussed your beliefs that
25		smoking was unhealthy, didn't you?
		LAVENGOOD-CROSS 2487
1	А	Yes, I did.
_	A	·
2	\cap	But vou're not aware that Mrc Wilev ever
2	Q	But you're not aware that Mrs. Wiley ever complained to anyone in the administration
2 3 4	Q	complained to anyone in the administration
3 4	Q	complained to anyone in the administration at the Veteran's Administration about
3	Q A	complained to anyone in the administration

```
ourselves. I don't know about the later
8
          times. It was brought up at head nurse
9
          meetings.
10
     Q Listen closely to my question,
         Mrs. Lavengood. My question is: It's a
11
12
          fact, isn't it, that you're not aware that
          Mildred Wiley ever complained to anyone in
13
14
          the administration at the Veteran's
15
          Administration Hospital about smoking.
16
          Isn't that true?
     A I don't know.
17
     Q Well, do you remember you were asked in your
19
         deposition that question, pages 130 to 131:
20
               "Question: Did Mrs. Wiley ever
21
          complain to anyone in the administration at
22
          the Veteran's Administration Hospital about
23
          the smoking that was going on there?
               "Answer: I don't know whether she did
24
25
          or not. I mean, they smoked -- all the
                     LAVENGOOD-CROSS
          patients smoked in all the buildings."
1
               Do you remember giving that answer to
3
          that question?
 4
      A Yes.
      Q Let's talk about some of the things that
         relate to smoking there in the Veteran's
6
7
          Administration Hospital, Mrs. Lavengood.
8
          you recall that at some time prior to 1986
9
          no-smoking areas were designated in that
10
          hospital, don't you?
11
     A Repeat that, please.
     Q You recall that prior to 1986 no-smoking
12
         areas were designated in the Veteran's
13
         Administration Hospital?
14
15
     A They were allowed to smoke anywhere, yes.
     Q That's not my question, Mrs. Lavengood. My
16
17
          question was: Do you recall that at some
18
          time prior to 1986 no-smoking areas were
19
         designated in the hospital?
20
     A I don't understand your question.
21
     Q You understand what a no-smoking area is?
22
      A Yes.
      Q Where people can't smoke.
23
24
     A Right.
     Q I'm talking now about the Veteran's
25
                     LAVENGOOD-CROSS
                                                2489
1
          Administration Hospital.
      A Yes.
3
          And my question is: Do you recall that
 4
          prior to 1986 no-smoking areas were
5
          designated in the Veteran's Administration
 6
          Hospital?
7
     A There were no designated smoking areas prior
8
          to 1986.
     Q I'm talking about no-smoking areas prior to
9
10
          1986. Do you remember that there were
          places where you couldn't smoke in the
11
12
          Veteran's Administration Hospital prior to
13
         1986?
14
     A No. Sir?
15
     Q Yes, ma'am.
```

16 17 18 19 20 21 22 23 24	Q	They were not allowed to smoke in their bedrooms at any time, if that's what you mean. Well, let me see if I can refresh your recollection. At page 7 when you were asked about these subjects I'm trying to figure out where to start here. "Question: In more recent time period that you worked there"
25		MR. HOWARD: Is there a line LAVENGOOD-CROSS 2490
1 2 3 4 5 6 7 8 9	Q	number? Page 70, line 05. "The last year and a half or two years I worked there, the nursing assistants and the nurses had to go outside to smoke. Last year would have been" and then the question: "It would have been the 1990, 1991 time frame or prior to that? "Answer: Oh, it was probably 1990. "Question: Nurses had to go outside to smoke?
11 12 13 14		"Answer: All personnel had to go outside. They had designated smoking areas. "Question: And those were outside of the building?
15 16 17 18		"Answer: Uh-hum, or on the carport. "Question: Was there a smoking shack that was built during that time you worked there?
19 20 21 22 23 24		"Answer: No. "Prior to that policy going into effect for the personnel, what restrictions were there with respect to smoking by the personnel? I think you mentioned designated areas.
25		"Answer: The designated area in the LAVENGOOD-CROSS
1 2 3 4 5 6 7 8 9		office and the break room. "Question: How was that policy communicated to the personnel? "Answer: Written memos from the office. "Question: Do you remember that was a policy that was in effect when you started back in 1986? Is that correct? "Answer: Yes."
10 11 12 13 14 15	A	Do you remember giving those answers to those questions? I'm not sure of the time frame. I remember giving that answer. I'm not sure of the time frame when they first started designating smoking areas. It would have been sometime in, around that time, but I'm
17 18 19 20 21	Q	not sure of the time. Well, those are the answers you gave us to those questions in your deposition, and that was your best recollection at that time; correct?
22 23 24	A Q	That's right. Do you recall that Mrs. Wiley had no ashtrays in her office? Isn't that right?

25	А	She did not.
		LAVENGOOD-CROSS
1	0	2492
1 2	Q	And, in fact, you recall Mrs. Wiley requesting people not to smoke in her
3		office, don't you?
4	А	Yes, I do.
5	0	And when you first started working at the
6	~	Veteran's Administration, at least 25
7		percent of the staff that worked there did
8		not smoke; isn't that right?
9	A	Probably.
10	Q	And all the visitors that came there didn't
11		smoke either, did they?
12	A	Visitors smoked.
13	Q	Every one of them that came there, did they?
14	A	No.
15	Q	During the entire time you worked at the
16 17		Veteran's Administration, patients were not allowed to smoke in their bedrooms; right?
18	А	That's true. That's true in any hospital.
19	0	And they weren't allowed to smoke in their
20	Q	dormitory rooms?
21	А	Well, the dormitory rooms and the bedrooms
22		are the same thing.
23	Q	Same thing? And during the entire time you
24		worked at the Veteran's Administration,
25		patients were not allowed to smoke after
		LAVENGOOD-CROSS
		2493
1		9:00 p.m.; isn't that right?
_		
2	A	That's correct.
3	A Q	That's correct. And some patients went to bed earlier than
3 4	Q	That's correct. And some patients went to bed earlier than 9:00 p.m.; right?
3 4 5	Q A	That's correct. And some patients went to bed earlier than 9:00 p.m.; right? Sometimes.
3 4 5 6	Q	That's correct. And some patients went to bed earlier than 9:00 p.m.; right? Sometimes. And during the entire time that you've

7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25	A Q A Q	I didn't think about it. Now, let me ask you about this list of cigarettes that Mr. Motley asked you about. Do you recall giving a deposition in this case in December of 1994; right? Yes. It was some When you were deposed in this case in December 1994, you said you could only remember five brands of cigarettes that were dispensed or smoked at the Veteran's Administration Hospital, didn't you? That's correct. They were having me remember things back 25 years before. I didn't remember them. And as to this list that Mr. Motley asked you about, let me ask you some questions about how you came up with that list. Mr. Max Howard contacted you by phone between September and October 18, 1997, to
1		talk to you about that subject, didn't he?
2 3	A	Yes, he did.
4	Q A	And there were two phone calls? There were three phone calls.
5	Q	All right. Mr. Howard asked you if you
6		would sign an affidavit listing the brands
7		of cigarettes smoked at the Veteran's
8 9	А	Administration Hospital? Yes, he did.
10	Q	And in that telephone call that you had with
11	~	Mr. Howard, you never told him the brands of
12		cigarettes he should put in the affidavit,
13		did you?
14	A	I made up a list of cigarettes for him.
15 16	Q	In your deposition when we deposed you, you told us that you never told Mr. Howard the
17		brands of cigarettes he should put in the
18		affidavit, did you?
19	A	I'm very much aware of that. If you'll
20		remember, I had been sick and had been in
21 22		the hospital on Tuesday before that. And you people had me very confused.
23	Q	All right. Well, you got a second call from
24	×	Mr. Howard and he brought the affidavit out
25		to you, didn't he?
		LAVENGOOD-CROSS
1	А	Yes, he did.
2	0	Between that first and second call, you
3		didn't do anything to refresh your
4		recollection about the brands of cigarettes
5		that you thought were sold or used there at
6 7	А	the hospital, did you? I told you I made a list.
8	0	And when you made up that list let's
9		stick with this first time that Mr. Howard
10		came to you with the affidavit. He came out
11		to your house with an affidavit that he had
12 13		<pre>prepared and asked you to sign it, didn't he?</pre>
13 14	А	Yes, he did.
15	Q	And you listed in that affidavit brands of

```
cigarettes; right?
17
     A Yes, I did.
     Q Howard was there in your home about 15
18
19
         minutes?
     A I don't recall how long he was there.
20
     Q Now, in your -- in that affidavit you listed
21
          seven brands of cigarettes. Right?
22
     A Yes, I did.
23
24
      Q And that list that you brought to court
25
          today, three, six -- now you've got nine
                      LAVENGOOD-CROSS
                                                2497
          brands of cigarettes; right?
 1
          That was a list I took to -- the day that
 2
 3
          you took the deposition.
 4
      Q So if we total all these up, you've given
          three different versions as to the brands of
 5
          cigarettes that were sold and dispensed
 6
 7
          there at the Veteran's Administration
8
          Hospital; isn't that so, Mrs. Lavengood?
9
      A That's true, but I remember different ones
          after thinking about it.
10
      Q And as to all those brands that you've told
11
12
          the jury about, it's true, isn't it, that
         you don't know which of those brands were
13
14
          smoked between 1971 and 1976; right?
     A It would have been any of those brands
15
         because not all the patients smoked the same
16
17
          thing.
     Q And you don't know which of those brands
18
19
          were smoked from 1971 up to 1973 when Mrs.
20
          Wiley started to work; right?
     A Repeat the question, please.
21
                   MR. WAGNER: Withdraw the question.
22
      Q You don't know what brands were smoked at
23
24
          the hospital during the ten years from 1976
25
          to 1986 while you weren't employed at the
                      LAVENGOOD-CROSS
                                                2498
          hospital; correct?
 1
      A Correct.
      Q And in 1973-1976, you worked on the second
 3
          floor of Building 16; correct?
 4
      A Correct.
 5
      Q Mildred Wiley worked on the first floor?
 6
 7
      A Correct.
     Q And when you worked from 1986 to 1991, you
8
9
          worked nights and Mrs. Wiley worked days;
10
          correct?
     A Correct.
11
12
                   MR. WAGNER: Your Honor, I believe
13
          that's all I have.
14
                  THE COURT: Fine, Mr. Wagner.
15
               Mr. Ohlemeyer, any questions?
16
                   MR. OHLEMEYER: Just a few, Your
17
          Honor.
18 CROSS-EXAMINATION
19 BY MR. OHLEMEYER:
      Q Mrs. Lavengood, my name is Bill Ohlemeyer,
20
21
          and I represent three of the companies
22
         Mr. Wiley has sued.
23
              Do you know a nurse by the name of
24
         Marilyn Bardsley?
```

25	A	Yes, I do.
		LAVENGOOD-CROSS
		2499
1	Q	And how is it you know her?
2	А	I worked with her at the VA and I also run
3 4	0	around with her socially. Do you know a nurse by the name of, is it
5	Q	Mary Jane or Mary Slaughter?
6	А	Yes, I do.
7	0	And when is the last time you saw either
8	~	Mrs. Bardsley or Mrs. Slaughter?
9	A	This morning.
10	Q	Did you have dinner with them last night?
11	A	Yes, I did.
12	Q	Dutch treat or did somebody get stuck with
13	_	the bill?
14	A	I think I don't think that's necessary.
15 16	7\	THE COURT: Answer the question.
17	A O	Dutch we didn't pay for the meal. Mrs. Lavengood, am I correct that in July of
18	Q	1995, before you before anyone took your
19		deposition in this case, Mr. Howard had you
20		sign an affidavit about the Veteran's
21		Administration Hospital?
22	A	Yes, he did.
23	Q	And that affidavit didn't say anything about
24		brands of cigarettes that were smoked at the
25		VA; right?
		LAVENGOOD-CROSS
-1	-	2500
1 2	A	That wasn't brought up then. But am I right?
3	Q A	Correct.
4	Q	So then in December of 1994, a deposition
5	~	was taken, right, where you were asked
6		MR. MOTLEY: Excuse me, Your Honor,
7		I again ask for a 105 instruction. Counsel
8		well knows what that affidavit, the first
9		one was intended for, and I don't need to
10		say any more further here. I think Your
11		Honor knows what that affidavit was intended
12 13		for and Counsel well knows that. I think
13 14		that's unfair and I would ask for a 105 instruction.
15		THE COURT: We'll take the request
16		up at the break, Mr. Motley.
17		Go ahead, Mr. Ohlemeyer.
18	Q	In December of 1994, your deposition was
19		taken; right?
20	A	Yes, it was.
21	Q	And Mr. Howard was present at that
22		deposition; right?
23	A	Yes, he was.
24	Q	And then in October of 1997 Mr. Howard
25		prepared the affidavit Mr. Wagner asked you LAVENGOOD-CROSS
		1AVENGOOD-CROSS 2501
1		about; right?
2	А	Yes, he did.
3	Q	And he typed that affidavit, not you; right?
4	Α	Yes, he did.
5	Q	In fact, he misspelled your name a few
6		times, didn't he?

```
Yes, he did.
     Q And then a deposition was taken in November
 8
9
        of 1997; right?
10
     A Around that time, I believe. I don't
        remember the exact date.
11
      Q And Mr. Howard and Mr. Young and Mr. Cross
12
          were there, Mr. Wiley's lawyers; right?
13
     A
14
          I believe so.
     Q And Mr. Tittle, who took the deposition,
15
16
         asked you to let him know if there were any
17
          questions you didn't understand and he would
         rearrange them or make it so it would make
19
         more sense to you; isn't that right?
20
     A Correct.
     Q One other question, ma'am. You mentioned,
21
22
          in a question Mr. Wagner asked you, you said
23
          something about discussions you had had in
24
          earlier times. Do you remember that -- my
25
          question is what did you mean by earlier
                     LAVENGOOD-CROSS
                                               2502
 1
          times?
     A I don't know.
                  MR. OHLEMEYER: That's all I have,
 4
          Your Honor.
                  THE COURT: Mr. Motley, redirect?
 6 REDIRECT EXAMINATION
7 BY MR. MOTLEY:
    Q Are you okay? Do you want some water?
8
      A No. That's all right.
9
10
     Q Are you upset?
11
     A It's okay.
12
     Q Do you feel like you can go forward?
13
     A Pardon?
     Q Can you go on?
14
15
     A Yes.
16
     Q Have you ever heard of Disney World?
17
     A
          Yes.
     Q Would you tell me the -- if there was much
18
19
        difference between Floor 1 and Floor 2 of
20
         Building 16?
21
     A You mean different from Disney World?
     Q No. I was thinking about fantasy land but
22
23
          what I mean was, you had nurses on Floor 1?
   A Yes. They were the same.
24
     Q You had patients on Floor 1?
25
                    LAVENGOOD-REDIRECT
                                               2503
1
      A Yes, we did.
      Q
         You had doctors on Floor 1?
 3
          Yes, we did.
      Α
 4
          You had visitors on Floor 1?
 5
      A Yes.
      Q You had cigarettes on Floor 1?
 6
 7
     A Yes, we did.
 8
      Q And people smoked those cigarettes?
9
      A They did.
10
      Q And they did all those things on Floor 2?
11
      A Exactly.
     Q Now, you were asked by Mr. Wagner about your
12
13
        knowledge of Mildred Wiley outside of the VA
14
         Hospital. Do you remember that?
15
     A Yes, I do.
```

16 17	Q	And you have known them since 1954, haven't you?
18	A	Yes, I have.
19	Q	And he asked you when she was outside the VA
20	~	Hospital she avoided smoke. Do you remember
21		that?
22	А	The period from 1954 to 1971 I was not
23		around Millie, but yes, I do know that she
24		didn't. We always ate in smoke-free areas.
25	Q	But in 1954 you all were in the hospital
23	×	LAVENGOOD-REDIRECT
		2504
1		together, weren't you?
2	А	Yes, we were.
3		Was there smoking in the hospital then in
	Q	
4	70	1954?
5	A	Not in no, not in the unit I worked in
6		because it was a pediatric unit.
7	Q	Where did she work?
8	A	She rotated around the whole hospital, but
9		the smoking would have been there was no
10		open area of smoking, no.
11	Q	And some of the parts of the hospital, even
12		though you were in pediatrics, there was
13		smoking in 1954, was there?
14	A	Yes.
15		MR. WAGNER: Objection, leading.
16		She just
17		THE COURT: Rephrase it. That was
18		leading.
19	Q	Listen carefully now. When you were in the
20		pediatric ward, obviously the kids didn't
21		smoke.
22	A	No.
23	Q	Mildred Wiley was all over the hospital;
24		right?
25	A	You're right.
		LAVENGOOD-REDIRECT
		2505
1		MR. OHLEMEYER: This is Mr. Motley
2		testifying.
3		MR. MOTLEY: I'm reorienting her to
4		her testimony in the interest of time.
5		THE COURT: It's all right, go
6		ahead.
7		MR. WAGNER: It's also outside the
8		scope of cross-exam. She wasn't asked about
9		whether there was any smoking at any other
10		hospitals during her cross-examination. She
11		was asked about her knowledge of Mrs. Wiley,
12		that she was friends, now we're going back
13		into her hospital days when she was a
14		student nurse in 1954, '55.
15		MR. MOTLEY: He asked her to her
16		personal knowledge did Mildred Wiley always
17		avoid smoking outside of the VA Hospital. I
18		think they brought it up and I'm entitled to
19		ask her about it.
20		THE COURT: The objection is
21		overruled. Go ahead.
22	Q	Listen carefully. You were in the pediatric
23	~	ward?
24	А	Yes.
	-	

25	Q	No smoking there? LAVENGOOD-REDIRECT 2506
1	А	Yes.
2	Q	Mildred Wiley was a student nurse?
3	A	Right.
4	Q	She went all over the hospital?
5	Q A	
		Right.
6	Q	To your personal observations in those other
7		parts of the hospital, not in pediatrics,
8		was there smoking?
9	A	Yes, there was.
10	Q	Now, you were asked about whether Mildred
11		Wiley and yourself knew that cigarette
12		smoking, though neither one of you smoked,
13		was unhealthy; do you remember that?
14	А	Right.
15	Q	Now, unhealthy, do you mean things such as
16	~	coughing?
17	А	I knew it was an irritant to the respiratory
18		tract only.
19	0	And you don't call lung cancer an irritant
	Q	
20	_	to the respiratory tract, do you?
21	A	No.
22	Q	You were asked some questions, ma'am, about
23		complaints. Do you remember that?
24	A	Yes.
25	Q	Whether Mildred complained?
		LAVENGOOD-REDIRECT
		2507
1	А	Yes.

7	А	No.
8	Q	Do you know what a monopoly is?
9	Q	MR. WAGNER: Well, Your Honor
10		MR. OHLEMEYER: Objection, Your
11		Honor.
12		THE COURT: Sustained.
13	Q	You were asked about patients going to bed
14	Q	at 9:00. Do you remember that?
15	А	Yes.
16	Q	Are veterans when the veterans went to
17	Q	bed at 9:00, were they strapped in their bed
18		or something?
19	А	No, they're not.
20	Q	Are they like normal people? Do they get up
21	Q	sometimes?
22	71	
23	A	Some of them did, yes. Did some of them go to the day room?
23 24	Q	
	A	Yes, they did.
25	Q	And the nurses who were there, they didn't LAVENGOOD-REDIRECT
		2509
1		go to bed at 9:00; the ones who are on night
2		shift didn't go to bed at 9:00, did they?
3	A	No.
4	Q	In your presence did they smoke, some of
5		them?
6	A	Yes, they did.
7	Q	Now, do you really remember remember you
8		talked to me about chain smoking, what that
9		was?
10	A	Yes.
11	Q	He asked you they only smoked about three or
12		four times a day. Do you remember that
13		question?
14	A	Yes.
15	Q	Do you really, as you sit here today, back
16		in the '70s and '80s, did you count up the
17		number of cigarettes those veterans smoked
18		every day?
19	A	No, we didn't. Part of the patients could
20		smoke on their own.
21	Q	And as far as this list is concerned,
22		Mrs. Lavengood, are you trying are you
23		doing the best you can?
24	A	Yes, I am.
25		MR. MOTLEY: I have no further
		LAVENGOOD-REDIRECT
		2510
1		questions. Thank you.
2		THE COURT: Thank you, Mr. Motley.
3		Mr. Wagner, anything further?
4		MR. WAGNER: We have no further
5		questions, Your Honor.
6		THE COURT: Mr. Ohlemeyer.
7		MR. OHLEMEYER: No.
8		THE COURT: Thank you very much,
9		ma'am, you may step down.
10		Call your next.
11		MR. CROSS: Plaintiffs would call
12		Beth Kreider.
13		May I ask, while my colleague is
14		retrieving her from the other room, how long
15		the Court wishes to go before the noon

```
16
17
                   THE COURT: I think they bring the
18
          jurors' meals around noon.
19
                  MR. CROSS: Would you like me to
          close at that point in time? I will
          probably go a little longer than 15 minutes.
21
                   THE COURT: We'll see how we're
22
23
          doing.
24
                   MR. CROSS: Okay.
25
                   THE COURT: Raise your right hand.
                     LAVENGOOD-REDIRECT
        PLAINTIFFS' WITNESS, BETH KREIDER, SWORN
 1
                   THE COURT: Have a seat right
 3
          there, please. Would you tell this jury
          your name.
                   THE WITNESS: Beth Kreider.
 5
 6
                   THE COURT: Spell your last.
 7
                   THE WITNESS: K-R-E-I-D-E-R.
                   THE COURT: Thank you.
 8
9
               Mr. Cross.
                   MR. MOTLEY: Excuse me, may I
10
          approach Mr. Cassell? The lady ran off with
11
12
          the list and he asked me to get it.
                   THE COURT: Thank you, Counselor.
13
14
          Go ahead, Mr. Cross.
                   MR. CROSS: Thank you.
16 DIRECT EXAMINATION
17 BY MR. CROSS:
     Q Mrs. Kreider, you are a married lady, are
19
          you not?
20
      A Yes.
      Q And you are something of a newlywed; isn't
21
2.2
          that true also?
     A Yeah. Few months.
2.3
24
     Q And, in fact, you gave a deposition -- you
25
          submitted some affidavits and some
                       KREIDER-DIRECT
                                                 2512
          depositions in this case at various times
 1
          and you were going by another name in those
 3
          days?
      A Yes.
 4
      Q What was your former name?
 5
      A My name was Beth Brewer.
 6
     Q Now, Mrs. Brewer, where do you live? I'm
 7
8
         sorry, Mrs. Kreider, where do you live?
9
     A That's okay.
10
     Q I forgot already.
11
      A I forget sometimes too. I live in [DELETED]
12
          or in the rural area around [DELETED]
13
14
     Q And for those people who aren't from the
          [DELETED] area, can you tell them generally
15
          where [DELETED] is?
17
     A Probably about 10, 12 miles west of [DELETED]
          and possibly about 15 or 20 miles from
18
19
          [DELETED]
20
      Q Are you employed at this time?
21
     A Yes, I am.
     Q What you do?
22
23
     A I'm a home health aid mentor, an aid for
24
          Visiting Nurse Association, North Central,
```

25		Indiana, which is headquartered in Elwood, KREIDER-DIRECT
-		2513
1 2	0	Indiana.
3	Q	Let me ask you first, how long have you been doing this kind of work?
4	А	Home health aid work?
5	Q	Yes.
6	A	For probably eight, ten years.
7	Q	What kind of work is that? What do you do?
8	Ã	We go into the people's homes, help them in
9		their homes with their personal care or with
10		their housekeeping needs or things like this
11		to help them be able to independently stay
12		in their home and keep them out of long-term
13		care facilities.
14	Q	How long have you worked in the health care
15 16	А	field, Mrs. Kreider? About 22 years.
16 17	Q	But you started out in another field, did
18	Q	you not?
19	А	Other than the health care field?
20	Q	Yes.
21	A	I was a schoolteacher before that.
22	Q	Where were you a schoolteacher?
23	A	Different places. I taught in parochial
24		schools.
25	Q	And was that here in Indiana?
		KREIDER-DIRECT
1	А	2514 In Indiana and in Henderson, Kentucky.
2	Q	And what grades or classes did you teach?
3	A	Elementary grades and multiple-grade
4		classrooms where we allowed the students to
5		work at their own level and progress as
6		independently as possible.
7	Q	There came a time, did there not, when you
8		came to work at the Veteran's Hospital in
9		Marion, Indiana?
10	A	Yes.
11 12	Q	Could you tell the jury when that was?
13	A Q	February of 1976. How did you come to be
14	Q	employed by the Veteran's Administration in
15		Marion?
16	A	Well, my mother had passed away, and I moved
17		back to the Grant County area to be with my
18		father and to help care for my elderly
19		father. And I had several friends who
20		worked out there, and made me aware of the
21		benefits and the job security, so I applied
22 23		with the Civil Service Task and took the civil service exam to be hired at that time.
23 24	Q	Did you pass the exam?
25	A	Yes.
		KREIDER-DIRECT
		2515
1	Q	And you were hired in February of 1976?
2	A	Right.
3	Q	What position were you applying for?
4	А	I hired in as a nursing assistant because
5		that was basically the fastest way to get
6		hired in there, and my intentions were to go

7 into their educational therapy department at 8 a later date which I never did. 9 Q How long did you work as a nurse's assistant 10 at the VA? A Totally, probably about five years. I left 11 12 nursing service and worked in medical 13 supplies for about 12 years. 14 Q And can you give us some rough dates as to 15 when -- let me ask you this: Did you 16 eventually retire or leave the employment of 17 the VA? A I resigned from the VA in 1994. Q And did you work at the VA continuously from 19 '76 to '94? 20 A Yes. 21 Q And now, could you please outline for the 22 jury what you did during those 18 years? 2.3 24 A The first few years that I was there, I 25 worked in nursing service as a nursing KREIDER-DIRECT assistant. I left nursing service and went 1 into what in the real world is called central supply, at the VA it was called supply processing distribution, where we handled and dispensed the medical supplies to the units. If it was needed for patient 6 7 care and was not a pharmaceutical item, then 8 we probably handled it through our 9 department. 10 Q And then you say you did that for 12 years. A Yes. 11 12 Q Then what happened? What did you do after the 12 years? 13 A Well, it was in 19- -- late '89 or '90 that 14 15 my husband was in very poor health at that 16 time, and I needed to be home in the daytime 17 more so that I could be with him. So I 18 asked to be reassigned to nursing service so 19 that I could work off tours. 20 Q And what job did you then have? 21 A I applied for a nursing assistant's position 22 and asked and voluntarily signed papers 23 asking to be reassigned as a nursing 24 assistant from supply. 25 Q And was that essentially the same type of KREIDER-DIRECT 2517 work you had in the first couple years you 1 were there? Α Q While you were in supply, did you obtain any 4 5 management position? 6 A While I was in supply I became the 7 supervisor of central -- of SPD, of central 8 supplies. Q And how long were you the supervisor of that 9 10 department at the VA? A Probably about nine, ten years. 11 Q Now let's go back to the beginning. 12 13 first few years that you were at the VA 14 Hospital you were a nurse's assistant. Is 15 that the same thing as a nurse's aide?

```
Right.
17
      Q Could you tell the jury what your job
         responsibilities were as a nursing
18
19
          assistant?
     A Basically we did the patient care, depending
20
21
          on whether -- what type of ward you were
          working on, you might have more hands-on
22
23
          care. If you were working in a psychiatric
          care unit, which was an ambulatory psyche
24
25
          unit, you might have less hands-on care but
                       KREIDER-DIRECT
1
          be with the patients to supervise them and
          be with them during their duties.
               If you were on a total care unit, which
          I worked on more of -- as a regular basis,
5
          you helped them with their personal care.
6
          Many of the patients were bedfast or
7
          wheelchair bound. Some of them had to be
          fed, some of them had to be shaved, some of
8
9
          them had to have everything done for them.
10
          It just depended on what unit you were on at
11
          the time.
12
     Q Did you ever have any experience in Building
13
          16 of the VA Hospital?
14
     A During the first part of my work as a
         nursing assistant, I was not assigned to
15
          Building 16. But we pulled relief and I
16
17
          really -- you know, if they were short of
18
          help, we might be sent there, but I really
19
          couldn't tell you what buildings I was
20
          assigned to on relief work at that time.
21
     Q In the first two years or so?
     A During the first years that I worked in
22
23
         nursing.
24
               When I went back into nursing in '89 or
          '90, I was assigned to Building 16 as a
25
                       KREIDER-DIRECT
                                                 2519
1
          nursing assistant.
      Q Full-time?
      A Full-time.
3
      Q And the first couple years, is it fair to
 4
5
          say that you were pretty much all over the
6
          hospital?
7
     A You're pretty much all over the hospital,
8
          yeah, because if you have overstaffing and
9
          someone has call-ins, then you work on their
10
          units.
     Q During that -- well, let's go to the time
11
12
          that you were in supply then. What was the
13
          nature of your duties in supply initially as
14
          just an employee and then as a supervisor
15
          during the years 1977, '78 to 1990 or
16
          whenever it was -- does that sound
17
          approximately correct on the dates?
     A Yeah. While working in supply we would go
18
19
          to each nursing unit of the facility and
20
          inventory their stock of medical supplies
21
          and then go back to the supply unit, pull
22
          the supplies from the stock, or someone
23
          would pull them and they would be delivered
24
          to the unit and restock the assigned areas
```

25		where supplies were stored. KREIDER-DIRECT 2520
1		
1		That was my initial duties when I went
2		into supply, was as a supply clerk, doing
3		this, a medical supply clerk, doing the
4		inventories and stocking of the supplies.
5	Q	So you would actually physically be involved
6		in the process of distributing supplies to
7		the various buildings?
8	А	Right.
9	Q	Did that include Building 16?
10	A A	Yes.
11		How often would you have occasion to go to
12	Q	
	70	Building 16 during those days?
13	A	Sometimes you might be on a unit like that
14		several times in one day because of the type
15		of patients they had and the amount of
16		supplies they used. You might be there
17		several times. Or they might get a new
18		patient that needed supplies that they
19		didn't normally use, so you might be on the
20		same unit half a dozen times in a day.
21	Q	Did you have occasion to go out into the
22		hospital buildings after you became a
23		supervisor?
24	A	As a supervisor, I was a working supervisor,
25		and I worked with my people and with the
		KREIDER-DIRECT
		2521
1		nurses to try to give them the supplies they
2		needed to their satisfaction and to the best
3		of patient care, so yes, I probably was on
4		the units as much as before and on a regular
5		basis. I was probably in my office less
6		than I was on the wards.
7	0	So with specific reference to Building 16
8	×	during the years that you worked in supply,
9		approximately how often would you get into
10		approximately now often would you get into
Τ0		Duilding 160
11	75	Building 16?
11	А	I was probably there maybe six, eight times
12		I was probably there maybe six, eight times a week at least.
12 13	A Q	I was probably there maybe six, eight times a week at least. Now, during that experience as a nurse's
12 13 14		I was probably there maybe six, eight times a week at least. Now, during that experience as a nurse's aide after you first got there and then up

What can you tell the jury about the kind of people that were hospitalized there? KREIDER-DIRECT 2522 On Building 16 it was kind of an intermediate medical psyche unit. They were the patients who were maybe less ambulatory

been on what we call outside buildings 8 because they were not connected to the 9 inside corridor, and they might have gotten 10 older. Obviously they had gotten older, but they might have lost some of their abilities 11 12 to ambulate on their own or their health problems might have caused them to need 13 14 closer supervision, so they were housed in 15 the units that had connecting corridors. 16 How would you generally describe them, again throughout the years you worked and had some 17 contact with the patients there, from the 19 time you first started work until you ended? 20 That's the class of patients that were there 21 during that entire period? 22 I think over the years they probably became more of a -- it changed because, partially 23 because of remodeling projects and they cut 2.4 25 the patients' beds down because they had KREIDER-DIRECT less open wards, so to speak, and more 1 private two- and three-bed units for the guys. And also they piped in oxygen and air to the units, so they could take care of more of the respiratory problems in that 6 area. 7 So as the years developed, that became 8 more of a long-term medical unit where the 9 guys still probably had psychiatric problems 10 but they had more medical problems along 11 with their psychiatric problems. 12 Q Would you tell the jury what you personally observed in terms of the smoke conditions 13 that existed in Building 16 while you worked 14 15 in the hospital? 16 It was a very smoke-filled building because entering that ward from the corridor you 17 went into the open area which led you into 18 19 the day room which was where the guys 20 smoked. It would meet you with a cloud of 21 smoke. I mean, you know, you could see it when you walked in. Sometimes it was hazy. 22 23 It would -- just depended on how many guys 24 were in the day room smoking at the time. 25 Q How would you compare the smoking -- how KREIDER-DIRECT 2524 1 would you compare the smokey atmosphere in Building 16 to other places you've been in your life? 4 A Most places I've been haven't been 5 smoke-filled areas until I went to the VA to work. But that building probably was as 7 smokey as any building unless you were on a 8 locked psychiatric unit where the guys were confined totally to the building and 9 10 couldn't leave it at all. Q As a nurse's assistant, did you ever engage 11 12 in the process of assisting the patients 13 smoking? 14 That was part of our job, was to -- many of 15 the patients on Building 16 and the building

138 where I had worked prior were patients 17 who, because of their conditions maybe 18 couldn't carry their cigarettes, so they 19 were kept in the nurse's station, and we gave them cigarettes at assigned times or 21 when they had time. Or if they needed supervision, when you had time to sit down 22 23 with them while they smoked a cigarette. 24 And we would dispense the cigarettes to 25 them. And some of them you had to hold KREIDER-DIRECT 1 their cigarettes for them while they smoked 2 them. Q Mrs. Kreider, I want to draw your attention 3 4 to one particular patient that you and I 5 have discussed in the past, and recognizing 6 that there is a matter of patient 7 confidentiality, we won't mention his name. 8 But are you familiar with this -- do you 9 know the gentleman to whom I'm referring? A You're probably referring to the one I told 10 11 you about that would clinch the cigarette so 12 tight in his mouth that you would burn your 13 fingers trying to remove it from his mouth. 14 Q What was the nature of this gentleman's 15 physical condition? A He was a total -- total care quadriplegic. 16 He had movement of his head, neck. He could 17 18 lift his arms, but he had no body control. 19 He was a Vietnam veteran who had been in 20 Vietnam. Q So he was -- what does the term 21 "quadriplegic" mean? 22 A Total paralyzation, mainly no control of his 23 24 body and muscles. 25 And he was then unable to put cigarettes in KREIDER-DIRECT 2526 1 his own mouth? A No. Q Did you assist this gentleman in smoking? 3 A Yes, frequently. In fact, this particular 4 patient that we're talking about was on 5 6 Building 138 when I first went there to work 7 and he was on 16 when I was reassigned to 8 16. His condition had worsened where he had 9 been moved from 138 to the other building. Q When you were first involved in the process 10 11 of assisting this gentleman, this veteran in 12 smoking, approximately how many times a day 13 would he have a cigarette? 14 A Anytime he could con somebody into giving 15 him one because he would sit and yell for 16 cigarettes. Most of the time, and because 17 of his condition and because of his age, most of us felt kind of sorry for him. He 18 19 didn't have much in life to look forward to 20 because he was young and that was the one 21 thing that he did enjoy. That and his food, 22 because he was blind also. 23 Q Was this gentleman still alive when you left 24 the hospital?

25 Yes, he was. KREIDER-DIRECT 2527 1 MR. OHLEMEYER: I have an objection to this based on foundation and relevance. 3 If I might ask the witness a question to support the objection, it might make sense to the Court. 6 MR. CROSS: I've essentially 7 concluded this. THE COURT: That objection is 8 9 overruled. 10 Go ahead, Mr. Cross. 11 I just wanted to ask you, you mentioned that 12 you burned your fingers? 13 Α Yes. 14 Q How does that happen? How do you get your 15 fingers burned? 16 A He would clinch the cigarette so tightly in 17 his teeth that you would have to pry it out and you could burn yourself when you were 18 19 doing this to take the cigarette butt away 20 from him. 21 Q Did that happen to you? 22 A That has happened to me on occasion, yes. 23 Q Are you aware of any artificial mechanical 24 devices which were used to assist the patients of Building 16 in smoking? 25 KREIDER-DIRECT 2528 1 A I really don't know if they were using it on 16. I really don't remember. You're 2. 3 probably talking about what we referred to as smoking robots that we purchased while I was working in supply service, and this was 5 an ashtray that had a cigarette holder on the ashtray. You attached the cigarette to 7 8 that and then you had like a three-foot tube 9 or hose that went into the patient's mouth 10 and you lit the cigarette and they were able 11 to smoke it. But as long as they could hold 12 that in their mouth themselves, they could smoke it without someone actually having to 13 14 hold the cigarette for them. Q 15 Were these devices put into use at the 16 hospital? 17 A They were put in on a trial basis. 18 purchased 12 of them through connections we 19 had with the Hines Veteran's Hospital, which 20 was a rehab hospital in Chicago. They were 21 not -- we never purchased any more of them 22 because of the sanitary conditions and the 23 problems involved in using them, because 24 each patient would have had to have had his 25 own tube, so to speak, and it was kind of a KREIDER-DIRECT 2529 hassle, the staff felt, to do that. 1 2 Did you know Millie Wiley? 0 3 A Yes, I did. 4 THE COURT: I don't think she answered your last question. He asked you whether or not these were put into use in

7		
7	_	the hospital.
8	A	They were put into use, but only the 12 that
9		we bought for the evaluation. They were not
10		purchased and kept as a stock item which we
11		would call putting them into use because
12		they were stocked and available upon
13		request. The 12 we purchased may still be
14		in the hospital somewhere, but we never
15		purchased any more than the initial 12 that
16		were purchased to evaluate.
17		THE COURT: All right. Thank you.
18	Q	Did you know Millie Wiley?
19	Ã	Yes, I did.
20	Q	How did you know her?
21	a A	I knew her as a staff nurse when I worked in
22		supply, because she was frequently the
23		charge nurse on her building, and she was
24		one of the people that I worked with in
25		stocking supplies, and she would be one that
		KREIDER-DIRECT
4		2530
1		would requisition supplies from central,
2		from SPD.
3	Q	During the years, the 12 years you were
4		working in supply and you would have
5		occasion to go to Building 16, how many of
6		those times each week that you would go to
7		Building 16 would you have to discuss
8		something with her?
9	A	That would vary greatly depending on whether
10		she happened to be the charge nurse for the
11		day or not, in charge of the unit, or
12		whether we were doing a special product
13		evaluation that she had been placed in
14		charge of. So it would you know, I
15		probably saw her every few days, but it
16		would depend on what I was doing and what
17		
		she was doing what she was assigned to
18		that day whether I spent a lot of time with
19		her.
20	Q	Did you get on a first-name basis with her?
21	A	Yes, but I was on a first-name basis with
22		most of the nurses.
23	Q	In the entire hospital, or just Building 16?
24	A	Yes, all of the hospital.
25	Q	Did you have occasion to observe her and her
		KREIDER-DIRECT
		2531
1		conduct of herself as a nurse?
2	A	Yes.
3	Q	How would you describe that to the jury?
4	А	She was a very dedicated, conscientious
5		person who cared for her patients and was
6		concerned that they be cared for properly
7		and that things be done for them in a timely
8		manner, according to their needs.
9	Q	During the time that you worked at the
10	Q	Veteran's Administration Hospital, was it
11		required that any time that you take classes
12	-	or receive additional training?
13	A	Yes. We had constant inservices, I think
14	_	monthly inservices in nursing service.
15	Q	While you were a nurse's assistant?

```
Right.
     Q Tell the jury what inservice, what you mean
17
18
         by that.
19
     A An inservice would be maybe an hour,
         two-hour session on something concerning
20
21
          patient care, ask or maybe learning to help
22
          them be more independent by exercise or
23
          proper ways to lift and things like that.
24
               And then once a year we had a full,
25
          one-day seminar or training session which we
                       KREIDER-DIRECT
          got our CPR certification, practiced the
 1
          Heimlich maneuver and worked with dealing
 3
          with a combative psychiatric patient and how
          to handle the psychiatric patients without
 5
          getting hurt.
     Q During any of those courses or training
 6
 7
          programs, was the subject of the health
 8
          hazards associated with secondhand smoke
9
          ever discussed?
                   MR. WAGNER: Objection, Your Honor,
10
11
          relevancy.
12
                   THE COURT: Overruled. You can
13
          answer that.
14
     A Not specifically that I recall, no.
15
     Q Thank you.
               Now I want to take you to the time that
16
          you were in supply. Can you tell the jury
17
18
          generally how cigarettes would come into the
19
          VA Institution and then were distributed to
20
          the various wards for the patients that
21
          smoked?
                   THE COURT: Actually, before we do
22
          that, they tell me the jury's lunch is here,
23
24
          so I think we'll take a break at this point.
25
               Ma'am, you may step down. We'll see
                       KREIDER-DIRECT
                                                 2533
 1
          you again at 1:15.
              (Standard admonition)
 3
                   THE COURT: We'll start again at
 4
          1:15, Counsel.
 5
 6
                   MR. CASSELL: All rise.
 7
                (Jury not present)
8
                   THE COURT: All right. Jury is not
9
          present.
10
               Mr. Motley, you had a request for a
11
           special instruction?
                   MR. MOTLEY: Your Honor, this is
12
13
          really unfair to the plaintiffs here. These
14
          lawyers are good lawyers, they know better
15
          than to bring up, keep insinuating the VA
16
          claim into this proceeding. There's an
17
          exclusive remedy mandated by federal law.
          What they're trying to do is have it both
18
19
          ways. They want to blame the VA, and the
20
          only way they can blame the VA -- and I'm
21
          not an Indiana lawyer, Your Honor, but I've
22
          tried cases in Indiana before. And I
23
          believe under the law applicable to this
24
          case, you've got to prove that the sole
```

2.

or the Veteran's Administration's negligence or whatever they're trying to insinuate here is not relevant at all. And to interrogate this lady when they either knew or should have known, and if they don't know, I would be surprised, that under the Veteran's Administration regulation, she didn't have to identify the products, that there was no requirement. That's not a products liability claim. That's like a Worker's Comp claim, and all they had to do was describe the circumstances, the extent and the disease and satisfy the other administrative requirements.

To stand up here and cross-examine this woman when she had absolutely no obligation to have placed in there, and it was not relevant to the inquiry at the time, what products are in there is just another example; and I hope you'll forgive me, Your Honor, but every time they want to do this, I want to bring it to Your Honor's attention because it's having a cumulative effect. I would respectfully ask Your Honor at some point in time a 105 instruction during this KREIDER-DIRECT

case is appropriate, to let this jury know, before they wander down that wrong path, which would not be fair to anyone in this courtroom, and think that the VA's -- that this lady has a claim, to wind the VA to this courtroom, she's precluded from federal law bringing them in here. For these defendants to hide behind this is unforgivable in my humble opinion, although I know opinions aren't usually humble.

THE COURT: Thank you, Mr. Motley. MR. OHLEMEYER: If I may, Your

Honor. This is all precipitated by an affidavit that was prepared by Mr. Wiley's lawyers, signed by these witnesses, provided to their experts in this case, attached to motions and pleadings they have filed in this case, sworn to by the witness. It's a fair cross-examination.

If they want to come in here and have the jury believe that these women remembered all of these brands without any prior thought or any prior participation, I mean, it all goes to credibility, and the Court has wide discretion on credibility. And I KREIDER-DIRECT

thought we were very careful about how we did what we did, but that affidavit has been part of this case since the minute this case was filed. They've given it to all their experts and had them rely upon it and it forms the basis of some of their opinions.

I don't think Mr. Motley -- I'm not going to 8 say anything. 9 THE COURT: Mr. Howard? 10 MR. HOWARD: Your Honor, that affidavit was attached to the Worker's Comp 11 12 claim along with an affidavit of Carol Pfizer and along with another affidavit. 13 14 That affidavit came from the Worker's Comp 15 file. That's where they got it. When they got the Worker's Comp file, they only took 16 17 three depositions in this case. They took the deposition of Slaughter, Lavengood and 19 Pfizer, and those were the affidavits that 20 were filed in Worker's Comp. 21 And Worker's Comp had nothing to do 22 with brand identification, and they've 23 cross-examined them in their depositions and 24 all that, why, and here in Court to try to 25 impeach them to show that they gave a KREIDER-DIRECT 2537 different affidavit one time and sworn 1 statement to the contrary. 3 That's the only three people they knew 4 to depose, and the way they got that was from the Worker's Comp file. They knew where that came from when they asked that 6 7 question. There was one place it came from, 8 the Worker's Comp. 9 It doesn't matter that we later gave it 10 to experts and they used it for information, 11 because the experts weren't interested in brand identification either. They were 12 13 trying to get some idea of the exposure. So for Mr. Ohlemeyer to stand up and 14 15 say that was part of our case, that was part 16 of our Worker's Comp case, and that was it. 17 And that's the way they knew about it, and 18 they're using that to try to impeach the 19 witnesses. 20 MR. WAGNER: Your Honor, we are 21 entitled to impeach the witness with prior inconsistent statements. That's so 22 rudimentary, I don't know how that can even 23 24 be an issue. 25 THE COURT: I understand. KREIDER-DIRECT 2538 1 MR. WAGNER: And no mention was made by Mr. Ohlemeyer about Worker's Compensation claims at all. The affidavits that these witnesses have been mostly asked 5 about were affidavits that were submitted to you to support or rather to fend off, if you 7 will, the summary judgment motions that we 8 made based upon lack of product 9 identification. That's where those affidavits came from. And they have given 10 11 different testimony in depositions and those 12 affidavits submitted to Your Honor, and the

testimony that they've given in court today

about how many brands they could remember

being sold and used in the hospital.

13

14

15

16 Now, surely we're allowed to get into inconsistent statements. What could be more 17 18 rudimentary? And no mention has ever been 19 made about Worker's Compensation claims or anything else. Mr. Motley just keeps 20 21 wanting to hammer away at this, keep hammering away at it. 22 23 And one other thing on this proximate cause thing, Your Honor. We are entitled to 24 25 argue to the jury that we are not the KREIDER-DIRECT proximate cause of this lady's injuries. I 1 2. mean, it's an elementary proposition of law under any legal theory, and what we have in 3 4 this case is strictly a products liability 5 theory, and the plaintiffs have to prove 6 that the defendants manufactured a 7 defective, unreasonably dangerous product 8 that proximately caused this lady's 9 injuries. 10 Now, we're allowed to get into these 11 things without Mr. Motley getting up and 12 jumping up and down every 15 minutes saying 13 we opened the door to something else or he 14 needs a limiting instruction. 15 MR. HOWARD: Just one more comment. That's a word game, "inconsistencies." They 16 17 tried to show an inconsistency because it 18 was incomplete, that it didn't contain 19 information that wasn't required, and that's 20 the very point of it. They tried to use 21 something; they knew it wasn't required. And for them to show, try to use that 22 document to impeach our witness by showing 23 24 an inconsistency because it didn't have that information in it. It wouldn't have had 25 KREIDER-DIRECT 2540 1 that information in it. It would not have been pertinent to those proceedings. That's 3 all I have. MR. MOTLEY: I'm afraid to jump up, 4 5 Your Honor, for exercising Mr. Wagner. He causes me great consternation. 6 7 THE COURT: The request essentially 8 is for the Court on paragraph 29 of my order 9 in limine regarding the FECA claim. Motion 10 in limine was granted. The request is that 11 that be lifted and also for a limiting 12 instruction. 13 I don't think the cross-examination 14 today has opened that area, so I'm going to 15 decline your request, Mr. Motley, and the 16 original motion in limine order will stand. 17 I may, however, take another look at that if 18 and when I think it deserves that. Thank you, Counsel. See you at 1:15. 19 20 (Lunch recess was taken.) 21 MR. CASSELL: All rise. 22 (Jury present) 23 THE COURT: Be seated. All right. 24 Jury appears in its entirety, together with

7 And we took an average for the month 8 for the number of indigent patients that 9 were assigned to a ward and dispensed so 10 many packs or cartons of cigarettes to each unit depending on the number of indigent 11 12 patients they had for the month. 13 Q So was there a central warehouse or some 14 building on the complex where cigarettes were stored during this time? 15 16 A Yes. The VA had a supply warehouse where supplies were stocked for all the 17 departments of the hospital. That was 19 another section of supply service. And the 20 cigarettes were stocked there, both for us 21 to issue to the indigent patients and for 22 the canteen to sell in the canteen. 23 Q Okay. And what do you know about the sales of cigarettes from the canteen? 2.4 25 A In the early years that I was there, KREIDER-DIRECT 2544 cigarettes were much cheaper for the 1 patients to buy at the canteen than they 3 were to buy off of the hospital grounds. 4 Later on, they came, you know, through with some law or policy, they came up with a 6 price that they would make the price similar to what was in the community. Anyone that 7 had funds of their own could go to the 8 9 canteen and buy cigarettes. The 10 cigarette -- the canteen was open to both 11 staff and patients. 12 Q And did staff members buy cigarettes there? 13 A Yes. Q Did you frequent the canteen while you 14 15 worked there? 16 Α Yes. 17 Q And did you have occasion to observe people 18 buying cigarettes there? 19 A Yes. 20 Q What about patients who were unable to 21 physically go to the canteen themselves, but 22 still had money? A The canteen had a cart similar to what 23 24 general hospitals have, staffed by volunteer 25 service, where they took a cart with KREIDER-DIRECT 2545 1 supplies, candy, cigarettes, gum, toiletries, things on a cart to the units to let them buy from that cart. The patients who were not able to handle money, they 5 purchased what was called canteen coupon books for them. If they -- you know, if it 7 was a patient who they thought might give 8 his money to someone or lose his money, they had the canteen books. And the medical 9 clerks kept those books and then when the 10 cart came around, they were given the books 11 12 to buy their supplies with. 13 Q So drawing your attention to the time period 14 that you were involved in the distribution

of cigarettes from the supply department,

15

would you actually, you yourself, actually 17 physically handle cigarettes? 18 A Right. I took the cigarettes to the units 19 as a supply clerk. Q And how often would you do this again? 20 21 A Usually we tried to do it once a month. But 22 if patients were moved during the month, we 23 might have to take them mid-month because 24 the patient might have been, come in from 25 outside or come from another building to a KREIDER-DIRECT 1 building and not have cigarettes, so we 2. tried to do it on a monthly basis, but 3 sometimes that didn't work out. 4 Q Now, drawing on your observations, your personal observations of cigarettes being 5 6 smoked in the canteen -- I'm sorry, being 7 sold in the canteen, being smoked on the 8 wards, you, as a nurse's assistant, in 9 handing them out, and also your experience in supply, in distributing them to the 10 11 various wards, did you have occasion to 12 observe the various brands that were being sold and smoked in the Veteran's Hospital? 13 14 A Yes. MR. OHLEMEYER: Objection, Your 15 Honor, foundation as to time. 16 THE COURT: Sustained. 17 18 Q During the entire time that you lived -- or 19 that you worked at the Veteran's 20 Administration Hospital, did you have 21 occasion to observe brands? 22 A Yes. Q All right. And can you tell this jury what 23 24 some of the brands are that you remember 25 during the time period that you worked at KREIDER-DIRECT 2547 1 the VA Hospital? A There were Winstons, Marlboros, Lark. MR. OHLEMEYER: I'm sorry to 3 interrupt, Your Honor. I think we still 4 5 need some time specificity. The witness, I 6 think, post-dates and predates the relevant 7 time period. 8 THE COURT: I realize it might be 9 difficult for her to distinguish particular 10 years she worked there, so I think I'll 11 allow the question, Counselor. You know, I'm sure that I can't name them 12 13 all. I think when I had time without people 14 sitting around and looking at me, I might 15 have been able -- I think I gave in the 16 deposition that I did, I gave them a list of 17 cigarettes that I remember. All these were not sold at the canteen. I say this because 18 19 I specifically remember one patient who 20 smoked Winstons, and Winstons were not sold 21 at the canteen. So he would ask different 22 employees, visitors, anyone that he could, 23 to bring Winstons in for him because he 24 preferred that brand over others, and

25		Winston was not sold in the canteen. KREIDER-DIRECT 2548

1		MR. CROSS: May I approach the
2		bailiff, Your Honor?
3		THE COURT: Go ahead.
4	Q	Mrs. Brewer, I'll hand you a document that's
5		been marked for purposes of identification
6		only.
7		MR. OHLEMEYER: Excuse me, Your
8		Honor.
9	Q	Exhibit 24. Plaintiffs' Exhibit 24. Have
10		you seen this document before?
11	A	Yes.
12	Q	Does this contain a list of the cigarettes
13		that you might have sat down and compiled at
14		a time when people weren't looking at you?
15	A	Right.
16	Q	All right. Would you take a moment and
17		refresh your memory as to some of the brands
18		that you previously identified.
19	A	Malibu, Pall Mall, Kent, Newport, Doral,
20		Kool, Marlboro, Camels, Lucky Strikes, Old
21		Gold, True, Chesterfield, Salems, Vantage,
22		Winston, Eve, L & M, Larks, Benson and
23		Hedges, Cambridge, Merits, Parliament,
24		Philip Morris, Players, Virginia Slims and
25		Bell Air.
		KREIDER-DIRECT
		2549
1	Q	And as you sit here today, Mrs. Kreider, are
2		you of the opinion that each and every one
3		of those brands was sold or smoked at the VA
4		
		Hospital during the time of your employment?

7 8 9 10 11 12 13 14 15 16 17 18 19 20	Q A Q A	Did he quit? He's trying. He's trying but he still smokes. Very little, and he doesn't smoke in the house anymore. He's but that's a personal matter with him. Let me ask you a couple of questions, first of all, about the VA Hospital itself where you worked for a number of years, okay? The buildings, how it's laid out and all that, kind of bear with me here for a minute. And we asked you some of these questions at your deposition. There were you worked in about 13 or 14 disconnected
21 22	А	buildings; is that right? Probably at least that many, yes, that
23 24 25	Q	housed patients. 13 or 14 disconnected buildings that housed patients; right? KREIDER-CROSS
		2551
1 2 3	A Q	Right. And there were also buildings that did not house patients; right?
4	A	Right.
5	Q	There was a canteen building that didn't
6 7	А	house patients? Right.
8	Q	There were supply offices that did not house
9	~	patients; right?
10	A	Right.
11	Q	There was a warehouse that did not house
12		patients; right?
13	A	Right.
14 15	Q	There was a gym and a bowling alley that didn't house patients?
16	A	Right.
17	Q	Administrative offices that did not house
18 19	А	patients? Right.
20	Q	Recreation, voluntary service, chaplain
21	×	services, all those buildings did not house
22		patients; right?
23	A	Those departments didn't house patients.
24		Now, some of those departments might have
25		had offices on patient units.
		KREIDER-CROSS
1	0	Okay. Some of the buildings in that
2	Q	Veteran's Administration complex were
3		buildings you'd go to for committee
4		meetings; right?
5	А	Right.
6	Q	And so if you were, for example, a member of
7		a particular committee, you might go, for
8		example, to the administration building for
9	77	a committee meeting; right?
10 11	A	Yes. And there was also an education building?
12	Q A	And there was also an education building? Yes.
13	А О	Where a lot of the meetings and seminars
14	×	were held?
15	A	Yes.

```
Q And there was also a patient and employee's
17
         library; isn't that right?
     A Right. There were in two separate
18
19
        buildings, separate libraries.
     Q There was a patient library?
20
     A And staff library.
21
     Q And staff library. They were separate.
22
     A Right.
23
     Q And while you were worked there, a major
24
25
         remodeling of Building 16 took place, didn't
                      KREIDER-CROSS
 1
          it?
 2
     A Major remodeling of a lot of the buildings
          took place, but 16 was included, yes.
     Q 16 was included, wasn't it? And in that
        major remodeling, walls and panels were put
 5
         in?
 6
 7
     A Yes.
     Q And they put in what you call a three-way
8
9
         air system; right?
     A Right.
10
     Q And at that time, they moved the patients
11
12
         and staff to another area?
13
     A Correct.
14
     Q And they revamped both the first and second
15
         floors?
     A Yes.
16
     Q And then there came a time when there were
17
        no patients on the third floor in Building
18
19
         16; right?
20 A Right.
     Q And in addition to that major renovation,
21
         there were minor renovations in Building 16
22
         from time to time; right?
23
     A Right.
24
25
     Q Where they removed, changed ceiling tiles?
                      KREIDER-CROSS
                                              2554
 1
      A Yes.
     Q And lowered the ceilings or put in new
         showers, that sort of thing?
 3
      A Correct.
 4
     Q And in connection with that major
 5
 6
         remodeling, they piped in oxygen air and a
 7
         suction system in the patients' rooms;
8
         right?
9
     A Right.
10
     Q So if a patient needed oxygen in his room,
11
          you could tap into that oxygen supply;
12
          right?
13
     A Yes.
14
     Q You have to answer -- did you answer out
15
         loud?
16
     A Yes.
17
     Q Okay, thank you. And you recall actually
          that there was asbestos that was used in the
18
19
          Veteran's Administration Hospital; right?
     A Well, I don't recall the asbestos being put
20
21
        in but there were asbestos removal projects
22
         where the areas were partitioned off and
23
         blocked off for asbestos removal.
24 Q Okay.
```

25 The asbestos was probably put in long before KREIDER-CROSS 2555 1 my time. Okay. I want to talk about your work there 3 at the Veteran's Administration Hospital too, Mrs. Kreider. You began in 1976 at the Veteran's Administration Hospital; right? 6 Yes. Α 7 Q So that would have been three years after Mildred Wiley began working, if she started 8 9 working in 1976. A If she started working then. I didn't know 10 when she started working, though. 11 12 Q Well, the jury has heard she started working 13 in '73, so that would have been three years 14 after she started working. And you didn't, 15 as I understand of course, work the entire 18 years or so that you worked for the 17 Veteran's Administration as a nursing assistant. 18 A No. 19 Q You worked in medical supply. And when you 20 21 first started in 1976 at the Veteran's Administration Hospital, you actually worked 22 23 in Building 138, didn't you? 24 A Right. Q And that was a long-term geriatric care-type 25 KREIDER-CROSS 2556 1 unit? 2 Yes. Α 3 Q And then after that you worked in other buildings from time to time. A Yes. 5 Q And you actually don't have any recollection 6 of working in Building 16 until about 1980 7 when you began working in medical supply; 8 9 isn't that right? A Right. If I worked on Building 16 before I 10 11 went into medical supply, it was just for a 12 shift occasionally to pull relief when I was 13 reassigned. Q Okay. But the point is that when you --14 15 your first recollection of being in Building 16 16, being around 1980, that was -- assuming 17 Mrs. Wiley started working in 1973, that 18 would have been seven years after she 19 started working. 20 A Right. 21 And when you worked as a nursing assistant, 22 you worked days for a period of time, and 23 then you'd work nights and evenings; right? 24 A Right. 25 Q And you rotated on all those shifts from KREIDER-CROSS 2557 1 1976 to 1980 while you were a nursing 2 assistant; right? A Right. 3 And that's because that's what all the staff 4 nurses and the nursing assistants had to do; right?

7 8	A	No. Yes and no. The nursing assistants who were permanently assigned to second or third
9		shift only came on day shift for seminars
10		and training classes that were held on days.
11		But if you worked days, you rotated to all
12		shifts.
13	Q	Well, it's fair
14	A	Did I clarify that at all?
15	Q	Well, probably.
16	A	Most some people did not rotate. If they
17		were permanently assigned to a second- or
18		third-shift position, but it didn't matter
19		if you had been there for 20 years, if you
20		were assigned to day shift, you did rotate
21		to pull relief on other shifts.
22	Q	You and I can agree that generally speaking,
23		most of the nurses, most of the nursing
24	_	assistants rotated day, evening, night?
25	A	Well, it would be approximately a third,
		KREIDER-CROSS
-		2558
1		because it would be the day shift rotated,
2	0	but the other shifts didn't routinely.
3	Q	Now then, in 1980, you began, or about 1980,
4		I think you were not quite sure of the exact
5		date when you started in medical supply
6 7	7\	was it 1980?
8	A	I don't really remember the dates. Okay. And whatever that date was, and I
9	Q	think you told us in your deposition you
10		thought it was 1980. Would that be pretty
11		close?
12	Δ	That's reasonably close to the time
12 13	A	That's reasonably close to the time. And you worked then in medical supply from
13	A Q	And you worked then in medical supply from
13 14		And you worked then in medical supply from 1980 until about 1989 or 1990; something in
13		And you worked then in medical supply from 1980 until about 1989 or 1990; something in that area?
13 14 15	Q A	And you worked then in medical supply from 1980 until about 1989 or 1990; something in that area? Right.
13 14 15 16	Q	And you worked then in medical supply from 1980 until about 1989 or 1990; something in that area? Right. Is that right?
13 14 15 16 17	Q A Q	And you worked then in medical supply from 1980 until about 1989 or 1990; something in that area? Right.
13 14 15 16 17	Q A Q A	And you worked then in medical supply from 1980 until about 1989 or 1990; something in that area? Right. Is that right? Right.
13 14 15 16 17 18	Q A Q A	And you worked then in medical supply from 1980 until about 1989 or 1990; something in that area? Right. Is that right? Right. And you became a supervisor of the medical
13 14 15 16 17 18 19 20	Q A Q A	And you worked then in medical supply from 1980 until about 1989 or 1990; something in that area? Right. Is that right? Right. And you became a supervisor of the medical supply department then in about, let's say,
13 14 15 16 17 18 19 20 21	Q A Q A	And you worked then in medical supply from 1980 until about 1989 or 1990; something in that area? Right. Is that right? Right. And you became a supervisor of the medical supply department then in about, let's say, 1981 or so; right? Right. And the medical supply building excuse
13 14 15 16 17 18 19 20 21 22 23 24	Q A Q A	And you worked then in medical supply from 1980 until about 1989 or 1990; something in that area? Right. Is that right? Right. And you became a supervisor of the medical supply department then in about, let's say, 1981 or so; right? Right. And the medical supply building excuse me, the medical supply department was not in
13 14 15 16 17 18 19 20 21 22 23	Q A Q A	And you worked then in medical supply from 1980 until about 1989 or 1990; something in that area? Right. Is that right? Right. And you became a supervisor of the medical supply department then in about, let's say, 1981 or so; right? Right. And the medical supply building excuse me, the medical supply department was not in Building 16, was it?
13 14 15 16 17 18 19 20 21 22 23 24	Q A Q A	And you worked then in medical supply from 1980 until about 1989 or 1990; something in that area? Right. Is that right? Right. And you became a supervisor of the medical supply department then in about, let's say, 1981 or so; right? Right. And the medical supply building excuse me, the medical supply department was not in Building 16, was it? KREIDER-CROSS
13 14 15 16 17 18 19 20 21 22 23 24 25	Q A Q A Q	And you worked then in medical supply from 1980 until about 1989 or 1990; something in that area? Right. Is that right? Right. And you became a supervisor of the medical supply department then in about, let's say, 1981 or so; right? Right. And the medical supply building excuse me, the medical supply department was not in Building 16, was it? KREIDER-CROSS
13 14 15 16 17 18 19 20 21 22 23 24 25	Q A Q A Q	And you worked then in medical supply from 1980 until about 1989 or 1990; something in that area? Right. Is that right? Right. And you became a supervisor of the medical supply department then in about, let's say, 1981 or so; right? Right. And the medical supply building excuse me, the medical supply department was not in Building 16, was it? KREIDER-CROSS 2559 Not at that time, no.
13 14 15 16 17 18 19 20 21 22 23 24 25	Q A Q A Q	And you worked then in medical supply from 1980 until about 1989 or 1990; something in that area? Right. Is that right? Right. And you became a supervisor of the medical supply department then in about, let's say, 1981 or so; right? Right. And the medical supply building excuse me, the medical supply department was not in Building 16, was it? KREIDER-CROSS 2559 Not at that time, no. It was in the basement of Building 138?
13 14 15 16 17 18 19 20 21 22 23 24 25	Q A Q A Q	And you worked then in medical supply from 1980 until about 1989 or 1990; something in that area? Right. Is that right? Right. And you became a supervisor of the medical supply department then in about, let's say, 1981 or so; right? Right. And the medical supply building excuse me, the medical supply department was not in Building 16, was it? KREIDER-CROSS 2559 Not at that time, no. It was in the basement of Building 138? Right.
13 14 15 16 17 18 19 20 21 22 23 24 25	Q A Q A Q	And you worked then in medical supply from 1980 until about 1989 or 1990; something in that area? Right. Is that right? Right. And up to the time that Mrs. Wiley became the head nurse, since she was a staff nurse, she would have rotated on all these other shifts we're talking about, days, evenings, and nights; right?

```
as a nurse's assistant, which was about,
17
          what, 1989, 1990?
18
     A Right.
     Q At that time Mrs. Wiley was the head nurse.
19
     A She either was the head nurse or became the
20
2.1
         head nurse around that time. I don't know
          if she was head nurse when I went or
22
23
          assigned shortly after.
24
     Q Well, we heard --
25
     A She was on that building at that time.
                       KREIDER-CROSS
          I think we've all heard a lot of evidence
 1
          before you got here that she became the head
          nurse about 1985. And so when you went back
 3
          to Building 16 as a nursing assistant,
 5
          Mrs. Wiley, as a head nurse, worked days;
 6
          right?
7
     A Primarily, yes.
      Q And you worked the second shift during that
8
9
          period of time; right?
     A Not all the time, but as much as I could I
10
11
          did. I was not assigned to second shift,
12
          but I pulled as much of the relief and
          staffing on that shift as I could.
13
14
     Q All right. But Mrs. Wiley, then, during
          that period of time that you were there in
15
          Building 16, from about 1989 or 1990, up
16
          until the time of 1991 when Mrs. Wiley fell
17
18
          sick, you, for the most part, did not work
19
          days but she did work days; right?
20
    A Right.
     Q All right. Mrs. Wiley, as a staff nurse,
21
          would have been a member of committees and
22
         study groups; right?
2.3
     A As a staff nurse and as a head nurse both.
24
     Q But as a staff nurse, she would have been a
25
                       KREIDER-CROSS
                                                2561
          member of committees?
 1
      A Sure.
      Q Sure. And committee meetings, the kind
 3
          we're talking about here, were held in the
 4
 5
          administration building?
 6
          It depended on how big or how small the
 7
          group was and what the committee was.
8
          Sometimes they were held right on the
9
          nursing units.
10
      Q Some of them were held in the administration
11
          building, though; isn't that right?
12
     Q Some of them were held in the education
13
14
          building?
15
     A Yes.
     Q And some of them were held in a building
16
17
         across the street from the hospital called
          the Credit Union Building?
18
     A Right.
19
     Q And some of these meetings and seminars --
20
21
         strike that.
22
               Some of the educational meetings that
23
         nurses went to were actually in places
          outside of Marion, Indiana; right?
```

25	А	I'm sure they probably were for nurses, KREIDER-CROSS
1 2 3 4		because some of mine were as, in supply, so, you know, I didn't keep up with where they went, but there were seminars that we got bulletins on that were not on the hospital
5 6 7	Q	grounds that they could apply to go to. Some of the places that the nurses would go to for seminars included the Veteran's
8 9 10	7	Administration Regional Training Center in St. Louis? Right.
11	A Q	And in Indianapolis?
12	A	Yeah. I imagine.
13	0	Fort Wayne?
14	A	Might have been a few at Fort Wayne. Fort
15		Wayne was not that big of a facility that
16		they had that many.
17	Q	But they did go there from time to time?
18	A	It's possible, yeah.
19	0	Now, in answer to Mr. Cross' questions about
20	~	your work in the medical supply department
21		beginning about 1980, you testified, I
22		believe, that that department stocked
23		cigarettes that were given to indigent
24		patients; is that right?
25	A	Right.
		KREIDER-CROSS
		2563
1	Q	But isn't it a fact that a few months after
2		you began working in the medical supply
3		department, it stopped distributing
4		cigarettes?
5	A	It stopped sometime shortly after I started,
6		yes, because we had a supervisor who did not
7	0	think it was appropriate.
8	Q	Okay. And a few months then after you began
9		working there would have been a few months
10		after you started working there in about
11 12		1980. So we can agree that in about 1980, then, that the medical supply department
13		stopped distributing cigarettes; right?
14	А	Right.
15	O O	And you mentioned your knowledge about
16	×	cigarettes being sold in the canteen; you
17		remember that?
18	A	Yes.
19	Q	And were there cigars sold in the canteen?
20	Ā	Yes.
21	Q	Pipe tobacco was sold in the canteen?
22	A	Yes.
23	Q	Pardon me?
24	A	As far as I remember, it was. I didn't use
25		it, so I didn't buy it.
		KREIDER-CROSS
		2564
1	Q	Okay. Let me switch over to another
2		subject. You told Mr. Cross something about
3		the condition of the patients in Building
4		16. Let me just go back over that for a
5		moment.
6		You would describe those patients,

```
7
          would you not, as long-term care patients?
      Α
 8
          Yes.
9
     Q And they needed assistance for most of their
10
          daily needs?
     A The majority of the patients did, yes.
11
12
      Q Some were confined to their beds?
13
          Yes.
      Α
14
      Q
          And some of them required feeding bags?
15
      Α
          Yes.
16
      Q Some of them required restraints?
17
      A Yes.
18
      Q Some of them required catheters?
19
      A Yes.
20
      Q Some of them had to have diapers?
21
      Α
          Yes.
     Q And many of them required oxygen that was
22
23
         piped into their units?
24
     A Not a great deal of them required oxygen on
25
          a daily basis. It was just there for the
                       KREIDER-CROSS
          convenience of being able to give it to them
 1
          without transferring them to medical if they
 3
          developed pneumonia or something that caused
          them to need it for a while.
 4
     Q But some of the patients required oxygen;
 6
          right?
 7
     A On occasion.
 8
         And not all those patients smoked, did they?
      A Probably not.
9
     Q And of those patients that smoked, they
10
11
         could only smoke during certain times; isn't
12
         that right?
     A Now, are we talking about the last couple
13
          years when I worked in nursing on that unit
14
15
          or are we talking about the entire time?
16
      Q Well, I'm talking about your testimony about
17
          what you remember you saw during --
     A When I was working in medical supply
18
19
          delivering supplies to the unit, the
20
          patients were allowed to smoke on the
21
          building. And the majority of them probably
          did smoke.
22
     Q Okay. I understand that. My question is,
23
          that there were times when those patients
24
25
          could not smoke; isn't that right?
                      KREIDER-CROSS
                                                2566
      A Yeah. If they were in bed, they couldn't
 1
          smoke in the rooms.
 3
          Well, do you remember telling us about that
          in your deposition? That there were times,
 4
 5
          apparently, when the patients could not
 6
          smoke?
 7
     A
          Yes.
 8
          Okay. And I think you told us that in the
9
          later years that you remember in Building 16
10
          about two-thirds of the patients on that
          floor, on the first floor, were bedfast with
11
12
          tubes. Remember that?
13
     A Yes.
14
     Q And smoking was not allowed in the patients'
15
          rooms; correct?
```

16	А	No. But when I talk about a bedfast
17		patient, I'm talking about a patient who is
18		non-ambulatory and cannot get out of bed on
19		his own. He may be got out of bed and taken
20		to other places in the hospital. It doesn't
21		mean when I talk about a bedfast patient,
22		in my work, I'm not talking about somebody
23		that never gets out of their bed.
24	Q	Sure, I understand that.
25	A	Okay.
43	A	KREIDER-CROSS
		2567
1	0	And while you were still working in medical
2	Q	supply during those years, smoke eaters were
3		installed at most of the buildings at the
4		
5		Veteran's Administration Hospital; isn't that correct?
6	7\	Yes.
	A	
7	Q	And that was a big apparatus that would suck
8	7	the smoke up?
9	A	It was supposed to. If they were large
10		enough for the area, they would work. If
11		they weren't large enough, they didn't
12	_	weren't too successful sometimes.
13	Q	Well, in fact, you recall, do you not, that
14		in Building 16 those smoke eaters were
15		installed in the first floor day room?
16	A	Yes.
17	Q	Smoke eater was installed in the second
18		floor day room in Building 16 also; isn't
19		that right?
20	A	Yes.
21	Q	And you recall that there was a no-smoking
22		policy instituted in the 1980s sometime;
23		correct?
24	A	Sometime in the late '80s yes.
25	Q	In connection with that no-smoking policy,
		KREIDER-CROSS
		2568
1		no-smoking signs were posted in the canteen?
2	A	Yes.
3	Q	And no-smoking signs were posted in some
4		other places in Building 16; right?
5	A	Right.
6	Q	And, in fact, you remember because your
7		husband tried to get the no-smoking policy
8		in the canteen lifted; right?
9	A	That's right. Through his veteran's
10		organization.
11	Q	And each building there were areas where
12		staff employees and visitors could no longer
13		smoke; correct?
14	A	Correct.
15	Q	And you remember when Mildred Wiley had an
16		office?
17	A	Yes.
18	Q	She had an office when she was head nurse?
19	A	Yes.
20	Q	And Mildred Wiley did not allow smoking in
21		her office, did she?
22	A	No.
23	Q	In fact, there were no ashtrays in her
24		office, were there?

25 Α No. KREIDER-CROSS You don't recall ever hearing Mildred Wiley saying she wanted to transfer to a different 3 part of the hospital from Building 16; isn't that correct? 5 I don't remember her ever discussing that. 6 And you don't have any recollection that 7 Mrs. Wiley ever complained about smoking in 8 the Veteran's Administration Hospital, do 9 A Mrs. Wiley didn't do a lot of complaining. 10 So I don't remember her --11 12 But you don't have any recollection that 13 she --14 MR. MOTLEY: Excuse me, Your Honor. 15 He's talking over the witness. MR. WAGNER: Mr. Motley is correct. THE COURT: Did you finish your 17 18 answer, ma'am? 19 Yes. I don't remember her complaining about 20 anything. 21 In fact, you also never complained about the 22 smoke; isn't that correct? 23 I probably complained about anything I could 24 complain about. Remember telling us in your deposition you 25 Q KREIDER-CROSS 2570 1 never complained about the smoke? 2 A Not specifically, I didn't complain about 3 And you testified about having to help the patients smoke every once in a while; is 5 that right? 6 7 That was part of our job. Α 8 That was part of your job there. And since 9 you were not a smoker, didn't Mrs. Wiley 10 give you the opportunity to avoid helping 11 the patients smoke? 12 A Yes. She told me if it didn't upset me and bother me, you know, she wouldn't assign 13 14 that to me any more than necessary to cover 15 herself with the unit. That she would 16 assign that to other people who were 17 smokers. 18 She told you that she would assign that duty 19 to other people who were smokers because the 20 smokers liked to help the patients smoke so 21 they could smoke; right? 22 Sure. Α 23 I want to talk to you about your testimony 24 about the brands of cigarettes that you 25 remember being sold or used at the Veteran's KREIDER-CROSS 1 Administration Hospital; okay? Just want to go back through that a little bit. 2 3 Okay. Α 4 Q You with me? 5 A (Affirmative nod)

All right. That subject came up in 1997

7		when you talked to Mr. Max Howard and
8		Mr. Cross at lunch one day; right?
9	A	It came up that day, but it had also been
10		discussed back in May of '93, when
11		Mr. Howard had talked to me at the hospital.
12	0	Well, let's go back to that then for a
	Q	
13		minute. In 1993, Mr. Howard came out to the
14		Veteran's Administration Hospital, and he
15		and some other attorneys began interviewing
16		people there at the hospital; right?
17	A	Right.
18	Q	And you were one of those people that got
19	~	interviewed.
20	A	Right.
21	0	And then you didn't talk to Mr. Howard about
22	Q	
		that subject again from 1993 until 1997;
23		right?
24	A	No.
25	Q	No, that's not correct?
		KREIDER-CROSS
		2572
1	А	No, I did not.
2		No, you did not, all right. And then you
	Q	-
3		met Mr. Howard and Mr. Cross for lunch in
4		October of 1997.
5	A	Right.
6	Q	Was Mr. Motley there with you at that time?
7	A	No.
8	Q	Do you know who Mr. Motley is?
9	Ā	No.
10	Q	And then at that lunch, Mr. Howard read to
11	Q	
		you a list of cigarette brand names, didn't
12		he?
13	A	He showed me notes that he had taken from
14		our previous meeting that had a list on it
15		that I had given him.
16	Q	Well, actually he never showed you the list,
17		did he? He just read it to you.
18	A	He read it to me.
19	Q	But you didn't see the list.
20	Q A	That he had?
21	Q	Yes, ma'am.
22	A	No.
23	Q	All right. Now, in this affidavit in
24		this paper that you brought here today, and
25		your testimony here before the jury that
		KREIDER-CROSS
		2573
1		you've related the brand names, I was
2		counting those up and there were 26 of
3	_	those. Right?
4	A	I never counted them.
5	Q	Well, I just counted them. And there are a
6		list of 26 different brand names; right?
7		And that's pretty good memory feed, isn't
8		it?
9	A	Well, probably what I did was named the
10		cigarette brands that I was familiar with
11		and that I had seen people smoking, because
12		
		that's the only place where I was usually
13		around very much smoke, except for what my
14		husband smoked at home, and he smoked
15		Vantage.

16	Q	It's correct, isn't it, Mrs. Kreider, that
	Q	
17		you have no recollection of a specific
18		incident when each of the brands you've
19		identified were smoked in Building 16;
20		correct?
21	70	
	A	Correct.
22	Q	And you have no recollection of specific
23		patients smoking specific brands in Building
24		16, do you?
25	70	-
25	A	Some patients I could probably name specific
		KREIDER-CROSS
		2574
1		brands they smoked, but I think I told you
2		in the deposition that that's not something
3		I paid attention to, because the girl that I
4		regularly worked with, I don't even know
5		what brand she smoked. I was with her on a
6		daily basis.
7	Q	But you remember telling us in your
8	~	deposition that you had no recollection of
9		specific patients smoking specific brands in
10		Building 16. Right?
11	A	I remember telling you that I don't remember
12		seeing patients smoke specific brands in the
13		presence of Millie, but, you know, I may
14		have said Building 16.
15	Q	Okay. And you don't have any recollection
16		of the brands smoked by staff members in
17		Building 16 either, do you?
18	A	Not specific people and specific brands, no.
19	Q	And you don't know what brand of cigarettes
20		all the visitors that came to the hospital
21		smoked, do you?
22	A	No. But if visitors came in and smoked
23		them, the patients probably smoked them
24		because they would ask visitors for
25		cigarettes.
		KREIDER-CROSS
		2575
1	Q	And when Mr. Howard and Mr. Cross contacted
2	~	you in October 1997 and talked to you about
		this list of 26 brands of cigarettes, that
3		
4		was about three years after you had retired
5		from the Veteran's Administration, wasn't
6		it?
7	A	It's three years after I left. I did not
8		retire. I resigned.
	_	
9	Q	All right. It was about three years after
10		you had left the Veteran's Administration
11		Hospital.
12	A	Right.
13		And if the record in this case shows that
	Q	
14		this lawsuit was filed in 1993, it would
15		have been over four years after this lawsuit
16		was filed; right?
17	A	Yes.
18		MR. WAGNER: I think that's all I
19		have, Your Honor.
20		THE COURT: Mr. Ohlemeyer.
21		MR. OHLEMEYER: Just a couple.
22	CROSS	EXAMINATION
23		OHLEMEYER:
24		
4	Q	ris. Aretuer, my hame is bill Unitemeyer. I

25		just have a few questions for you. KREIDER-CROSS 2576
1 2		You told Mr. Cross before lunch about a
		patient that you apparently had told
3		Mr. Cross about before this morning.
4	7	Remember that discussion?
5	A	Yes.
6	Q	And you told us about the way that
7	70	patient smoked cigarettes.
8	A	Yes.
9 10	Q	I'm correct, though, that you don't know if Mrs. Wiley ever had to have that same
11		experience with that patient or had to deal
12		with that patient?
13	А	I couldn't say yes, she did, but I couldn't
14	А	say no, she didn't, because part of the
15		nurse's job also was helping the patients to
16		smoke, the same as the aides were.
17	0	But am I correct that page 19, Counselor,
18	×	you were asked this question, you gave this
19		answer at your deposition, in connection
20		with a discussion of that patient:
21		"Question: Do you know if Mildred
22		Wiley ever had this same experience with the
23		patient?
24		"Answer: No, I don't."
25	A	No. I only can be responsible for what I
		KREIDER-CROSS
		2577
1		do. I don't keep track of what everybody
2		else does.
2 3	Q	else does. I understand. Your husband used to be a
	Q	
3	Q A	I understand. Your husband used to be a regular smoker? My present husband, yes.

```
MR. OHLEMEYER: That's all I have.
 8
           Thank you.
 9
                    THE COURT: Redirect, Mr. Cross?
10
                    MR. CROSS: Yes, Your Honor. Thank
11
           you.
12 REDIRECT EXAMINATION
13
   BY MR. CROSS:
           Mr. Wagner asked you a number of questions
15
           about committee meetings and education
           building and administration building and so
16
17
           on. When you saw Mildred Wiley during the
           time, during those long years you worked in
19
           supply, where would you see her at?
20
           Most of the time that I saw her would be on
21
           the building, on Building 16, because it
22
           would be when I was talking with her about
23
           supplies, in general, or about evaluations
24
           going on with supplies that were being done
25
           on that building or something.
                       KREIDER-REDIRECT
                                                  2579
           And can you, just so that we're clear on
 1
           this, could you tell the jury again
 3
           approximately how many times you would --
 4
           you believe that you would have encountered
           her in Building 16 during those years each
 6
           week?
 7
                    MR. WAGNER: Asked and answered.
                    MR. CROSS: I'm entitled to
 8
 9
           clarify.
10
                    THE COURT: You can tell us.
11
           Sometimes I might be on that building four
12
           or five times in one day, but I was always
           on it maybe eight or ten times in a week.
13
           And if -- since she was normally a day
14
15
           nurse, I would probably see her when I was
16
           there. Whether I was specifically meeting
17
           with her or not, you know, I possibly would
18
           see her.
19
       Q Do you recall about how often you might have
20
           gone to Building 16 for some reason or
           another and not seen her there on the floor?
2.1
       A No. Because it would vary as to whether she
22
23
           was working A or B floor, which was first
24
           and second floor. Or, you know, whether I
25
           was -- probably I would see her because even
                       KREIDER-REDIRECT
                                                   2580
 1
           if she was in her office, you walked by her
           office to get to the nurse's station.
           Now, Mr. Wagner asked you a question about
 4
           there being asbestos at the Veteran's
 5
           Administration Hospital and the occasions
 6
           when it might have been removed. You don't
 7
           ever recall any asbestos removal taking
 8
           place in regards to Building 16, do you?
 9
      A No, not specifically.
10
           And those -- and those few instances when
           you did happen to see that in one of the
11
12
           other buildings -- could you describe what
           measures were taken by the people that were
13
14
           doing that work?
15
           Well, I also sat, as supervisor of central
      Α
```

supply, I sat on the infection control 17 committee, and the safety committee, and it 18 was always petitioned off. And even the 19 door, if it was coming off of a corridor where there was a closed door, they would 20 21 always build maybe a foot or two out from that door. Leaving enough room for the door 22 23 to open, but they would build out with 24 plastic and wood framing to partition it off 25 so that they would go into that little KREIDER-REDIRECT 1 enclosed area before they opened the door into the big area where they were doing removal, and that was just standard 4 procedure, wherever there was asbestos 5 removal going on. They would partition it 6 off and it was a restricted area and no one 7 was allowed in it except the workers that 8 were involved. 9 Q Would you have ever seen a cloud of asbestos 10 then come up from the place where that work was being performed? 11 Α 12 No. Q There were clouds of smoke in the building, 13 14 were there not? 15 A Yes. Q Now, you testified that the supervisor who 16 17 was one of your predecessors in the supply 18 department thought it wasn't appropriate 19 that cigarettes be distributed out of the 20 medical supplies department; was that your 21 testimony? A Right. Well, he didn't think any of the 22 indigent supplies should be kept there 23 24 because they weren't medical supply items. Q But prior to that time, cigarettes had been 25 KREIDER-REDIRECT 2582 1 treated just the same as if they were medical supplies? Except that they were not bought out of our 3 budget. They weren't funded from our 4 medical supply budget, but they were stored 5 6 and stocked in that department, yes. 7 Q And how did it come about that cigarettes 8 were distributed -- strike that. 9 After that change was made, were 10 cigarettes still stored in those warehouses 11 you talked about? 12 Cigarettes were still stored in the 13 warehouse and sold at the canteen, yes. 14 Whether free cigarettes stopped at that 15 time, the indigents' cigarettes stopped at 16 that time or were assigned to another area 17 of the hospital, I really don't remember. Q But after that change in the way they were 18 19 processed through the system at the 20 Veteran's Administration Hospital, did you 21 notice that the level of smoke present in 22 the buildings declined at all? 23 A No. Not that I recall. 24 Q Okay. Now, back to the cigars and the pipe

```
25
          tobacco that was sold in the canteen. You
                      KREIDER-REDIRECT
                                                 2583
          answered a question of Mr. Wagner's that you
          did observe that that was going on?
3
          Yes.

 4
5
          of pipe tobacco that were sold in the
6
          canteen?
7
      Α
         No.
          Have you ever seen the brand Sir Walter
8
          Raleigh pipe tobacco?
9
10
                  MR. WAGNER: Objection, Your Honor,
11
          leading, suggestive.
                   THE COURT: Sustained. She's
12
13
          answered it.
14
          You said that -- you answered some questions
15
          in response to these gentlemen about the
16
          measures that you take to ventilate your
17
          home and when you let your husband smoke
          there and in your automobile?
18
          I don't let my husband. He chooses to do
19
20
          that.
21
      Q Okay.
22
      A I don't tell him what to do. I don't think
23
          he's in here, but don't get me in trouble at
24
      Q You realize that this is -- this will be a
25
                      KREIDER-REDIRECT
                                                  2584
1
          public record?
2
          Yeah. But I don't think anybody knows him
      Α
3
          that's in here.
         There's a couple of newspaper reporters back
          there. You sure you want to --
5
      A He doesn't read the paper.
6
7
          You may dodge that one then.
8
               You did say some things about that,
9
          though. You mentioned your husband had had
10
          a complaint about, some kind of complaint,
11
          being able to smoke; he thought he had a
12
          right to. I just want to make sure that
          that is not your present husband; is that
13
14
          correct?
     A No. When we were talking about my husband
15
16
          helping, fighting through the veteran's
          organization, my former husband, who is
17
18
          deceased, was president of an American
19
          Legion post, and he was not even a smoker at
20
          the time that he was doing that. He had
21
          quit because he had chronic lung problems
22
          himself, but he felt that since that was
23
          those veterans' home, they had a right to,
24
          when they went to the canteen, to have a cup
25
          of coffee, they had a right to have a
                      KREIDER-REDIRECT
1
          cigarette if they wanted to. And through
          the American Legion organization he helped
3
          to try to get them as many rights as he
          could, even though at that time he was not a
          smoker himself.
          So just to be -- along the same lines, we're
```

7		clear on another point, when these
8		restrictions on smoking were instituted in
9		the late 1980s, these pertained to employees
10		only, did they not?
11	А	To begin with, yes. Later on, I think there
12		were probably restrictions placed on
13		patients' smoking in buildings, but to begin
14		with, it came down on the employees before
15		it did patients, yes.
	0	
16	Q	When did the restrictions on patients
17		themselves go into
18	A	I really don't remember.
19	Q	Was it do you have an idea as to when it
20		was relative to when you resigned?
21	A	Well, there were some patient areas still in
22		the buildings where smoking was when I left
23		the VA in '94.
24	Q	1994?
25	A	Right. The patients could still smoke?
23	А	KREIDER-REDIRECT
_		2586
1		Certain areas but not employees.
2	Q	Now, you stated that you resigned instead of
3		retired?
4	A	Right.
5	Q	What is the difference?
6	А	I basically quit, but I resigned due to
7		personal reasons that would affect my
8		retirement income in later years because of
9		being an older, in years, federal employee,
10		and I was under the civil service program,
11		yet I had also taught school and worked
12		under Social Security; and it would have
13		affected my retirement income had I remained
14		at the VA and retired under the program that
15		I was under.
16	Q	So it had to do with it didn't have
17		anything to do with you getting mad at
18		anybody?
19	A	No.
20	Q	Or leaving?
21		5
	A	It was financial reasons for my future years
22		when I get old.
23	Q	Okay. Now, Mr. Wagner asked you some
24		questions about smoke eaters.
25	A	Right.
		KREIDER-REDIRECT
		2587
1	Q	And he talked to you a little bit about some
2		of your deposition testimony in that regard.
3		Did these smoke eaters make much noise?
4	A	They were very noisy. The TVs would have to
5		be turned up for the patients who were
6		watching TV to be able to hear if the smoke
7		
	0	eaters were on.
8	Q	And did this cause any problems in your
9		experience, the fact that they were noisy?
10	A	Well, it caused gripey patients sometimes or
11		complaining staff, but
12	Q	Did the smoke eaters dispel all the smoke
13		that was generated in that building?
14	A	No. No.
15	Q	Did you notice whether or not the smoke

16 17 18 19 20 21 22 23 24 25	A Q	eaters did any good at all? They did remove some of the smoke, and particularly, if you could encourage the patients who were smoking to congregate in the area of the smoke eater. But that wasn't always possible because of the size of the geri chairs and the chairs they were sitting in. They couldn't all get real close to it sometimes. And there was only one on each floor? KREIDER-REDIRECT
1	А	There was usually one smoke eater in a room,
2		yes.
3	Q	Do you recall when those were instituted?
4	A	No, I really don't.
5	Q	Now, you stated in response to a series of
6		questions from Mr. Wagner that you could not
7 8		recall specific incidences where specific patients would smoke specific brands, and I
9		just want to clarify that point because I
10		believe on direct examination, when I asked
11		you earlier, you mentioned
12		MR. OHLEMEYER: Excuse me, Your
13		Honor. I object to this question as framed.
14		MR. CROSS: How do we know what it
15		is until I finish it?
16 17		MR. OHLEMEYER: Well, because you can't repeat testimony as a predicate to a
18		question in a leading fashion.
19		THE COURT: I agree. Rephrase it,
20		Counselor.
21	Q	Would you tell the jury again about the
22		indigent patient who wanted a particular
23		brand that was not purchased at the canteen?
24 25		MR. OHLEMEYER: Now, Your Honor,
45		based on the cross-examination, I object to KREIDER-REDIRECT
		2589
1		this lack of foundation, relevance, because
2		this witness didn't connect it to
3		Mrs. Wiley.
4		MR. CROSS: That wasn't the
5		question Mr. Wagner posed. He got her to
6 7		say that she couldn't recall any specific instance of a specific cigarette being
8		smoked by a specific patient, and she
9		testified to the contrary. I could have
10		stood up and objected at that time.
11		THE COURT: I'm going to sustain
12		the objection.
13	Q	Once again, let me ask you a very simple
14		question. What specific memories do you
15 16		have of particular brands being smoked by particular patients during your tenure at
16 17		the VA?
18		MR. WAGNER: Your Honor, okay, this
19		was all gone into on direct examination.
20		She's already testified what her memory is
21		of this subject.
22		THE COURT: I think we've been over
23		that a couple times already.
24		MR. CROSS: All right, as long as

25		the record is clear. KREIDER-REDIRECT 2590
1	0	This gentleman that we talked about on
2	~	direct examination, the paraplegic Vietnam
3		veteran, was he the kind of patient you
4		would refer to as a bedfast patient as you
5		discussed with Mr. Wagner?
6	A	Yes.
7	Q	Were there many people like him who were
8		either quadriplegic or unable to motivate or
9	70	move around on their own?
10 11	A	Yes. Quite a maybe I don't know. Maybe three out of 20 or something. Not a
12		Maybe three out of 20 or something. Not a great deal that were in that severe
13		condition that this particular patient was.
14		There were probably some that could not
15		motivate at all on their own.
16	Q	And you personally assisted in the smoking
17	~	of this gentleman; correct?
18	А	Yes.
19	Q	Do you know whether or not you testified
20		in response to a question by Mr. Wagner you
21		didn't know whether Mildred Wiley ever
22		performed this function on this man.
23	A	No.
24	Q	Do you know whether Mildred Wiley was in the
25		building when you were performing this
		KREIDER-REDIRECT
1		function on this man?
1 2	А	I couldn't say that she definitely was.

7	the members of the Tobacco Institute. May I
8	pass Your Honor up a copy?
9	MR. WAGNER: Your Honor, we're
10	going to need to be heard on this outside
11	the presence of the jury.
12	THE COURT: We have not dealt with
13 14	that issue yet?
15	MR. MOTLEY: No, sir, we haven't. It's one I placed on the list earlier; he
16	raised a question I wanted to address.
17	THE COURT: How many are you going
18	to offer?
19	MR. MOTLEY: Just this one right
20	now.
21	THE COURT: Just that one? All
22	right. Ladies and gentlemen, we need about
23	five minutes. I'm sorry, but once in a
24	while it happens.
25	(Standard admonition).
	KREIDER-REDIRECT
	2593
1	(Jury not present)
2	MR. MOTLEY: May I approach and
3	hand Your Honor a copy of this?
4	THE COURT: Yes.
5	MR. MOTLEY: That has a yellow
6	sticker, I'm told, Your Honor. We premarked
7	it so as not to take up the Court's and
8	clerk's time in marking these things.
9	THE COURT: All right.
10	MR. WAGNER: Judge, I don't mean to
11	interrupt Mr. Motley, but we've already
12	argued this exhibit. It was offered before
13 14	and rejected by the Court.
15	MR. MOTLEY: I don't remember such as that.
16	MR. OHLEMEYER: That's why it's not
17	marked.
18	MR. MOTLEY: We premarked all of
19	these, sir, to save time. I suggest you get
20	a different scribe than the one you've got
21	back there.
22	THE COURT: It was marked,
23	Counselor, but not argued.
24	MR. MOTLEY: You told us to revisit
25	this, Your Honor. I brought it up at
	KREIDER-REDIRECT
	2594
1	sidebar; you told us to revisit this
2	document.
3	This document goes to the issue of the
4	defendants' efforts to use the veteran's
5	organizations as stalking horses to keep
6 7	smoking going on in the Veteran's
	Administration hospitals. And now that
8 9	Mr. Wagner has asked a specific question about veteran's organizations, I wish to
9 10	offer it.
11	At the time you told me that it had
12	nothing to do, I believe, with the witness
13	that I was addressing. You never said I
14	couldn't bring this document back up again.
15	THE COURT: I have it.
	200

16 MR. OHLEMEYER: Mr. Motley did 17 offer the exhibit. 18 MR. MOTLEY: Through a witness, 19 Your Honor. THE COURT: Through Dr. Roggli. 20 MR. MOTLEY: Roggli, yes, Your 21 Honor. Now, they've raised the issue, Your 22 23 Honor, specifically to this witness about 24 veteran's organizations, and I would 25 respectfully ask Your Honor to look at --KREIDER-REDIRECT these things don't have pages on them, or if 1 they have pages, you can't read them. So I 3 have to give you the Bates number, Your 4 Honor. THE COURT: All right. 5 MR. MOTLEY: And I specifically 6 7 refer Your Honor to Bates Nos. 2731, 2732, 2736, 2737, and, Your Honor, that this --8 9 essentially this is what I call the stalking horse document, where the Tobacco Institute 10 11 was using veteran's organizations as a 12 stalking horse to keep smoking allowed in 13 Veteran's hospitals, and that's what this 14 document addresses. 15 And now that the defendants have raised this as an issue in cross-examination, I 16 17 believe it's seasonable and fair for us to 18 move to introduce it at this time and 19 publish it to the jury. That's, in 20 essence -- that's, in fact, what it says, 21 Judge, and they objected to it at the time, I believe, amongst other reasons, on 22 relevance and foundation. Now that they've 23 24 raised this, I don't -- this was produced in files, Your Honor, of the Tobacco Institute 25 KREIDER-REDIRECT 2596 1 itself, it was an address by the chairman of RJ Reynolds, and on the back it tells us who 3 all was there. On page 38, the distribution is set 4 5 forth on page 38, distributed to the Tobacco 6 Institute, to Covington & Burling who 7 represents the Tobacco Institute, Chadbourne 8 & Parke, who represents American Tobacco 9 Company, to Philip Morris, to RJ Reynolds. 10 Remember Mr. Sheffler, he's -- and Shook 11 Hardy & Baccon, that's Mr. Ohlemeyer's law 12 firm. 13 And then further, Your Honor, at the 14 bottom there's some blind copies on page 39. 15 I can describe who those people are if you'd 16 like. I don't know how they can ask 17 questions of these witnesses about what veteran's groups did, Your Honor, and not 18 19 make these things relevant in our case in 20 chief. 21 THE COURT: All right. The document is reoffered. Defendants care to 22 23 be heard? 24 MR. WAGNER: I do, Your Honor. We

25 seem to be really stretching for reasons to KREIDER-REDIRECT 2597 get some documents in. The question, as Your Honor heard, is probably going to try your patience repeating it, but substantively this witness remembered that there was a time when the canteen at the 6 hospital stopped selling cigarettes. 7 the question simply was, do you remember that because your husband was involved in an 9 effort to get that smoking restriction 10 lifted, and she volunteered, yes, he was and 11 he went to, I think she said -- what did she 12 say? American Legion or Veteran's 13 Administration or something; one of the 14 local places here, or rather in Marion, 15 Indiana; one of the local legion clubs or 16 whatever and tried to get them to allow the 17 veterans to smoke there. That was the long and short of it. 18 Now, how all that, when reopened this 19 exhibit as consideration by the Court again, 20 21 after all the objections that were made here before, I don't have the slightest idea. 22 23 But this document, you know, there are a number of reasons why it's objectionable. 24 First of all, it's a briefing. It 25 KREIDER-REDIRECT 2598 1 doesn't show that anybody said anything. It shows on its face that it's a briefing of a 2. gentleman who apparently was going to give some sort of a speech. It's got a 1989 date, it's irrelevant to anything in this 5 case in terms of time, and it essentially 7 discusses petitioning the federal government by a number of different ways and lobbying, 8 9 all of which were constitutionally 10 protected, which we argued before. 11 doesn't identify any person who said anything. 12 Its author is not even identified, so 13 14 there -- I mean, there are a gazillion 15 reasons, Your Honor, why this document ought 16 not to be admitted. Your Honor turned it down, the offer of admission of this 17 18 document before, and I quess I have to say 19 it's really stretching it now for Mr. Motley 20 to stand up here and say somehow or another 21 we ought to go back and revisit this again, 22 get the jury out of the room, go over this 23 document all over again, delay this trial 24 for another 15 minutes to an hour or so 25 while we reargue something that isn't worthy KREIDER-REDIRECT 2599 1 of being reargued.

6 could make reference to the windiness of

3

MR. MOTLEY: Your Honor, gazillion,

whatever that is, frivolous reasons don't make a substantial one. And if we want to get into who is wasting the Court's time, I

Mr. Wagner's objections. 8 But, Your Honor, they knew -- they 9 asked this lady these questions in the 10 deposition. They knew what the answer was going to be. And, Your Honor, Dr. Roggli 11 was an expert witness. I don't have the 12 transcript, exactly what you said, but you 13 never foreclosed me, if I recall 14 correctly -- I don't have the transcript in 15 front of me -- every document is not 16 17 relevant as to every witness. We didn't offer this document with this witness. I 19 offer it now. 20 Standing by itself, it's relevant, Judge. And as far as this lobbying, there's 21 22 no such thing as an immunization's of 23 evidence. There's an immunization of claims 24 based on public advocacy. You never ruled 25 any differently from that; you just ruled KREIDER-REDIRECT with respect to the 1994 testimony of these 1 CEOs. 3 MR. OHLEMEYER: If I may, Your 4 Honor, very briefly. THE COURT: Mr. Ohlemeyer. MR. OHLEMEYER: The first three 6 7 words of this document are, "Thank you, Bob." The last word is "Sam." We don't 8 9 know who Bob is; we don't know who Sam is. 10 MR. MOTLEY: I do. 11 MR. OHLEMEYER: You know, Mr. Motley -- Your Honor, I apologize. But at 12 some point if Mr. Motley wants to take the stand and raise his right hand, we'll see 15 how much he knows and how much can be confirmed and corroborated. At the present 16 17 time we're dealing with a document that 18 describes contact with the veteran's 19 organization. The best evidence of what 20 happened in the VA is the VA policies and procedures. 21 22 If Mr. Motley wants to put evidence on 23 of that, he's free to do that. If he wants 24 to bring somebody in from the VA to say we 25 would have done this sooner but somebody KREIDER-REDIRECT 2601 1 told us not to, he can do that. But this document doesn't get him where he wants to go. MR. MOTLEY: Your Honor, we have 5 Answers to Interrogatories, Sam is Sam Chilcoate and Bob is Bob Kloepfer, the vice 7 president of the organization. But that's 8 irrelevant. It's a speech by the president 9 of RJ Reynolds, and in that regard, I don't know how people make a briefing unless they 10 11 talk about something. Maybe they use sign 12 language; I'm not sure. 13 MR. WAGNER: If this was a 14 document, Your Honor, that was a published speech of some kind and we didn't know to

whom it was given, and we didn't know who 17 wrote it, and some of the other things 18 Mr. Ohlemeyer has already pointed out that 19 might elucidate some of these issues, but on its face this document would just be a 21 mystery. The jury would have to speculate about what this document is all about, who 22 23 said what to whom and all that. And besides that, there is nothing in 24 25 it that's any kind of admission of any kind. KREIDER-REDIRECT I mean, it's a poor hearsay document, 1 doesn't have any relevancy to this case. MR. MOTLEY: Judge, the document is not hearsay if it's an admission against interest. I don't know where these guys get 5 these hearsay objections, but it was 6 7 produced from the Tobacco Institute files, 8 it's a business record, it's stipulated 9 authentic, and it's an 801(d) admission, if by nobody else but Mr. Johnston, 10 11 Mr. Wagner's client, and by the Tobacco 12 Institute. I'm sorry, Your Honor, I didn't 13 mean --14 THE COURT: Is there a stipulation that it's authentic from the Tobacco 15 16 Institute? MR. MOTLEY: Yes, sir, Your Honor, 17 18 I'll get you that. And if they want to deny 19 that, then I'll bring that in. MR. OHLEMEYER: No, Your Honor, I 20 21 don't think there's a dispute that it came from the files of the Tobacco Institute. 22 That doesn't make it relevant until we know 2.3 24 who Bob is and Sam is --THE COURT: I know. 25 KREIDER-REDIRECT 2603 1 MR. OHLEMEYER: -- and why this was said and when it was said and whether any of that has any relevance to the issues this 3 jury has to decide. 4 And, quite frankly, if there's anything 5 6 about the Veteran's Administration that has 7 to do with this lawsuit, it ought to come 8 from either the Veteran's Administration 9 files or from somebody connected to the 10 Veteran's Administration. 11 MR. MOTLEY: Judge, that TI stamp 12 that you see on the front --13 THE COURT: I see it. 14 MR. MOTLEY: That is the pagination 15 number by court orders that they have to 16 place which files, defendants' files, it 17 comes from and that's the accession number, and that's what that means. For them to 18 19 stand up here and deny that that's 20 authentic --21 MR. OHLEMEYER: I did not, Your 22 Honor. 23 THE COURT: No, he didn't deny it 24 was authentic.

Tobacco Institute in this case. I'll do it 8 sometime at the Court's convenience. 9 Because they've produced it. We've taken 10 depositions about this document. I don't know that anybody ever asked who Bob was or 11 12 who Sam was. 13 I happen to know from the time period 14 that Mr. Kloepfer was the vice president, Mr. Chilcoate was an officer, and they were 15 16 both Tobacco Institute people. 17 I'm at a disadvantage in regard to that right now, Your Honor. I'll try to bring 19 in -- but I'd like to go ahead and take the deposition. I can give you, Judge -- here 20 is a document, the minutes of the Tobacco 21 22 Institute identifies -- may I approach? I'm 23 sorry. 24 THE COURT: Sure. 25 MR. MOTLEY: Mr. Chilcoate is the KREIDER-REDIRECT president -- Sam Chilcoate is the president 1 of the organization. I've already -- I'm 3 sorry. I don't mean to get this close. I've already introduced documents of Robert 4 Kloepfer. You've already admitted documents that show Mr. Bob Kloepfer was the vice 6 president, and here's a report of Samuel 7 Chilcoate, Your Honor, president of the 8 9 Institute, just two years after this 10 document is dated, if I might show this to 11 you. And you've already introduced, Judge, 12 that Mr. Kloepfer was the vice president during that period of time. 13 Judge, I can run, go take a deposition. 14 15 I'd be delighted to get one more shot at 16 these guys at the Tobacco Institute. It was liberated in Minnesota this week. If that's 17 18 what you want me to do, I'll go do that, but 19 I think we've got enough in the record, 20 Judge, as to who Mr. Chilcoate and who 21 Mr. Kloepfer is. THE COURT: The next time we break, 22 23 if your attorneys over there want to show me 24 where it is in the record that I can 25 determine who these people are, I will take KREIDER-REDIRECT 2608 1 a look at that. But --MR. MOTLEY: Yes, Your Honor. THE COURT: It won't be admitted yet. 33608 not admitted at this time. MR. MOTLEY: I take it that I've 5 got a chance to bring it back up again 7 despite what they said that you denied it 8 before? 9 THE COURT: Absolutely. MR. MOTLEY: Thank you. 10 THE COURT: Let's take five 11 12 minutes, Counsel, and we'll bring the jury 13 back. 14 (A brief recess was taken.) MR. CASSELL: All rise. 15

```
16
               (Jury present)
17
                  THE COURT: Be seated. The jury is
18
          back. Mr. Motley, would you call your next.
19
          Or Mr. Cross.
                  MR. CROSS: Thank you, Your Honor.
21
        At this time plaintiffs would call Mattie
22
          Blevins, and while she's coming to the
23
          courtroom, Judge, we have one very brief
24
          housekeeping matter.
25
               Most of these employees or former
                     KREIDER-REDIRECT
          employees of the Veteran's Administration
 1
          have been brought here by subpoena, either
          by the plaintiffs or the defendants or both,
          in most cases, and we have agreed that those
          who have testified thus far do not need to
 5
 6
         be called back and would like to release
 7
          them from the subpoena. And with the
          Court's permission, we would like to tell
9
          them that.
                   THE COURT: Counsel?
10
11
                   MR. WAGNER: We have no objection.
12
                   THE COURT: All right.
13
                   MR. CROSS: Thank you.
14
                   THE COURT: Would you raise your
          right hand.
                   THE WITNESS: Yes, sir.
16
       PLAINTIFFS' WITNESS, MATTIE BLEVINS, SWORN
17
                   THE COURT: Have a seat right
18
19
          there, please. Would you tell this jury
20
          your name.
21
                  THE WITNESS: My name is Mattie
2.2
          Blevins.
                   THE COURT: Spell your last name.
2.3
                   THE WITNESS: B-L-E-V-I-N-S.
24
                   THE COURT: Thank you.
25
                       BLEVINS-DIRECT
                                                2610
1
               Mr. Cross.
                   MR. CROSS: Thank you, Your Honor.
 3 DIRECT EXAMINATION
 4 BY MR. CROSS:
      Q Mrs. Blevins, just because there's been some
 5
 6
          confusion on the part of my office, could
 7
          you spell your first name for the court
8
         reporter as well.
9
     A Yes. It's M-A-T-T-I-E.
10
     Q Where do you live, ma'am?
     A I live in [DELETED].
11
     Q What is your address?
12
13
     A [DELETED].
14
     Q Is that a county road?
15
     A Yes, it is. [DELETED].
16
     Q Are you employed at this time, ma'am?
17
     A No, I am not.
      Q Are you retired from some employment?
18
      A Yes. I'm retired from the VA.
19
20
     Q And could you look at this jury when you're
21
         giving your answer?
22
     A Yes, I would.
23
     Q Because I already know what you're going to
24
         say. At least I hope I do.
```

25		When did you retire from the VA? BLEVINS-DIRECT
		2611
1	A	I retired from the VA in June of '94.
2	Q	And how many years did you work at the VA?
3	A	27 years.
4	Q	So would that be, if my math is right,
5	-	that's something around 1967 or thereabouts?
6	A	That's correct. 1967, July 1967.
7	Q	Great. Now, could you tell us, did you work
8 9		for the VA continuously through that time
10	A	period?
11	A	Yes, I worked for the VA during all that time. Most of the time I worked in building
12		management.
13	Q	Let's just go back to the beginning, if you
14	Q	would kind of briefly relate the different
15		jobs and places you worked for the Veteran's
16		Administration during your 27-year career
17		there.
18	А	Okay. When I hired in in July, I worked
19		approximately, just give you approximate
20		dates, about six months in the laundry. I
21		went from the laundry into housekeeping.
22		Both these services were under building
23		management. That's what our service was
24		called.
25		Then from there I went to medical
		BLEVINS-DIRECT
		2612
1		administration, and I worked approximately
2		two years in medical administration. And
3		then from there I went as a supervisor for
4		about 23 years for housekeeping. My title
5	0	was housekeeping aide foreman.
6 7	Q	Housekeeping, I'm sorry?
_	A	Housekeeping aide foreman.
8 9	Q	Okay. And would that I take it you had people who worked under you then?
10	А	Yes, sir. I had sometimes I had 15,
11	А	times I had 30. It depended, if I was
12		pulling relief for another supervisor or if
13		I was just supervising my crew alone.
14	Q	And what did the 15 to 30 people that worked
15	~	under you do?
16	A	Well, we did various tasks. We were
17		responsible for keeping the hospital
18		sanitary. We were responsible for sweeping,
19		mopping, washing walls, washing ceilings,
20		cleaning restrooms, anything else that you
21		could imagine, just to keep the hospital
22		able to pass accreditation.
23	Q	And did you perform this function throughout
24		the 23 years you were in the housekeeping
25		department?
		BLEVINS-DIRECT
1	73.	2613
1 2	A	Yes, sir. Now, might I also ask that during that same
3	Q	23-year period, did you have occasion to go
4		to all areas of the hospital or were there
5		areas you would not go to?
6	A	Yes, sir, I went all over the hospital.
		_

That's the reason I said I supervised more 8 than 15 sometimes, because when I worked 9 weekends there was a supervisor who had to 10 fill in for me. And then when he worked weekends, I had to fill in for him, so I was 11 12 over all of the hospital every day. Q And did you yourself personally ever get 13 14 involved in the actual physical labor of the 15 housekeeping? 16 A Yes, sir, I was a housekeeping aide, like I said, when I left the laundry. I went to 17 housekeeping and worked approximately two 19 years. And I did anything and everything 20 that there was for a housekeeper to do. 21 How about after you became a supervisor? 22 A My main focus there was to attendance, 23 disciplinary action, training, and I had to 24 make sure that everyone knew the proper 25 procedures that were expected of them. BLEVINS-DIRECT And did you -- when you were a supervisor, 1 did you have opportunities then to still 3 continue to go out into the various buildings around the complex? 4 A Yes, sir. That was my job, was to make sure that each person was doing what they were 6 7 supposed to be doing, what they were trained 8 to do, making sure that the ward that they 9 worked on was kept sanitary and clean. I 10 did on-the-job inspections every day; just a 11 walk-through inspection. Q During this time which you were a 12 housekeeping aide, and then subsequently 13 housekeeping aide foreman, did you become 14 15 familiar with Building 16? 16 A Yes. I had to pull relief on Building 16 as 17 the housekeeping foreman, and I did go 18 through that building five days out of the 19 week. Whether it was Saturday through 20 Wednesday or whether it was Monday through 21 Friday, I was always through that building. Q Now, during this -- during your years at the 22 23 Veteran's Administration, up until the time 24 that, let's say up and through the late 25 '80s, would you have had occasion to observe BLEVINS-DIRECT 2615 the presence of cigarette smoke in the 1 buildings where the patients were 3 hospitalized? 4 A Yes, sir. I saw --5 Q I'm sorry. Go ahead. 6 A I saw cigarette smoke every day until 7 finally it was banned from smoking in the 8 hospital itself. No matter where you went in the hospital, it was smoke. And more in 9 the day rooms. The day rooms were kind of 10 11 like what we would call maybe a family room 12 at home. That's where the patients were to 13 be most of the day, to smoke, to watch TV. 14 They came and got them there for these other

activities they went to, the nursing people

15

would come get them. And that was just their, the living room, family room. It was 17 18 bad. I mean, it was bad in there. 19 Q How would the presence of cigarette smoke in the quantities you've described affect your 20 21 job in the housekeeping department? A Well, it made it more difficult to clean 22 23 because when we had to clean, sometimes we 24 used the Johnson's product to wash the 25 walls, and it was a good product, but BLEVINS-DIRECT sometimes it just wouldn't cut what was on 1 the walls and what was on the ceilings, what was on the furniture. We had like Naugahyde 4 furniture, and it wouldn't take it off sometimes. So we had to go to other means, 5 sometimes, like I know that I have mixed a 6 7 floor stripper with water in order to cut it 8 off and then rinse it so that it was 9 presentable so that it was clean again. It 10 was just so much nicotine on there you just 11 couldn't imagine. Just couldn't imagine. Q Were you accustomed to using this floor 12 stripper for the entire time that you 13 14 described in the housekeeping department until cigarettes were banned eventually? 15 A For certain jobs, yes, sir. Like when the 16 17 floor that we were using wouldn't cut, we 18 would have to go get something else to take 19 it off. And then wash it again and rinse it 20 again. Q Did this increase -- well, strike that. 21 Were these extra measures you took, 22 were they successful in getting the nicotine 23 24 off of the ceiling tiles, for example? A Yes. It took it off the ceiling tile. Back 25 BLEVINS-DIRECT 2617 1 in those days, when I was a housekeeper and I did the work myself, the ceilings in the day rooms and most of the hallways were 3 metal, like a 12-by-24 inch long metal 4 acoustic ceiling that went up in there. And 5 6 after we would wash it with the stripper, 7 then we would rinse it off. And then like 8 engineering, if they were going to come over 9 and paint after that, then they would put a coating on it so that the other nicotine 10 11 that was left behind wouldn't bleed through 12 and then they would paint the surface 13 itself, yes. 14 Q You personally observed these measures being 15 taken? 16 A I've done these measures myself. 17 Q Thank you. And just so that we're clear on this record, Mrs. Blevins, these conditions 18 19 that you described and these cleaning 20 measures you've described, they took place 21 in Building 16 in addition to other possible 22 places in the hospital; correct? 23 A Yes, sir. That's correct. 24 Q And did you actually perform these services

Q

the whole front side, including Building 16.

What do you mean by the whole front side?

7	A	Well, there was Building 138, which was four
8		stories high and a basement; the next
9		building down was 124, which was three
10		stories high; the next building was 15, and
11		it was two stories; the next building was 16
12		and it had three stories; and the next
13		building was 17 and it had two stories. So
14		when I say the whole front side, that whole
15		line of buildings that was down through
16		there. Just like down a street, a whole
17		block, it was my responsibility for several
18		years.
19	0	And so you're a supervisor in 138, that's
20	~	your primary assignment?
21	А	That's when I first started as supervisor,
22	А	yes, sir.
23	0	-
	Q	Then you have to pull relief on the front
24		side?
25	A	That's correct.
		BLEVINS-CROSS
		2621
1	Q	And would that be on each floor in each of
2		those buildings?
3	A	Yes, sir, that's right.
4	0	How much of that hospital was there when you
5	×	got there in '67?
6	А	All of it except the new building.
7		
	Q	What's the new building?
8	A	I don't even know the number of it. I don't
9		go back out there very often, but there is a
10		new building.
11	Q	Do you know how long those buildings that
12		you've told us about had been there before
13		you got there?
14	A	Well, it was established in '76, 1876.
15	Q	1876?
16	A	Uh-huh.
17	0	Do you know if some of those buildings were
18	~	that old?
19	A	Some of the buildings were real old but they
20	11	were still all occupied.
21	0	You mentioned the word "accreditation."
	Q	
22	A	Accreditation, JCAH.
23	Q	What's that?
24	A	It's when the hospital has to meet standards
25		to be able to receive monies to help the
		BLEVINS-CROSS
		2622
1		hospital run.
2	Q	Who determines whether the hospital meets
3		those standards?
4	А	Someone from Washington came in and made
5		inspections periodically, like every two
6		years.
7	\circ	Did you ever meet with those people?
	Q 7	
8	A	No, I did not.
9	Q	Do you know I'm sorry, you said every two
10	_	years?
11	A	Uh-huh. You're accredited every two years,
12		yes.
13		MR. OHLEMEYER: That's all I have
14		Your Honor. Thank you.
15		THE COURT: Mr. Furr.

```
MR. FURR: Thank you, Your Honor.
17 CROSS EXAMINATION
18 BY MR. FURR:
    Q Hi, Mrs. Blevins, my name is Jeff Furr. I
          have a few questions.
2.1
      A Yes, sir.
      Q You mentioned the painting of the ceilings
22
23
          in Building 16?
24
      A Yes.
25
     Q During the years that you were a supervisor,
                      BLEVINS-CROSS
          how often were those ceilings painted?
 1
 2.
      A Not too often.
 3
          Every couple years?
      A No. Probably not even that often.
 5
      Q Okay.
 6
      A But we washed them more often than that.
 7
     Q How often did you wash them?
8
     A We tried to every year, to wash them. We
9
          tried to strip the walls and everything
          every year. And then if something was more
10
          used, more deteriorated, we tried to work on
11
12
          that more. As, you know, like your
13
          restrooms and things, you couldn't go a year
14
          without washing those down and cleaning
15
          them.
     Q Were there also some ceilings that you
16
17
          didn't get to every year?
18
     A Yes, sir, I'm sure there is.
     Q Do you recall whether the ceilings in the
19
20
         day room on 16A were cleaned every year?
     A No, sir. They weren't cleaned in the latter
21
          years. I'm talking about the last 20 years,
          they weren't cleaned every year, because
2.3
24
          they went to this kind of tile, acoustical
25
          board tile.
                       BLEVINS-CROSS
                                                2624
 1
      Q The ceiling in 16A was 12-foot tall, wasn't
      A Yes. We had to use ladders to get into it.
 3
                  MR. FURR: Thank you. That's all I
 4
 5
                   THE COURT: Redirect, Mr. Cross.
                   MR. CROSS: Very brief, Your Honor.
8 REDIRECT EXAMINATION
9 BY MR. CROSS:
10
      Q Mrs. Blevins, can you tell this jury when
11
          you met me for the first time?
12
          When did I meet you for the first time?
13
          Today.
14
      Q And can you tell this jury approximately, we
15
          did, in fact, meet briefly before we came
16
          over here for your examination today; did we
17
          not?
     A Yes, sir.
18
     Q Can you tell the jury how long you and I
19
20
          talked about what you would be testifying to
21
         here today?
22
     A Two minutes maybe.
23
                  MR. CROSS: Thank you. No further
24
          questions.
```

```
25
                   MR. OHLEMEYER: Nothing, Your
                     BLEVINS-REDIRECT

          Honor.
                   MR. FURR: Nothing, Your Honor.
                   THE COURT: Ma'am, the lawyers tell
 3
         me you will not be recalled as a witness, so
 4
          you are excused from your subpoena. You may
 6
          step down.
 7
                   THE WITNESS: Thank you very much.
                   THE COURT: Thank you. Call your
 8
9
          next.
10
                  MR. CROSS: Plaintiffs would call
11
          Reverend Donald Kochanek.
                  THE COURT: Good afternoon. Would
12
13
         you raise your right hand.
14
       PLAINTIFFS' WITNESS, DONALD KOCHANEK, SWORN
15
                   THE COURT: Have a seat right
          there, sir. You might pull that up just a
          little bit. Thank you. Well, whatever.
17
          Tell the jury your name.
18
                   THE WITNESS: Donald R. Kochanek.
19
20
                   THE COURT: Spell your last name.
21
                   THE WITNESS: K-O-C-H-A-N-E-K,
22
          Polish.
23
                   THE COURT: Go ahead, Counselor.
                   MR. CROSS: Thank you, sir.
2.4
25 DIRECT EXAMINATION
                      KOCHANEK-DIRECT
                                                 2626
1 BY MR. CROSS:
 2
     Q Mr. Kochanek, you have a title; do you not?
 3
      A Chaplain.
      Q You refer to yourself as chaplain?
      A Yes. I'm also an Army chaplain and VA
 5
          chaplain.
 6
 7
      Q What's the difference between a chaplain and
8
          a reverend?
9
      A Same.
10
     Q Okay. So if I call you reverend, will you
11
         not be offended?
12
     A I'll answer you.
     Q All right. Good deal.
13
   wnere do you li
A I live in [DELETED].
Q What's you
               Where do you live, sir?
14
15
16
     A [DELETED].
17
18
     Q And is that in the county or is that in town
19
         or where is that?
     A It's about a mile out of town, in the county
20
21
          of [DELETED].
22
     Q I'm going to ask you to look at this jury
23
          when you're giving your answers because I do
24
          know the answers to some of those questions,
25
          but I'd like for them to know the answers
                      KOCHANEK-DIRECT
                                                 2627
 1
          too.
               Mr. Kochanek -- Reverend Kochanek, are
 3
          you an Army veteran?
     A Yes, I am an Army veteran of two wars,
          Korean War and Vietnam War.
      Q When did you serve in the Army?
```

7	A	I served in the Army from '67 to '75 as
8		active duty, and then I was in reserves and
9		retired from the reserves. I was a
10		lieutenant colonel.
11	Q	And whereabouts did you serve?
12	A	I served in Vietnam, Okinawa, Germany, and
13	А	all over the United States.
14	Q	Can you tell the jury a little bit about the
15	Q	
_		kind of things you did while you served in
16	7	our nation's military?
17	A	As a chaplain, regular services like a
18		pastor, counseling services. I usually work
19		with basic trainees, so I was at Fort Ord,
20		California, for three years where I had a
21		lot the lectures to give them. They had
22		four lectures to they had on, it was
23		human basic training for eight years,
24		preparing eight years eight weeks
25		preparing for, to go over to Vietnam.
		KOCHANEK-DIRECT
		2628
1	Q	Okay. And might I ask you what denomination
2		you are a chaplain in?
3	A	I'm Baptist, General Baptist. General
4		Associate Regular Baptist.
5	Q	I'm not familiar with the different
6	×	denominations.
7	А	There are many different kinds of baptists,
8	Λ.	Southern Baptist, there's Independent
9		
		Baptist, there's Decedent Spirit Baptist.
10		You name them, there are just all kinds of
11		Baptists, and General Baptist is what I
12		was endorsed for the military by the General
13		Baptists.
14	Q	All right. Subsequent when did you
15		are you still in the reserves?
16	А	No. I retired from the reserves in June of
17		'92.
18	Q	Okay. So let me go back a step. Are you a
19		family man?
20	A	Yes, I have raised five children. I'm
21		married, raised five children.
22	Q	Have grandchildren?
23	A	Yes. I have 12 grandchildren.
24	Q	Do you have any regular employment at this
25	~	particular time?
		KOCHANEK-DIRECT
		2629
1	А	I'm retired from the VA; however, I am on a
2	А	fee basis. That means when one of the
3		chaplains takes off on vacation or someone
4	•	gets sick, I fill in for them.
5	Q	I believe you stated you're retired from VA
6		now?
7	A	Yes, I retired from VA in January of 1992.
8	Q	So that presupposes there was a period of
9		time where you worked on a regular basis at
10		the VA.
11	A	That is correct.
12	Q	When did you begin that employment?
13	A	I started in 1980 and worked retired in
14		1992.
15	Q	Do you know Mildred Wiley?
	~	- -

Yes, I did. 17 Q And did you know her during that period of 1980 to 1991, say, when she died? Did you 18 19 know her during that entire time? A I knew her for about -- during about seven 20 21 years, from -- got to know her pretty well, about '87 to '92. 22 23 All right. Now, tell the jury, if you 24 would, what kind of employment activities 25 you had during that 12 years you were at the KOCHANEK-DIRECT 1 VA Hospital. 2 Okay. Ordinarily the chaplain's main duty was to be seen by the patients, and we would 3 visit all of the different buildings where patients were located. We also held chapel 5 services. We held services on the buildings 6 7 themselves on different days. We also had 8 lectures. And we also did counseling. And 9 we also, since it was a national cemetery in Marion, we also had a lot of times we'd have 10 11 burials, too, that we'd have. If the family 12 did not have a minister, we would conduct 13 the service; whatever they asked for, we 14 would take care of it. What parts of the hospital did your work 15 16 take you to during this time? A All different parts, actually, during my 12 17 18 years. Q Were there particular buildings in the 19 20 hospital that you might have worked in --21 A Yes. Q -- more than others? 22 A In about 1987, I think it was about 1987 to 23 1992 I asked if I could work primarily in 24 the medical buildings, 138, and then also I 25 KOCHANEK-DIRECT 2631 1 was given Building 15B, B meaning the second floor, 16A, B, and C, and 17B, and then I had the psych building, suicidal, assaultive 3 patients, Building 4. 4 5 Why did you ask for those responsibilities? 6 I asked for the medical building because I 7 thought it would be better to have one 8 chaplain all the time visiting that medical 9 building where the patients were getting 10 better in their care, someone they would get 11 to know. And that's why I asked for the 12 medical building. 13 Q How many years did you have occasion to 14 frequent Building 16 on a regular basis? 15 A At least seven years, seven years or more, 16 17 Q And was this the same seven years that you got to know Mrs. Wiley? 18 19 Yes, that's correct. Q Can you tell this jury what you observed 20 21 about her and her person and her character. 22 A Yes, she was an excellent nurse. She took 23 her job very seriously. She was a hard 24 worker. She usually, even a lot of times,

```
25
           even though there was nurse's aides, nurses
                      KOCHANEK-DIRECT
                                                  2632
           there, she always did her share. She was
           out working all the time. A lot of times
 3
           even she would say, I'll go check on patient
           so and so, and she did so.
 4
 5
          Let me go back to a question I omitted from
           back in the days of your military service.
 6
 7
           And in particular, in the '60s and early
 8
           '70s, did you have occasion to observe
 9
           whether or not the servicemen who you would
10
           counsel as a chaplain would obtain free
11
           cigarettes from any source?
12
                   MR. OHLEMEYER: Objection, Your
13
           Honor, relevance.
14
                   MR. WAGNER: Objection.
15
                   MR. CROSS: Your Honor, it's the
16
           basis for the entire fact that all these
17
           veterans had a smoking habit.
                   THE COURT: Objection sustained.
18
                   MR. CROSS: Question withdrawn.
19
20
           We'll move on.
21
          What was the -- did you have occasion to
22
           observe the presence of smoking, smoking,
23
           cigarette smoke in the wards where you
24
           chaplained at the VA Hospital?
          Yes, very much so.
25
      A
                       KOCHANEK-DIRECT
                                                  2633
 1
          And could you describe for this jury what
          the condition of the smoke was on Building
 2.
           16?
 3
                   MR. WAGNER: Isn't this cumulative
           at this point?
 5
                    THE COURT: I'll allow him to
           answer that question, but we have heard
 7
           several witnesses on this. But you can
 8
 9
           answer that question.
10
      A Yes, there was smoking on 16A. Usually they
11
           had the patients, since these patients were
12
           total care, they were usually in geri,
           called geriatric chairs. They're larger
13
           than a regular wheelchair. They'd fold
14
15
          down. And usually these patients were total
16
          care, and even some of them had to hold the
17
          cigarette in their mouth for them to smoke,
18
           had to watch them pretty closely, that they
19
          didn't burn themselves. Some even had burn
20
          marks, you know, on their clothing.
21
      Q
          You observed that yourself.
22
      A Oh, yes.
23
           Did you -- was there any physical -- did you
24
           observe any physical, any physical
25
           observations as to the -- on the walls or
                      KOCHANEK-DIRECT
 1
           the ceilings as to the presence of cigarette
 2
           smoke?
 3
           Especially the ceiling. They were usually
           brown. And they used to change the tile
 5
           every so often.
          You did see that.
```

7	А	Yes.
8	Q	Okay. What kind of ventilation did you
9	Q	observe in Building 16 during the years you
10		worked there?
11	А	I don't really remember that, as far as the
12	Α	ventilation goes. I don't remember if they
13		had any fan in the window or not. I think
14		the windows were usually closed most of the
15		time.
16	Q	I'm sorry. Were you finished?
17	Q A	Yes.
18	Q	Okay. During this 12-year period that you
19	Q	worked in there, do you recall any measures
20		that may have been taken that might have
21		dissipated the smoke at all? If there were
22		fans, for example, were they working?
23	А	Well, I just went back to check. I see they
24	Α	had a fan in there now, in one of the
25		windows. But they did bring smoking eaters
23		KOCHANEK-DIRECT
		ROCHANER-DIRECT
1		in later on.
2	Q	Did those work?
3	Q A	Not very well. You could hear them snapping
4	А	and make noise and things, but they didn't
5		really take all the smoke out.
6	Q	Okay. Now, during the time are you
7	Q	familiar with the fact that Mrs. Wiley
8		became a head nurse and was given an office
9		of her own in that building?
10	А	Yes.
11		Did you observe her as she conducted her
12	Q	duties as head nurse in those years?
13	А	Yes, I did observe her, yes.
14	Q	Did Mrs. Wiley stay in her office with the
15	Q	door closed or did she do other things?
16	А	Ordinarily, if her door was closed, she was
17	Α	talking to an aide or a nurse or someone
18		else.
19	Q	Did that happen very often?
20	A	No, it did not. Her door usually was always
21	Α	open.
22	Q	Even when she was in there?
23	A	Yes, that's correct.
24	Q	And was there anyplace in that building that
25	×	the smoke did not reach?
23		KOCHANEK-DIRECT
		2636
1	А	It's a possibility that way down on the east
2		side, way, way down the hall, you know, at
3		the other end, maybe so. I don't know about
4		that.
5	Q	But for the most part, everywhere you
6	~	observed in Building 16, the smoke was
7		there.
8		MR. WAGNER: Leading and
9		suggestive, Your Honor.
10		THE COURT: Leading. Sustained.
11	Q	Other than way down on the east side, can
12	~	you think of any other place where the smoke
13		did not reach?
14	A	No, I cannot.
15	Q	And how thick was the smoke on the first

```
floor of Building 16?
17
                  MR. OHLEMEYER: Objection, Your
18
         Honor, lack of foundation as to time.
19
     Q At anytime during the years you worked
20
         there.
     A It was smoke. I know that. Very much so.
21
          And I don't know. The area where they
22
23
          smoked was right across from the nurse's
          station, and it was a small area. It wasn't
24
25
          very large. I would say it was about 20 by
                      KOCHANEK-DIRECT
          about 10 deep, something like that. And
 1
          usually there may be about 12 guys in there,
          usually in geri chairs. Most of them are
 3
          geri chairs.
          Thank you. Are you a smoker, Reverend?
 5
     A No, I'm not. No, I'm not.
 6
     Q For my last question Reverend Kochanek, this
 7
8
          question has been passed to me by my
9
          co-counsel. He wants me to ask you if a
10
          General Baptist is the same as a Southern
11
          Baptist.
     A No, it is not.
12
13
                   MR. CROSS: Thank you.
14
                  MR. OHLEMEYER: No questions, Your
15
          Honor. Thank you, Reverend.
                  THE COURT: Mr. Wagner, any
16
17
          questions?
18
                   MR. WAGNER: No questions.
19
                   THE COURT: Thank you, sir. Call
20
          your next.
21
                  MR. CROSS: May Reverend Kochanek
22
          be released?
                   THE COURT: You don't intend to
23
24
          recall?
                   MR. OHLEMEYER: We haven't
25
                     KOCHANEK-DIRECT
                                                2638
 1
          subpoenaed him.
                  MR. WAGNER: We haven't subpoenaed
          him, Your Honor. Apparently the plaintiffs
 3
          subpoenaed him, not us.
 4
 5
                  THE COURT: You are released from
 6
          your subpoena.
 7
                   THE WITNESS: Thank you.
8
                   THE COURT: Thank you.
9
                  MR. MOTLEY: Dr. David Burns, Your
10
          Honor.
11
                  THE COURT: All right. Would you
12
          raise your right hand.
13 PLAINTIFFS' WITNESS, MICHAEL BURNS, M.D., SWORN
14
                  THE COURT: Would you have a seat,
15
          please. Would you tell this jury your name.
16
                  THE WITNESS: My name is David
17
          Michael Burns.
18
                  THE COURT: Spell your last name
19
          for the record.
20
                   THE WITNESS: B-U-R-N-S.
21 DIRECT EXAMINATION
22 BY MR. MOTLEY:
23 Q Doctor, I hope you're feeling better today.
     A Well, I'm about 90 percent, but I appreciate
```

٥٢		that Mhanla
25		that. Thank you. BURNS, M.DDIRECT
		2639
1	0	You've been with us for a while
2	~	unfortunately, haven't you?
3	A	Well, part of that was my own doing, I
4		guess.
5	Q	And where did you come here from?
6	A	From San Diego, or, actually I came from
7		Japan, but I live in [DELETED].
8	Q	What were you doing in Japan?
9	A	I was speaking at an international conference on mechanical ventilation.
10 11	Q	On ventilation for buildings?
12	Q A	No. No. It's breathing for people in
13		intensive care units. Machines that breathe
14		for people.
15	Q	You were born May 6, 1947?
16	А	Yes, sir, I was.
17	Q	And you and I have accents. The jury
18		already knows where mine comes from. What
19		about yours?
20	A	Well, most of mine comes from growing up in
21		Boston, Brookline, Jamaica Plain, which are
22	0	suburbs of the city of Boston.
23 24	Q	You are married? I am.
25	A O	You have children?
23	Q	BURNS, M.DDIRECT
		2640
1	A	I have one child, a 13-year-old boy.
2	Q	You went to Boston College in Massachusetts
3		and got a B.S. degree in biology in 1968; is
4		that correct?
5	Α	That's right.
6	Q	You went to Dartmouth Medical School in New
7		Hampshire and received a BMS in medicine in
8	-	1970?
9	A	That's right.
10 11	Q A	What is a BMS? That's a Bachelor of Medical Science.
12	O O	And what is that?
13	A	The first two years of medical school are
14		basic science years. They are anatomy,
15		physiology, molecular biology, chemistry,
16		different topics that are largely taught in
17		the classroom. So I took the first two
18		years at Dartmouth. At the end of that
19		period of time, they gave us what was
20		referred to as a Bachelor of Medical
21		Science.
22	Q	And then you received your medical degree in
23 24	А	1972 from what medical school, sir? I graduated from Harvard Medical School with
25	A	my doctorate in 1972.
23		BURNS, M.DDIRECT
		2641
1	Q	And that, of course, is in Boston?
2	A	Yes. It is.
3	Q	And your current position is what?
4	A	I'm Professor of Medicine at the University
5		of California School of Medicine in the
6		Division of Pulmonary and Critical Care

7		Medicine.
8	Q	And are you what's known as a full professor
9	~	of medicine?
10	A	That's correct.
11	Q	And how long have you been in teaching in
12	~	medical schools, Dr. Burns?
13	А	I've been teaching in medical schools, well,
14		largely since graduating from medical
15		school, but I've been on the faculty as UCSD
16		since 1979.
17	Q	19 what?
18	A	'79.
19	Q	You're the coordinator of the Developmental
20		Pulmonary Clinical Research Lab?
21	A	That's correct.
22	Q	So that no one knows this is a mystery, I
23		have your resume here, don't I?
24	A	Yes, you do.
25	Q	Okay.
		BURNS, M.DDIRECT
		2642
1		MR. MOTLEY: In the interest of
2		time, Your Honor, on these non-controversial
3		questions, if I can just ask him about that,
4		save us some time?
5		MR. OHLEMEYER: No objection.
6	Q	What is the Developmental Pulmonary Research
7		Clinical Laboratory?
8	A	Well, a lot of the newer testing modalities
9		for patients in the hospital have to be
10		evaluated. We do evaluations of equipment
11		that the manufacturers bring in for us to
12		assess whether they actually do what they
13		say they do. And we also work with
14		manufacturers to help them develop new and
15		better equipment to help take care of
16		patients in intensive care units and other
17		environments.
18	Q	Doctor, you are a critical care and lung
19		specialist; is that correct?
20	A	That's correct.
21	Q	Does that include cancer in what you do?
22	A	It most certainly does.
23	Q	And you are also the medical director of
24	73	respiratory therapy.
25	A	That's right.
		BURNS, M.DDIRECT 2643
1	0	Explain that, please, what is respiratory
2	Q	therapy?
3	А	Respiratory therapy is the care of the
4	A	respiratory system in a hospital. By and
5		large the bulk of that care, it revolves
6		around delivery of artificial ventilation
7		with machines. The rest of the care is
8		related to delivery medicines that open up
9		the airways, help people breathe and help
10		people clear secretions and also deliver
11		oxygen to people.
12		I'm responsible for the overseeing of
13		the care that is provided throughout the
14		institution for those modalities of care.
15		MR. MOTLEY: Your Honor, may I give

16 the witness this? THE COURT: Go ahead. 17 18 THE WITNESS: Thank you. 19 Q Is the University of California at San Diego part of the University of California 20 21 educational system, sir? A Yes, it is. It's one of the five medical 22 23 schools in the University of California 24 system. 25 Q And what courses do you teach at the medical BURNS, M.D.-DIRECT 2644 1 school? 2 I teach critical care medicine, I teach 3 respiratory physiology, physiology. I also 4 teach the diagnosis and management of 5 pulmonary illnesses, and I instruct the 6 second year class in cessation from 7 cigarette smoking. 8 Q Doctor, you're the second medical doctor 9 who's testified, I believe. And so the other one was a pathologist, Dr. Roggli. If 10 11 memory serves me correctly, Dr. Roggli 12 looked -- told us he looked threw 13 microscopes and things like that. Are you a 14 doctor who actually takes care of patients 15 and listens to their chest and takes histories from them? 16 17 A Yes, I am. Q And how long have you been doing that? 18 19 A Well, I've been doing that again since 20 before I graduated from medical school. The last two years of medical school are spent 21 in clinical care of patients. And I've been 22 taking care of patients at the University of 23 24 California since I became a fellow there, 25 which was 1976, and it's been part of my BURNS, M.D.-DIRECT 2645 1 responsibilities as a member of the faculty since 1979. Q Doctor, again looking at this, one of the 3 witnesses called it a cheat sheet or, I did 4 5 for them. This is your resume here. You 6 have been a medical officer of the National 7 Clearinghouse for Smoking and Health, the 8 Bureau of Health Education, the Center for 9 Disease Control in Atlanta, Georgia, for two 10 or three years? A That's right. After completing my residency 11 12 on the Harvard Medical Service at Boston City Hospital, I joined the Public Health 13 14 Service and was medical officer for the 15 National Clearinghouse for Smoking and 16 Health. 17 Q And the Center for Disease Control, I think most of the folks on the jury know what that 18 is, but for the record, so we'll have a 19 20 complete record, would you state what the 21 CDC is? 22 A The Center for Disease Conrol is now the 23 Center for Disease Control and Prevention, 24 and it is the agency of the Public Health

25		Service which is responsible for monitoring, BURNS, M.DDIRECT 2646
1		
1	_	evaluating, and preventing disease.
2	Q	As a medical officer for the National
3		Clearinghouse for Smoking and Health from
4		1974 to '76, what did you do?
5	A	There was a number of responsibilities. The
6		principal one was to author the 1975 Report
		- -
7		of the Surgeon General on Smoking and
8		Health.
9	Q	You were actually the author of the Surgeon
10		General's Report on Smoking and Health.
11	A	That's correct.
12	Q	And that was?
13	A	1975. At that time, the report was prepared
14		internally. It was prepared by the medical
15		officers at the National Clearinghouse for
16		Smoking and Health and then was sent out for
17		extensive external review.
18	Q	What was that report of 1975 by the Surgeon
19		General on Smoking and Health called, do you
20		recall?
21	A	There was no special name for it at that
22		time. That was a report that reviewed all
23		the information in the past year in
24		published medical literature on smoking and
25		health, and it had a special individual
		BURNS, M.DDIRECT
		2647
1		
1		chapter on involuntary smoking or exposure
2		to environmental tobacco smoke.
3		
3	Q	Now, Doctor, you have been the author or an
4	Q	Now, Doctor, you have been the author or an editor or contributor to more than one
4	Q	editor or contributor to more than one
4 5		editor or contributor to more than one Surgeon General's report?
4 5 6	Q A	editor or contributor to more than one Surgeon General's report? That's correct. I've been an author, editor
4 5 6 7		editor or contributor to more than one Surgeon General's report? That's correct. I've been an author, editor or senior reviewer for every Surgeon
4 5 6		editor or contributor to more than one Surgeon General's report? That's correct. I've been an author, editor

Smokeless tobacco? That's correct. That's like? Chew. Chew. That's right. Doctor, after you finished being the principal author of the 1975 Surgeon General's Report, did you then take further education? Yes. I spent three years as a pulmonary BURNS, M.DDIRECT 2648 fellow at the University of California San Diego in the pulmonary division, their lung disease division. And are you board certified? First explain
4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25	A Q A Q A Q A Q A Q A	editor or contributor to more than one Surgeon General's report? That's correct. I've been an author, editor or senior reviewer for every Surgeon General's Report since 1975. And how many reports are those? Oh, let me think. '75, '76, '79, '80, '81, '2, '3, '4, '5, '6, '89, '90, '92 and '94, as well as actually one other one that is not traditionally included in that group, which was on smokeless tobacco. Smokeless tobacco? That's correct. That's like? Chew. Chew. Chew. That's right. Doctor, after you finished being the principal author of the 1975 Surgeon General's Report, did you then take further education? Yes. I spent three years as a pulmonary BURNS, M.DDIRECT 2648 fellow at the University of California San Diego in the pulmonary division, their lung disease division.

Board certification is a process of 8 certifying that someone has reached a certain level of experience and training, as 9 10 well as a certain level of knowledge, which requires a completion of a set, prescribed 11 12 set of experiences over a period of time. 13 And then you're allowed to sit for an examination. If you pass the examination, 14 then you are then board certified. I am 15 board certified in internal medicine, in 16 17 pulmonary medicine, and have a certificate 18 of special accomplishment in critical care 19 medicine. 20 Doctor, have you been a consultant to the 21 Office on Smoking and Health from 1979 until 22 presently? 23 A Yes, I have. 24 Q What is the American College of Chest 25 Physicians? BURNS, M.D.-DIRECT 2649 American College of Chest Physicians is a 1 group of physicians who care for diseases 3 within the chest. That includes pulmonary 4 physicians, cardiologists and chest surgeons. And they have a journal, they also have a set of meetings, and an 6 7 educational program that they conduct. Q Have you been on the research advisory board 8 9 for the Institute for the Study of Smoking 10 Behavior and Policy at the John F. Kennedy 11 School of Government at Harvard University? A Yes, I have. 12 Q What is that, sir? 13 A That was an institute set up at the Kennedy 14 15 school to examine the public policy issues 16 surrounding tobacco use, particularly surrounding the issues of trying to examine 17 how governmental actions, taxation, various 18 19 other actions influence the way people start 20 to smoke and whether or not they try to 21 quit. Q Sir, have you been a policy advisory 22 23 committee member for the Community 24 Intervention Trial For Smoking Cessation of 25 the National Cancer Institute? BURNS, M.D.-DIRECT 2650 1 A Yes. And what is the National Cancer Institute? The National Cancer Institute is one of the institutes of the National Institute for 4 5 Health. They are the principal agency that is tasked with investigating research level 7 to the causes and treatment of cancer. 8 Community Trial was a trial in 11 different communities of a community-based, that is an 9 10 effort that was based on the entire community, to see whether they could change 11 12 smoking behavior. They used a variety of 13 different modalities, media, quit 14 information assistance at the physician

level and a variety of other interventions

15

to try and help people build support within 17 the community and also to help people as 18 individuals to quit. 19 Q Have you been a consultant to the Environmental Protection Agency or commonly 20 21 known as EPA? A Yes. 22 23 Q Their indoor air quality advisory committee? 24 A That's correct. 25 Q That was from 1990 to 1991? BURNS, M.D.-DIRECT A That's correct. I was on the science 1 advisory board for -- it's actually went through 1992, I believe, but I was on the 3 4 science advisory board for the, what is referred to as the EPA Report, looked at 5 environmental tobacco smoke. 6 7 Q And I believe that that's Exhibit No. 50154. MR. MOTLEY: Mr. Cassell, might I 8 9 look at that? It's one of those two books -- should be one of those two right 10 11 there. THE WITNESS: Second one. 12 13 MR. MOTLEY: Second one. This one. 14 May I approach, Your Honor? THE COURT: Go ahead. 15 Q It's 50234. Would you hold that up and 16 explain what that is, please, Doctor. 17 18 A This is the report by the Environmental 19 Protection Agency on "The Respiratory Health 20 Effects of Passive Smoking, Lung Cancer and Other Disorders." This is volume, actually, 21 is a printing of that that was reprinted by 22 the National Institute for Health because 23 24 there weren't enough copies to meet the 25 demand printed by the EPA. BURNS, M.D.-DIRECT 2652 1 Is this a copy of the original? A That's a copy of the original. They are essentially the same document. 3 Q And your role in this document, which has 4 5 been admitted into evidence, was what again, 6 sir? 7 A I was on the science advisory board. The document itself was prepared by EPA, went 8 9 through an extensive review internally, went 10 through a science advisory board review, which was a public review. That is, people 11 who were interested in the topic came and 12 13 presented to the science advisory board, 14 went back, was revised again, and again went 15 through the same process a second time. 16 My responsibility was to be on that 17 science advisory board which included about 15 people, I think. And we were asked to 18 evaluate whether the information was correct 19 20 and accurate and provide them advice about 21 how the report should be structured and 22 modified. 23 Q Sir, were you -- what is the U.S. Consumer 24 Safety Product Commission?

25	А	The U.S. Consumer Product Safety Commission BURNS, M.DDIRECT
		2653
1		is that agency of the federal government
2		that is tasked with making sure that the
3		products that we all buy are safe.
4	Q	And were you a member of the U.S. Consumer
5	~	Product Safety Commission on fire-safe
6		cigarettes?
7	А	That's correct. They had a special
8	11	commission that was looking into trying to
9		design, or whether it was possible to design
10		characteristics of a cigarette that would
11		make it fire-safe. That is, that would
12		
		allow a cigarette to fall on a couch, for
13	0	instance, and not set the couch on fire.
14	Q	What is the American Cancer Society, sir?
15	A	The American Cancer Society is a voluntary
16		health agency that is interested in the
17		diagnosis, management, and cure of cancer.
18		It's a voluntary health agency. It collects
19		donations, and uses those donations to
20		provide service in the community as well as
21		to conduct research.
22	Q	Were you the president of the San Diego unit
23		of the American Cancer Society?
24	A	Yes, I was.
25	Q	What is the American Lung Association?
		BURNS, M.DDIRECT
		2654
1	А	The American Lung Association is also a
2		voluntary health agency, similar to the
3		American Cancer Society. And its principal
4		interests are lung disease, including lung
5		cancer and chronic obstructive lung disease.
6	Q	Were you a member of the board of directors
7	×	of the Lung Association of San Diego?
8	A	Yes, I was.
9	Q	Have you served as an expert witness for the
10	Q	Attorney General of the state of Canada?
11	7\	
12	A	Yes, I have. It's actually not a state
	0	but
13	Q	Excuse me. That's true. The nation of
14	-	Canada.
15	A	Yes. I have.
16	Q	And what was that does that have any
17		relationship with what we're talking about
18		here?
19	A	It did. The country of Canada had passed
20		legislation.
21	Q	Just tell us it had to do with cigarettes.
22	A	. 1
23	Q	That's okay. Now, I want to ask you about
24		some awards that you may have received. Did
25		you receive the United States Surgeon
		BURNS, M.DDIRECT
		2655
1		General's medallion?
2	A	Yes, I received the Surgeon General's
2		
3		medallion from Dr. Koop.
4	Q	medallion from Dr. Koop. From Dr. Everett Koop, the gentleman with
	Q	-

```
7
      Q Did you receive the American Lung
 8
          Association Life and Breath, B-R-E-A-T-H,
9
         Award for distinguished community service?
10
     A I did receive the Life and Breath Award.
     Q Doctor, without going through all of these,
11
12
          I want to hand you a seven-page list of
          publications of yours and ask you to confirm
13
14
          that these are all scientific publications
15
          that you've authored.
16
     A Yes. This appears to be an accurate copy of
17
         my CV.
     Q In addition to the Surgeon General's
          Reports, have you authored scientific
19
20
          articles on cigarette smoking and health?
21
      A
          Yes, I have.
22
     Q And do you maintain an interest in that
          currently, sir?
23
     A I certainly do.
2.4
25
     Q In fact, sir, did you serve as a consultant
                     BURNS, M.D.-DIRECT
                                                2656
 1
          to the Koop/Kessler committee?
          I did.
      Α
 3
          Would you explain what the Koop/Kessler
 4
          committee was and when it issued its report?
     A I can't give you the exact date, but it
          issued its report earlier last year.
 6
 7
                  MR. OHLEMEYER: Excuse me, Your
 8
          Honor, may we approach for a minute?
9
              (Bench discussion)
10
               (Discussion off the record)
11
     Q Doctor, without going into the Koop/Kessler
12
         report --
13
     A Right.
      Q -- your involvement was on the science end,
14
15
          I take it?
     A That's correct. I was a scientific
16
          consultant to that group.
17
18
     Q And in the science aspect of that, did you
19
          look into issues such as addiction?
20
     A Yes.
21
      Q The additives in cigarettes?
      A Yes.
22
     Q Of the diseases caused by cigarettes?
23
     A That report didn't specifically deal with
24
25
         diseases, but certainly that's the substrate
                    BURNS, M.D.-DIRECT
                                                2657
1
          on which it was based.
      Q I said Koop/Kessler, not -- for some reason,
          my chart here looks like the Leaning Tower
 4
          of Pisa. And I don't know why I can't --
 5
          but you already told us who Koop was. Who
          is Kessler?
 7
     A Dr. Kessler is currently, I believe, the
 8
          Dean of the Yale Medical School. He was the
          former head of the Food and Drug
9
10
          Administration.
     Q Now, Dr. Burns, as part of your clinical
11
12
         practice, do you, over the years, have you
13
          treated people who had what you believed to
14
          be cigarette-related lung disease?
15
     A Absolutely.
```

Including lung cancer? 16 A Lung cancer and chronic obstructive lung 17 disease are one of the principal sets of 18 19 diseases we see as a pulmonary physician. MR. MOTLEY: Your Honor, could you 20 21 inquire if the jury can hear him? THE COURT: Can you hear the doctor 22 23 all right? 24 You might move just a little closer to 25 the mike. Thank you. BURNS, M.D.-DIRECT 1 MR. MOTLEY: Judge, could I move 2. over this way a little bit? THE COURT: Surely. Not if you'll 3 4 talk loud enough for me to hear, I believe the jury can hear. 5 Dr. Burns, in the course of treating 6 7 patients, do you treat patients for a 8 dependency upon nicotine? 9 Yes, I do. Q What does it mean? What is dependency upon 10 nicotine called? What's the common term for 11 it? 12 A The common term is addiction. 13 14 Q Would you explain what it is in your personal experience you do to try to help 15 people who have a dependency or addiction to 16 17 nicotine. 18 MR. OHLEMEYER: Objection, Your 19 Honor. Relevance. 20 MR. MOTLEY: Your Honor, you've already permitted testimony about this. 21 Goes to the dangerousness of cigarettes. 22 THE COURT: Objection overruled. 23 24 You may answer, Doctor. Α 25 Principally the characteristics of an BURNS, M.D.-DIRECT 2659 1 addiction is that you lose control over, or volitional control over the next use of an agent. You no longer make a free choice 3 4 about whether you continue to use it and 5 that becomes a compelling and compulsive use 6 of that agent even when it causes you 7 injury. 8 What we do is we try to provide people 9 with a variety of different approaches to 10 quit it. One of them is to support them 11 behaviorally, give them some behavioral 12 counseling, teach them some behavioral 13 approaches. 14 We also use a variety of methods by 15 which we replace the nicotine that they've 16 been getting from cigarettes. Initially we 17 used chewing gum containing nicotine. More recently we have been using patches which 18 19 transfer the nicotine through the skin, and 20 nasal inhalers which allow the nicotine to 21 be absorbed directly through the mucus 22 membranes of the nose. 23 Q Have you written or participated in 24 publications about the dependency or

7	Q	It does. Now, Doctor, I want to ask you,
8		I'm going to be going into some scientific
9		areas with you with the Court's permission,
10		and you understand that in a court of law
11		you can't guess or speculate?
12	7\	I do.
	A	
13	Q	You're supposed to base your answers on
14		reasonable reasonable scientific
15		certainty, more likely true than untrue?
16	Α	That's true.
17	Q	Okay. Before I go into those scientific
18		issues, let me ask you, having been
19		affiliated with the Surgeon General's Office
20		since, I guess since 1973, through the
21	А	'75.
22		'75?
	Q	
23	A	Right.
24	Q	Have you come to learn a bit about the
25		history of the United States Surgeon
		BURNS, M.DDIRECT
		2663
1		General's Office?
2	A	Yes, I have.
3	Q	And when was the U.S. Surgeon General's
4	Q	Office first formed?
	73	
5	A	I can't give you the exact date, but it was
6		well over a hundred years ago now, and it
7		was part of an effort to deal with some of
8		the epidemics that were occurring in the
9		country at the time.
10	Q	And has the surgeon general's office been in
11		existence for over a hundred years now?
12	A	Yes, it has.
13	Q	The jury will hear the name Jessie
14	×	Steinfeld, S-T-E-I-N-F-E-L-D. Can you tell
15		
	-	the jury if you know Dr. Steinfeld?
16	A	Yes, I do. I know Steinfeld well. He was
17		the surgeon general in 1968 or '9 through
18		about 1971.
19	Q	And how did you don't tell us anything
20		about him, but how do you, personally have
21		you met his acquaintance?
22	A	I met him through my work at the Office on
23		Smoking and Health when I was in the Public
24		Health Service and have maintained a
25		relationship since that time based on the
		BURNS, M.DDIRECT
		2664
1		
1		work I have, I've done on tobacco control
2		and tobacco and health as well as he has
3		been a senior reviewer for the Surgeon
4		General's Reports during the time that I was
5		involved with them.
6	Q	Can you continue to try to speak up a little
7		bit, Doctor?
8	A	I will.
9	Q	I know you've not been exactly with it
10	~	completely here the last two days.
11		What about a Dr. Julius Richmond?
12		MR. MOTLEY: Spelled just like the
13		
	73.	town, ma'am.
14	Α	Dr. Richmond was also surgeon general. He
15		was surgeon general during 1968, I believe

```
16
          through --
17
          Julius Richmond now.
18
      A Oh, I'm sorry.
     Q 1978?
19
          '78 through about '82. He was the surgeon
20
21
          general that we -- I worked with on several
22
          of the reports.
23
          While we're mentioning that, would you just
24
          tell -- we may get into some of these later.
          Would you just one-by-one tell the ladies
25
                     BURNS, M.D.-DIRECT
          and gentlemen of the jury what those
1
          documents are and what, if anything, you had
          to do with them.
 4
          This is the 1981 Surgeon General's Report
          that looked at the changing cigarette,
5
          low-tar nicotine filtered cigarettes and the
6
7
          disease consequences. I was the -- one of
          the senior editors for that.
8
9
               This is the 1983 Surgeon General's
          Report on Cardiovascular Disease. I was
10
11
          also a senior editor for that.
12
               This is the 1980 report which was on
13
          Health Consequences of Smoking for Women. I
14
          was also the senior editor for that.
               This is the 1986 Surgeon General's
15
16
         Report on Involuntary Smoking. I was the
17
          senior scientific editor, the editor
18
          responsible for the overall content of that
19
          volume.
20
               This is the 1985 Surgeon General's
21
          Report on Cancer and Chronic Lung Disease in
          the Workplace. I was also the senior
22
          scientific editor for that volume,
23
24
          responsible for its overall content.
               And this is the 1989 Surgeon General's
25
                     BURNS, M.D.-DIRECT
                                                  2666
1
          Report, Reducing the Health Consequences of
          Smoking, 25 Years of Progress. And I was a
          senior reviewer for this one.
3
      Q We mentioned the Koop/Kessler matter.
 4
5
6
          Would you identify it right now for the
7
          record. Don't tell us what it's about, just
8
          identify it.
9
      A Yes. This is the final report of the
10
          Advisory Committee on Tobacco Policy and
11
          Public Health commonly referred to as the
12
          Koop/Kessler Report.
13
      Q That was issued when?
14
      A July 1997.
15
      Q You were a consultant to that?
16
      A I was.
17
      Q Now, Dr. Burns, briefly, in your opinion, as
18
          a lung specialist and a cancer specialist,
19
          what different diseases do direct smoking,
20
          that is people who smoke cigarettes, a pack
21
          or more a day for 25 or more years, what
22
          diseases do cigarettes cause, in your
23
          opinion?
24
     A They cause cancer of the oral cavity, of the
```

what you do is you assemble all of the 8 information that's available, scientific 9 now, I'm talking about, and organize that 10 information to see whether you can draw a 11 causal conclusion. 12 The first piece of that evidence is to 13 look at what happens with high-dose 14 exposure. Obviously, secondhand smoke 15 exposure is a lower-dose exposure than 16 active smoking, and so the first thing that 17 you would do, just as you would with examining asbestos or anything else, would 19 be to examine what happens at high-dose 20 exposure, and specifically what you're 21 looking for there is whether there's a 22 threshold for effect. And if -- could I go 23 to the --24 Q Yes, if you don't mind. 25 THE COURT: Go ahead, Doctor. BURNS, M.D.-DIRECT 1 Keep in mind everyone has a seat, this lady has to take down what you say, so if you 3 could kind of draw sideways. 4 I will try and do that. One of the common things that we examine when we're looking at a causal 6 relationship is whether or not there is a 7 8 relationship between the amount of the 9 exposure and the consequences. In this 10 case, we're looking at the risk of 11 developing lung cancer in relation to the 12 amount of exposure measured by the number of cigarettes someone smokes per day. 13 We have on this side a risk --14 15 Excuse me, Doctor. Let me do this because 16 your voice. 17 MR. MOTLEY: Your Honor, may I move 18 this closer? 19 MR. OHLEMEYER: I also suggest if 20 we proceeded by question and answer, it 21 might be --22 THE COURT: He asked permission, in addition, to show this to the jury. That's 23 all right. I'll allow the narrative at this 24 25 point. BURNS, M.D.-DIRECT 2671 1 If you take the most common number of cigarettes that people smoke, one pack a 3 day, and put it here --4 MR. MOTLEY: Judge, could I give 5 him this? That's 20 cigarettes. 7 Excuse me, Doctor, I don't want you to feel 8 like Phil Donahue or anything, but if I give you this, I think it will amplify, okay? 9 10 A Does that help? Then we can measure how much risk there 11 12 is. The way that we measure that is by 13 looking at the frequency with which people 14 die of lung cancer who smoked 20 cigarettes 15 per day, compared to people who never

smoked. So we're looking at a relative risk 17 or the ratio, the number of times that the 18 risk is compared to a nonsmoker. While some 19 studies vary, in general, we get a risk of 20 about 10. 21 If we look at people who smoke between 10 and 19 cigarettes, we get a risk, it's 22 down here about 7 or 8. If we look at 23 people who smoke less than 10 cigarettes, we 24 25 get a risk down here about 4. BURNS, M.D.-DIRECT 1 If you look at people who smoke two packs a day, the risk is up here, 40 cigarettes per day, the risk is about 18 to 20. So what you can see -- and then the 5 risk in the people who never smoked is 6 defined as 1. So we have 1 here. 7 What we're looking for is whether 8 there's some level necessary to produce the 9 effect. We're looking for whether or not we have a relationship that looks like this, 10 11 where it comes down and does that. So that 12 it looks like this, some level which you 13 don't see any lung cancer risk. 14 When you look at the actual data, and this is data from multiple studies, millions 15 of people followed over many, many years, 16 17 you see that the line that comes down is not 18 too far off a straight line, and if anything 19 comes in on the positive side, suggesting 20 that there's absolutely no threshold 21 whatsoever. Q What does that mean, no threshold? 22 A There's no safe level of cigarette smoke. 23 24 And that led us in the Public Health Service 25 to communicate to people that there's no BURNS, M.D.-DIRECT 2673 1 safe level of smoking and there's no safe cigarette. The dose response relationship says that any level of active smoking 3 creates an increased risk of lung cancer. 4 5 Well, the next step in the process is 6 then to see whether the smoke that people 7 inhale to define these risks is similar to 8 the smoke that you inhale from the 9 environment. It makes kind of logical sense that both of them are tobacco being burned 10 11 and they should contain the same substances. 12 When you actually look at them, you find that the same compounds are present in 13 14 both. There's a little bit of a different 15 mix, and that difference in mix is largely 16 produced by a difference in the temperature 17 at which the tobacco is burned. Q If someone were to light a cigarette and sit 18 it here on this table for about 15 seconds, 19 20 what would the tip be, temperature of the 21 tip? 22 A Oh, it varies some with a cigarette, but 23 it's about 500 degrees. And then it goes up 24 to about, anywhere from 6 to 900 degrees,

25 depending where you are when you inhale. BURNS, M.D.-DIRECT 2674 Most of you are familiar with the fact that when you see someone smoke and you draw 3 through the cigarette, you get a glowing ember. What that glowing ember represents is an increase in the temperature at which 6 the tobacco is being burned. 7 What's the highest temperature it gets? 8 A I think it gets 900 to 1000 degrees. 9 MR. OHLEMEYER: I object to lack of 10 foundation. 11 THE COURT: Overruled on that 12 count. You can answer, Doctor. 13 Α And the difference then is that --Q Did you answer the question? I don't know 14 15 if the jury heard you. 16 THE COURT: The question was what 17 is the highest temperature. A 900 to about a thousand degrees, mainstream 18 19 smoke. 20 The smoke then is defined 21 scientifically under two parts. One is --22 Q Can you draw that, by any chance? 23 A One is mainstream. 24 On the next sheet. 25 A I'm not sure what you're asking me to do. BURNS, M.D.-DIRECT 2675 1 Can you just show the vapor, mainstream/sidestream? Just kind of draw a 2. 3 cigarette. A You have a cigarette, it's lit. You have smoke that curls up from the tip of the 5 cigarette, and then you have the smoke that the smoker inhales, which comes, is drawn 7 8 through the cigarette. 9 When you scientifically examine those 10 two, you can actually measure the chemical 11 compounds present in this smoke, compare 12 them to the chemical compounds present here. Q Do they have names, the vapors? 13 14 There's a wide variety. 15 I'm just talking about the smoke you've 16 drawn there, is that mainstream? Is that 17 what --18 A This is mainstream smoke here. And this 19 smoke, the smoke that curls up from the tip, 20 is called sidestream smoke. What we find 21 when we compare those two is that both kinds 22 of smoke have essentially the same chemicals 23 in them. But the distribution, the relative 24 concentrations are different. When you burn 25 the smoke at a higher temperature, you get BURNS, M.D.-DIRECT 2676 more complete combustion of the smoke. When 1 you burn it at a lower temperature, you 3 actually produce more of some of the toxic and carcinogenic substances that are present in cigarette smoking. But for all intents and purposes, when you look at this

scientifically, most of the toxic and 8 carcinogenic substances that are present in 9 mainstream smoke are also found in 10 sidestream smoke. So we now have a second piece to this 11 12 causal trail. We know that mainstream smoke causes lung cancer; we know that there's no 13 14 safe level of that exposure; and we know 15 that sidestream smoke contains the same 16 components. 17 So the next step is to find out how much exposure do you get. Q Does who get? 19 20 A The people who are nonsmokers in an 21 environment where tobacco is being smoked. 22 What was done was to go and measure a 23 variety of these compounds in many different 24 circumstances. Offices, bars, restaurants, 25 homes, all kinds of -- automobiles. All BURNS, M.D.-DIRECT 2677 kinds of different places. 1 And when you look at how much is 3 present in the air, and you go back and put it on that dose-response relationship, there is enough of a dose that you would expect a 6 small increased risk. 7 The next step is to see whether people 8 in that environment actually absorb that 9 smoke. 10 What do you mean by that? A Well, the smoke in the air obviously doesn't 11 12 hurt you. In order for it to hurt you, you have to inhale it, have it be deposited in 13 your airways, absorbed into your body. So 14 15 the next step in the causal trail is to 16 demonstrate how much of that happens. Nicotine is essentially only contained 17 18 in tobacco. And so it becomes a very good 19 measure of the amount of exposure to tobacco 20 smoke that an individual has either as a 21 mainstream smoker or as an involuntary and passive smoker may be exposed through 22 23 sidestream smoke. 24 When you look at nicotine, the easiest 25 way to do that is to look at one of its BURNS, M.D.-DIRECT 2678 1 metabolites, because that stays around for a longer period of time. That's a word that the jury, I don't believe, heard today, at least in the trial. 5 What does metabolites mean? 6 A Nicotine, when it's taken into the body, is 7 changed by some of the enzymes in the body, 8 some of the processes by which we digest small compounds in the body. And it's 9 changed into other compounds that are easier 10 11 to excrete or have less direct effect than 12 nicotine. So one of those is cotinine. 13 Q Would you spell that for us? 14 A C-O-T-I-N-E. 15 Q Sure.

I don't think that's right. 17 Where did you say you went to medical 18 school? 19 A Well, one of the comments in my medical school review was that I can't spell. 20 21 Q C-O-T-I-N-I-N-E. A The cotinine can be measured in saliva, in 22 urine, or in blood, if it's readily 23 24 available, and you can easily measure it in 25 large numbers of people. BURNS, M.D.-DIRECT 1 When you measure the amount of cotinine in people who are in environments where there's secondhand smoke, and compare that to the cotinine that's present in smokers, 5 again, you find enough cotinine present that 6 you would expect a risk. That step in the 7 causal chain has been sufficient for us to 8 define risks for low-dose exposure to 9 asbestos and a variety of other agents and 10 to regulate them. 11 However, with secondhand smoke, you can 12 take it an additional step further. We 13 actually have human studies, human 14 epidemiology. Epidemiology is the study of 15 populations of people and the disease occurrence in those populations. And we 16 17 looked at the effect of secondhand smoke 18 exposure. To look at that, we need to be 19 able to see a difference in the amount of 20 exposure. All of us have had some exposure to secondhand smoke. And in order to do an 21 epidemiologic study, a study of two 22 23 populations to look at differences in risk, 24 those two populations have to have different 25 amounts of smoke that they've been exposed BURNS, M.D.-DIRECT 2680 1 to. And that's a fairly complicated thing to do with an exposure like environmental 3 tobacco smoke. The simplest way to do that was to look 4 5 at spouses whose husbands smoked, nonsmoking 6 wives of smoking husbands, compared to 7 nonsmoking wives of husbands who didn't 8 smoke. There both sets of wives would be 9 expected to have the environmental tobacco 10 smoke exposure that occurs in the general 11 population. 12 Just walking around? 13 A Just walking around, going to restaurants, 14 working in offices, all of the other ways 15 that we get exposed to smoke, but it would 16 be expected because their husbands smoke 17 that they'd have more than wives of nonsmoking husbands. And actually when you 18 look at the cotinine in the urine of those 19 20 individuals, you do find that they do have 21 more, when those studies are done, and there's now been almost 40 of them. 22 23 40? 24 40. You see an increased risk, small, Α

```
25
          consistent with dose, an increased risk of
                     BURNS, M.D.-DIRECT
                                                  2681
 1
          lung cancer. So you have unequivocal
          evidence that high-dose exposure is a cause
 3
          of lung cancer; we know that the agent
          contains the same toxins and carcinogenic
          substances; we know that the amount present
 6
          in the air is enough to expect a risk; we
 7
          know that the amount that people absorb from
8
          that air is enough to expect a risk. And
9
          when you look at people with different
10
          levels of exposure, you actually find this.
11
          So there simply isn't any longer any
          scientific fact that this exposure can't
12
13
          cause lung cancer.
14
     Q Thank you, Doctor. Could you return. I'll
15
          take your microphone for you.
16
                   MR. MOTLEY: Judge, were you
17
           intending to take an afternoon break?
                   THE COURT: I think we may do that
18
          now, Doctor. You can step down. We'll take
19
20
          a ten-minute break, ladies and gentlemen.
21
               (Standard admonition)
22
                   MR. CASSELL: All rise.
23
                (A brief recess was taken.)
                   MR. CASSELL: All rise.
24
25
                (Jury not present)
                     BURNS, M.D.-DIRECT
                                                  2682
 1
                   THE COURT: Be seated. Thank you.
          Jury is not present. Matter to come to the
 2.
 3
          Court's attention?
                   MR. OHLEMEYER: Your Honor, my
          partner, David Hardy, is here in town. He's
 5
          in the courtroom watching the trial. And
 7
          this afternoon, Mr. Motley -- I should say.
          Mr. Young served a subpoena.
 8
9
                   MR. CROSS: I can't hear a word
10
          he's saying.
11
                   THE WITNESS: Your Honor, should I
12
          be here for this?
                   THE COURT: You're okay.
13
                   MR. OHLEMEYER: I think, Your
14
15
          Honor, you ought to quash this, sanction
16
          these guys. I think we ought to stop this
17
          game where every lawyer that comes in the
18
          courtroom gets a subpoena. This is
19
          ridiculous, Your Honor.
20
                   THE COURT: I saw that was filed
21
          with the court reporter. Did you file it?
22
                   MR. RILEY: I did not file it, Your
23
          Honor.
24
                   THE COURT: Who served the
25
          subpoena?
                     BURNS, M.D.-DIRECT
                                                  2683
 1
                   MR. JOSEPH YOUNG: I did, Your
          Honor.
 3
                   THE COURT: Counselor, come up.
          What's the purpose of the subpoena on
 5
          Mr. Ohlemeyer's partner here?
                   MR. JOSEPH YOUNG: The purpose, I
```

believe, Your Honor, is to authenticate 8 documents that were discussed earlier in the 9 day that have some foundational information 10 for Mr. Hardy to authenticate documents. That's my understanding. 11 12 THE COURT: Your understanding? MR. JOSEPH YOUNG: I was just asked 13 14 to serve the subpoena, Your Honor. I wasn't in the courtroom at the time the discussions 15 concerning the documents took place. 16 17 MR. RILEY: There's probably no 18 better individual, Your Honor, in this 19 courtroom than Mr. Hardy to be able to 20 authenticate these documents and thereby 21 vitiating the problems that we've been 22 having with regard to what Mr. Motley was 23 arguing about. 24 MR. OHLEMEYER: The problem these 25 lawyers have, Your Honor, is they spent four BURNS, M.D.-DIRECT years conducting discovery, they could have 1 subpoenaed the Tobacco Institute, they could 3 have taken depositions, they could have done -- you can't subpoena lawyers in the 4 middle of a trial to authenticate documents. I really think the Court ought to --6 7 THE COURT: Is there a motion? MR. OHLEMEYER: I move to quash the 8 9 subpoena. I move -- I would ask the Court, 10 as a sanction, to admonish or to suggest to 11 opposing counsel that they not continue this 12 practice and bring these matters to the 13 Court's attention before they start serving 14 subpoenas. 15 THE COURT: Mr. Cross, care to be 16 heard on the motion to quash? 17 MR. CROSS: I have nothing further. 18 THE COURT: Motion to quash is 19 sustained, and I would make that suggestion 20 to counsel. 21 MR. OHLEMEYER: Thank you. 22 THE COURT: I might tell you, another matter. As we know, we are dealing 23 24 with a jury that has matters to attend to 25 themselves and we've been accommodating in BURNS, M.D.-DIRECT 2685 1 that matter, but there's been a request -- I know we talked about this last evening, Mr. Ohlemeyer, as to how long we were going to go tomorrow afternoon. Jury has 5 indicated to the bailiff, apparently, that 4:00 would be their hope. So I just tell 6 7 you that in light of witness planning and 8 that type of thing. So we'll go to 9 approximately 4:00 tomorrow, especially 10 since it's a Friday, I realize they have 11 matters to attend to in their lives. 12 While we're all here and the jury is 13 not here, apparently last, several days ago, 14 Thursday or Friday, it was brought to my 15 attention that there was an effort to take a

```
photograph in the courtroom. Is that
17
          correct? Anybody know anything about that,
18
          from the plaintiffs' side?
19
                  MR. CROSS: No.
                   MR. JOSEPH YOUNG: Your Honor, the
20
21
          request was made to the bailiff, and the
          bailiff indicated that that was
22
23
          inappropriate and no photograph was taken.
                   THE COURT: All right. As we all
24
25
          know what the rule says, during sessions of
                     BURNS, M.D.-DIRECT
          court, or recesses between sessions, and I
 1
          would consider the evening to be a recess
          between sessions, there will be no
 3
 4
          photograph taken in this courtroom. And
 5
          this is the courtroom.
 6
               Any other matter we need to attend to
 7
          outside the presence, Mr. Ohlemeyer?
 8
                   MR. OHLEMEYER: Not here, Your
9
          Honor.
                   THE COURT: Mr. Motley?
10
11
                   MR. MOTLEY: No.
12
                   THE COURT: Mr. Cross?
13
                   MR. CROSS: No.
14
                   THE COURT: Bring in the jury.
15
                (Jury present)
                   MR. CASSELL: All rise.
16
                   THE COURT: Be seated. Jury back
17
18
          in its entirety together with the
19
          alternates. Would you again state your
20
          name, sir.
                   THE WITNESS: David Michael Burns.
21
                   THE COURT: And you recognize
2.2
          you're still under oath; sir.
2.3
24
                   THE WITNESS: I do.
                   THE COURT: Continue, Mr. Motley.
25
                     BURNS, M.D.-DIRECT
                                                 2687
 1 DIRECT EXAMINATION (cont.)
 2 BY MR. MOTLEY:
       Q Doctor, again, try to talk as loud as you
 3
          can. I just want to make sure you were
 4
 5
          clear when you were down here. One of my
          colleagues said he didn't hear, I want to
 6
 7
          make sure the lady heard you, the ladies and
8
          gentlemen and the Court.
9
              Did you say with respect to ETS -- and
10
          can I shorten lung cancer with LCA?
      A Yes.
11
      Q There were, you studied 40 people or 40
12
         populations?
13
14
     A No, there were 40 populations.
15
     Q Okay. So more than 40 people.
16
     A There were 40 individual publications,
17
         scientific publications that examined
          individual populations.
18
     Q And when they do studies like that,
19
20
          epidemiological studies like that, they
21
          study just a handful of people or lots of
22
         people or you describe it.
23
     A Well, it varies. Most of the studies
24
          examined patients who had lung cancer who
```

25 were nonsmokers, and they selected a control BURNS, M.D.-DIRECT 2688 group from the hospital or the community, and looked at the frequency with which they 3 were exposed to environmental tobacco smoke. Many of those studies varied from several 5 hundred people to several thousand people. 6 There were also studies that examined populations looking forward in time, 7 particularly one in Japan, that was a large 8 9 population study of several hundred thousand 10 people who were followed for multiple years, 11 and there they looked at the frequency with 12 which lung cancer occurred in wives of 13 nonsmoking husbands as opposed to wives of 14 smoking husbands. 15 Q Did I hear you say several hundred thousand? 16 A Yes, that's correct. 17 Q Okay. Now, Doctor, have you ever been asked by any government agencies to offer your 18 expertise on whether or not ETS, or 19 20 secondhand smoke, causes disease in human 21 beings? A Yes, I've been asked by a variety of 22 23 agencies, including the local governments in San Diego, the county and city governments, 24 as well as the state of California's 25 BURNS, M.D.-DIRECT 2689 1 Environmental Protection Agency. 2 All right. Now, you indicated that you were 3 involved with the U.S. Environmental Protection Agency report of January 1993 on secondhand smoke. Do you recall that? 5 That's correct. This document right here. 6 7 Dr. Burns, what is a class A carcinogen? Carcinogens are classed into various groups 8 9 based on the strength of the evidence. And 10 group A carcinogen is called proven, that 11 is, it's a proven carcinogen, and it's a 12 proven carcinogen in humans, so it's 13 referred to as a proven human carcinogen. Was the conclusion of the Environmental 14 15 Protection Agency in 1993 what I've written 16 on the board or did they reach some other 17 conclusion? 18 A No. The conclusion of the report and the 19 unanimous conclusion of the science advisory 20 board was that the environmental tobacco 21 smoke was a proven human carcinogen. 22 0 Did I write that right? 23 With the exception that it's group A, not 24 class A. But yes, you wrote it right. 25 Picky, picky. Group A. BURNS, M.D.-DIRECT 2690 1 Α Group A. All right. Now, 1993 has been five years 0 3 ago. 4 A That's right. 5 Since the EPA wrote the report of 1993, has the evidence about environmental tobacco

7		smoke causing cancer in humans gotten more
8		strong or less strong or stayed the same?
9	A	The data has increased, and the number of
10		groups who have reviewed it has increased.
11		The conclusion has remained the same. The
12		
		data that supports it is now even stronger.
13	Q	In that regard, Doctor, let me move this out
14		of the way a moment. Ask you, do you see
15		your screen right there?
16	A	I do. This terminal?
17	Q	Correct. I'm going to show you these
18	~	different organizations, and I think the
19		jury will be able to see them, then you tell
20		me whether or not these organizations have
21		studied environmental tobacco smoke and
22		whether they've concluded whether it causes
23		or doesn't cause lung cancer, okay?
24	A	Yes.
25	Q	Show the first one, please.
	×	BURNS, M.DDIRECT
		•
-	_	2691
1	A	Yes.
2	Q	1986 Surgeon General's Report.
3	A	That was the report that I was the senior
4		scientific editor for, and yes, we concluded
5		it was a cause of human lung cancer.
6	Q	Has any Surgeon General's Report concluded
7	Q	otherwise since then?
	-	
8	A	No.
9	Q	Next one, please. The National Research
10		Council. First, what is that?
11	A	The National Research Council is part of the
12		National Academy of Sciences, which is the
13		group that represents the scientific
14		community in the United States. They are
15		frequently asked by a variety of
16		governmental entities to review and form an
17		opinion on issues of science. They were
18		asked about the same time as the Surgeon
19		General's Report was done to review all of
20		the evidence on environmental tobacco smoke
21		and reach a conclusion as to whether it
22		caused disease or not. They did that, and
23		they concluded it was a cause of lung
24		cancer.
25		MR. FURR: Objection, this is
		BURNS, M.DDIRECT
		2692
1		hearsay now.
2		MR. MOTLEY: This is not hearsay.
3		He's an expert. He can base his opinion on
4		out-of-court statements of other parties.
5		THE COURT: Overruled.
6	Q	Next one, please. I think it's obvious, but
7		for the record what's the National Institute
8		of Occupational Safety and Health?
9	А	That's the scientific arm for the review of
10	2.3	scientific information and conduct of
11		research on occupational illnesses and
12		agents in the workplace that cause illness
13		and disease. They reviewed the evidence and
14		they also concluded that environmental
15		tobacco smoke was a cause of lung cancer.

Isn't it a given, Doctor, when you and I, 17 when we discuss environmental tobacco smoke, I'm using secondhand smoke, passive smoke, 18 19 all the same term? A They all mean the same thing. 20 21 Q Okay. And in your professional opinion, has 22 NIOSH reached a conclusion that ETS causes 23 lung cancer? 24 A Yes. 25 Q The next one, please. Just for the record, BURNS, M.D.-DIRECT I think everyone knows what the American 1 2. Medical Association is, but would you 3 describe it for the jury. 4 The American Medical Association is the national organization of physicians of the 5 United States. 6 7 Q And approximately how many doctors belong to 8 that? A I can't give you an accurate count. My 9 10 understanding is it's several hundred 11 thousand. 12 Q And has the journal -- excuse me. Has the 13 American Medical Association gone on record 14 as to whether or not cigarette smoking, 15 secondhand cigarette smoking causes cancer in humans? 16 A Yes, they have. 17 Q The next one, please. You've already told 18 19 us about that. That would be correct to put 20 a checkmark there; correct? 21 A Absolutely. Q The next one, please. What is the American 22 Thoracic Society? 23 A The American Thoracic Society is the 24 25 professional organization of pulmonary BURNS, M.D.-DIRECT 2694 1 physicians in the United States. And it has a variety of groups that examine specific 3 topics and form what are called position papers or scientific papers on those topics. 4 5 They have also concluded that secondhand 6 smoke causes lung cancer. 7 Q Next one, please. The California 8 Environmental Protection Agency, Office of 9 Environmental Health Hazard Assessments, you 10 had something to do with that, didn't you? A I helped them in the early stages of that 11 12 process and attended one of the meetings 13 that they held to review the information. 14 They have completed an update of the science 15 on this, I believe last year, and they also 16 concluded, after reviewing all of the new 17 studies, that secondhand smoke caused lung 18 cancer. 19 And I believe I have a copy of that here. 20 Could you tell me if this is what you're 21 referring to? 22 A Yes. This is the copy of that report, it 23 reviewed all of the scientific studies in 24 detail.

25	Q	The next one, please. BURNS, M.DDIRECT
_		2695
1	A	American Cancer Society.
2	Q	Again, for the record, I believe you already
3	_	said what that is, didn't you?
4	A	It is the voluntary health organization in
5		the United States that is interested in the
6	0	treatment, prevention, and cure of cancer.
7	Q	All right.
8	A	They've also concluded that secondhand smoke
9		causes lung cancer.
10	Q	When you say they've concluded this, this
11		isn't some poll or survey you've done, is
12	_	it?
13	A	No, this is completely independent of my
14		input.
15	Q	And they've have they published reports
16		and opinions and things like that?
17	A	They have issued a formal position on this,
18		yes.
19	Q	Next one, please. Now, American Lung
20		Association, for the record, what is that?
21	A	That's the voluntary health agency that is
22		interested in the prevention, treatment, and
23		diagnosis of lung disease in the United
24		States.
25	Q	Is that the Christmas Seal people?
		BURNS, M.DDIRECT
		2696
1	A	That's correct.
2	Q	And have they issued a formal opinion or
3		report on environmental tobacco smoke and
4		1
7		lung cancer?
5	А	Tung cancer? Yes, they also have an opinion that
	А	
5	A Q	Yes, they also have an opinion that
5 6		Yes, they also have an opinion that secondhand smoke is a cause of lung cancer.
5 6 7		Yes, they also have an opinion that secondhand smoke is a cause of lung cancer. Next, please. The American College of
5 6 7 8		Yes, they also have an opinion that secondhand smoke is a cause of lung cancer. Next, please. The American College of Occupational and Environmental Medicine,
5 6 7 8 9	Q	Yes, they also have an opinion that secondhand smoke is a cause of lung cancer. Next, please. The American College of Occupational and Environmental Medicine, what is that, sir?
5 6 7 8 9 10	Q	Yes, they also have an opinion that secondhand smoke is a cause of lung cancer. Next, please. The American College of Occupational and Environmental Medicine, what is that, sir? That's the professional organization of
5 6 7 8 9 10 11	Q	Yes, they also have an opinion that secondhand smoke is a cause of lung cancer. Next, please. The American College of Occupational and Environmental Medicine, what is that, sir? That's the professional organization of individuals who are interested in
5 6 7 8 9 10 11	Q A	Yes, they also have an opinion that secondhand smoke is a cause of lung cancer. Next, please. The American College of Occupational and Environmental Medicine, what is that, sir? That's the professional organization of individuals who are interested in occupational health.
5 6 7 8 9 10 11 12	Q A Q	Yes, they also have an opinion that secondhand smoke is a cause of lung cancer. Next, please. The American College of Occupational and Environmental Medicine, what is that, sir? That's the professional organization of individuals who are interested in occupational health. And that's an organization of doctors?
5 6 7 8 9 10 11 12 13	Q A Q A	Yes, they also have an opinion that secondhand smoke is a cause of lung cancer. Next, please. The American College of Occupational and Environmental Medicine, what is that, sir? That's the professional organization of individuals who are interested in occupational health. And that's an organization of doctors? Doctors and other scientific individuals.
5 6 7 8 9 10 11 12 13 14	Q A Q A	Yes, they also have an opinion that secondhand smoke is a cause of lung cancer. Next, please. The American College of Occupational and Environmental Medicine, what is that, sir? That's the professional organization of individuals who are interested in occupational health. And that's an organization of doctors? Doctors and other scientific individuals. And have they issued a report or opinion
5 6 7 8 9 10 11 12 13 14 15	Q A Q A	Yes, they also have an opinion that secondhand smoke is a cause of lung cancer. Next, please. I've demonstrated on this chart?
8
     A Yes.
9
     Q Next one, please.
10
               The National Cancer Institute, you have
         already described for the jury. Have they
11
12
          issued an official opinion or report on
13
          environmental tobacco smoke and lung cancer?
14
     A Yes. They also have concluded that
15
          secondhand smoke causes lung cancer.
16
     Q Next one, please.
               Consumer Product Safety Commission.
17
          You told the jury what that organization is.
19
          Have they reached a conclusion with respect
20
          to secondhand smoke or environmental tobacco
21
          smoke and lung cancer?
22
    A Yes, they have.
23
     Q And is that accurately depicted on that
24
         chart?
25
     A I believe it is, yes.
                     BURNS, M.D.-DIRECT

3
          for the record, what is the American Heart
 4
          Association?
      A American Heart Association is the voluntary
6
7
          health agency that is interested in the
          diagnosis, treatment, and management of
8
9
          heart disease in the United States.
10
     Q And the next one, please.
11
              The National Association of County and
12
         City Health Officials; what is that?
     A That's the national organization of those
13
          groups that represent your city and
14
15
          council -- city and county employees on a
          professional level. That's their
16
17
          professional organization, and they
18
          represent people who are county
19
         administrators, et cetera.
     Q And have they reached a similar conclusion
20
21
         as depicted on this chart?
     A Yes.
22
23
     Q Next one, please.
2.4
              The American Academy of Pediatrics
25
         Committee on Environmental Health. That's
                    BURNS, M.D.-DIRECT
                                                2699
1
          an organization of doctors that deal with
          children, pediatrics?
3
          That's right.
      Α
 4
      Q And they have a committee on environmental
5
          health?
 6
      A Yes.
7
      Q Have they reached the conclusion depicted on
8
          that chart?
     A They have.
9
     Q All right. The Advisory Committee on
10
          Tobacco Policy and Health, is that the
11
12
         Koop/Kessler committee?
13
     A Yes. Yes, it is.
14
     Q Have they reached a similar conclusion?
15
     A They have.
```

```
16
          Now, what about the American Cigarette
17
          Industry; do you know whether they've
18
         reached a conclusion on this?
19
     A They believe that the evidence is not
          sufficient to conclude that environmental
20
          tobacco smoke causes lung cancer.
21
      Q Can you show that, please. So we've checked
22
23
          that correctly?
24
     A That's correct.
                   MR. MOTLEY: I'd like to mark that
25
                     BURNS, M.D.-DIRECT
1
          chart.
2.
                  MR. OHLEMEYER: Can I get a copy of
3
          it, please?
 4
                   MR. MOTLEY: I'll have to make you
5
          one. I actually have one.
6
                  MR. OHLEMEYER: Thank you.
7
                   MR. MOTLEY: May I approach, Your
8
          Honor?
9
                  THE COURT: Yes. Thank you.
      Q Dr. Burns, I'm going to hand you a copy and
10
          ask you if that's a copy of what we just
11
12
          demonstrated to the jury.
13
      A Yes, it is.
14
                   MR. MOTLEY: I just want to mark it
          for ID for the record, please. I marked it
15
          as No. 44, Mr. Cassell.
16
                   MR. CASSELL: I believe it would be
17
18
          25, sir.
19
                   MR. MOTLEY: No. That's right.
20
          All right.
21
     Q Now, Dr. Burns, let me go back to the EPA
          report that we have been discussing, if I
22
          might. Can everyone --
23
                   MR. MOTLEY: Can Your Honor inquire
24
25
          if the jury can hear okay?
                     BURNS, M.D.-DIRECT
                                                 2701
1
                   THE COURT: They can.
          When the EPA, for that matter, any
          government agency --
3
                   MR. MOTLEY: May I stand here, Your
 4
5
          Honor?
6
                   THE COURT: Go ahead.
7
     Q -- investigates a health matter, okay, do
8
          they take evidence, maybe not like this in a
9
          courtroom, but do they gather up information
10
          from different sources?
11
     A Not every agency does, but the EPA, through
12
          its process, has open hearings where it
13
          notices the hearings; that is, sends out the
14
          notice that they're going to have this
15
          meeting to all of the interested parties,
16
          and then takes evidence from those
17
          interested parties as part of the process by
          which they reach a judgment.
18
     Q Okay. And in this instance, you
19
20
         participated in this process?
     A I did.
21
22
     Q Did the EPA take evidence, that is, have
23
          people come in and express their opinions in
24
          regard to their investigation of secondhand
```

```
physical diagnosis.
 8
      Q That's in Atlanta?
     A It's in Atlanta. Emory University, during
9
10
        the time I was at CDC.
     Q And that was year?
11
12
     A And that was 1974 through 1976.
      Q Okay.
13
     A And I taught physical diagnosis at the
14
          Veteran's Hospital there. And then I was a
15
          fellow at UCSD and spent half of our
16
17
          clinical time at the Veteran's Hospital from
18
          1976 through '79. I was based at the VA
          Hospital 1979 and '80 and still am
19
20
          periodically out at the Veteran's Hospital
21
          as part of my teaching responsibilities.
     Q So from 1980 on it's been less, but you
22
23
          still have some involvement?
24
     A Yes. We have a program that is based in
25
          both hospitals, and so it's not uncommon for
                     BURNS, M.D.-DIRECT
          us to be in both institutions.
 1
          All right, sir. In Boston, in 1972, you
 3
          were in medical school, but what did you do
          at the VA Hospital? I don't mean give us
 4
 5
          everything you did.
      A I took a cardiology rotation for one month.
 6
      Q The heart patients?
 7
      A That's right.
 8
     Q And in Atlanta from 1974 to 1976 what did
9
10
         you do?
11
     A I taught physical diagnosis, which is to
12
         teach medical students how to examine
         patients and take a medical history.
13
     Q Did you go on that ward, those wards?
14
15
      A Oh, yes. You actually go with the student
16
          to examine the patient.
      Q At UCSD from 1976 to present, have you
17
18
         physically been out on the wards?
19
     A Sure.
20
     Q I want you -- you have looked at the case of
21
          Mildred Wiley, have you not?
      A I have.
22
23
          I want you to just assume for a second that
          she died in June of 1991. You know that
24
25
          yourself from the death certificate.
                     BURNS, M.D.-DIRECT
                                                 2706
 1
      A
          I do, yes.
          Restricting yourself to those 19 years, sir,
          can you tell the ladies and gentlemen of the
           jury and the Court whether or not in your
 4
 5
          personal experience and observation you
          observed veterans smoking in hospitals that
 7
          you had personal experience at?
 8
                  MR. OHLEMEYER: Objection, Your
          Honor, relevance; beyond the scope of this
9
10
          witness' testimony.
11
                   MR. MOTLEY: Your Honor, it's
12
          not -- I'm sorry.
13
                   THE COURT: Go ahead.
14
                   MR. MOTLEY: I was just going to
15
         say, it certainly is relevant. I'm laying a
```

16 17 18 19 20 21 22 23 24 25		predicate and foundation for some testimony I'm going to ask him, and his personal experience is certainly relevant. MR. OHLEMEYER: May we approach briefly on that? THE COURT: Let me see the document. Last objection is overruled. You may continue, Mr. Motley. MR. MOTLEY: Thank you, Your Honor. BURNS, M.DDIRECT
1 2	Q	First your observations as a physician or a physician in training. Did you observe
3		veterans smoking in Veteran's hospitals?
4	A	Oh, yes. It was very common practice. In
5		general, veterans smoked more heavily than
6		the general population.
7		MR. OHLEMEYER: Objection.
8		MR. MOTLEY: I didn't ask you that
9		yet.
10		THE COURT: The last as to veterans
11 12	0	will go out. It's not responsive. You did observe veterans smoking?
13	Q A	Yes.
14	Q	In your experience, and in your education
15	×	and training, do veterans smoke more often
16		or less often than members of the
17		non-veteran general population?
18		MR. OHLEMEYER: Same objection,
19		Your Honor.
20		THE COURT: Objection is noted and
21 22		overruled. You may answer, Doctor.
23	А	They smoke more commonly than the general
24		population, particularly the general
25		hospital population.
		BURNS, M.DDIRECT
		2708
1	Q	By a magnitude of two or what? Give us a
2		reference here.
3	A	It's about half again as much as the general
4 5	Q	population. Half again more?
6	Q A	Half again more.
7	Q	Now, Doctor, are you familiar with something
8	~	called the accreditation, I guess it's
9		accreditation. How do you pronounce that?
10	A	Accreditation.
11	Q	Accreditation manual for hospitals
12		promulgated by the Joint Commission on
13	7	Accreditation for Hospitals?
14 15	A O	Yes, I am. Are you familiar with well, what do they
16	Q	do? What's their purpose?
17	A	Their purpose is to review and accredit
18		hospitals and all patient environments for
19		the compliance with the standards that they
20		set. It's intended to maintain the quality
21		of those institutions relative to the
22	_	standards that they have.
23	Q	Have you ever had experience with can I
24		call it the JCAH?

25	A	Yes, you can. JCAHO is the current.
		BURNS, M.DDIRECT
		2709
1	Q	Have you had experience with them?
2	A	I have. As medical director of respiratory
3		care, I'm responsible for the standards that
4		apply to the respiratory care department,
5		and therefore I do have a substantial
6 7		interaction with that group and am familiar
8	0	with the process. Are you then personally familiar by
9	Q	education, training, and experience with the
10		JCAH manuals and requirements for hospitals?
11	A	Yes.
12	0	Can you tell me, sir, prior to 1991, were
13	~	there any such regulations by the Joint
14		Commission on Accreditation for Hospitals,
15		prior to 1991, with respect to environmental
16		tobacco smoke with respect to the amount of
17		smoke permitted?
18		MR. OHLEMEYER: Objection, Your
19		Honor. Lack of foundation, beyond the scope
20		of the witness' previous disclosure.
21		THE COURT: Overruled. You may
22	_	answer.
23	A	Prior to that time, there was no JCAH
24		standard for environmental tobacco smoke
25		exposure. BURNS, M.DDIRECT
		2710
1	Q	Were those accreditation manuals that you
2	~	mentioned standard policy for hospitals
3		across the United States from, say, 1972 to
4		1991?
5	A	Yes, they were.
6	Q	Were there any standards, sir, like by the
7		JCA, you say, HO now?
8	A	Uh-huh. Yes.
9	Q	Were there any standards that said you were
10		in violation of your accreditation if there
11		was four cigarettes being smoked in one room
12 13	7\	or anything like that? No. There were the standard is a measure
$\frac{13}{14}$	A	that they use to evaluate the institution.
15		And there was no measure that said this is
16		the number of cigarettes that are allowed to
17		be smoked.
18	Q	Doctor, would you define for the record that
19	~	word.
20	A	Synergism is a term that is applied when you
21		get more of an effect than you would expect
22		from the sum of the two independent effects.
23		So if you get a certain amount of risk, say,
24		from cigarette smoking, if you get a risk of
25		ten from cigarette smoking, and say
		BURNS, M.DDIRECT
1		asbestos, you get a risk of five from
2		asbestos, you get a risk of live from asbestos exposure; if you add those two
3		exposures together, you would expect the
4		risk of 15.
5		If you get a risk much higher than
6		that, then the combined exposure produces

more disease than the sum of the independent 8 exposures. And we call that synergism, or 9 synergy, depending on how you want to use 10 the term. And in actual fact, the numbers for 11 12 asbestos show 50. So you have a risk of 50 with a combined exposure, whereas the sum of 13 14 the two independent exposures would give you a risk of 15. So it's much higher than you 15 16 would expect just from adding the two 17 together. 18 What it implies --MR. OHLEMEYER: Excuse me, Your 19 20 Honor. THE COURT: I think you answered 21 22 the question, Doctor. 23 MR. MOTLEY: I'm sorry, I was trying to find out if we had a book here. 24 25 Q Did the Surgeon General of the United States BURNS, M.D.-DIRECT study this at a given point in time? 1 It's been studied in several of the reports. 3 The most detailed discussion of it was in this one, which is Cancer and Chronic Lung 4 Disease in the Workplace. Q I thought it was up here. That's what I was 6 trying to find. This is 1985. Did you have 7 anything to do with this? 8 A Yes, I was the senior scientific editor for 9 10 that volume, and I also authored the chapter 11 on asbestos and played a substantive 12 authoring role in several other chapters. Q So you have expertise on asbestos and 13 cigarettes working together? 14 15 A I do. Q All right. Doctor, is there something 16 17 called asbestosis? 18 A Yes, there is. 19 Q That's asbestos with an I-S on it; correct? 20 A That's right. Q Define asbestosis for the jury, if you don't 2.1 22 mind. A Asbestosis is a process by which the lung is 23 24 scarred following sustained inhalation of 25 asbestos fibers. Asbestos is a dust that BURNS, M.D.-DIRECT 1 has a long thin fiber. You inhale it into the lung and it sticks in the lung. And after a prolonged inhalation, after a sustained amount of inhalation, when you get 5 enough for a long enough period of time, it 6 causes scarring of the lung and it's a 7 particularly distinctive type of scarring. 8 Q Now, in fact, Doctor, the first time you and 9 I ever met was in a courtroom where you were 10 testifying against me, against my client; isn't that right? 11 12 A I believe that's true. Q Okay. And you looked at Mildred Wiley's 13 14 case, did you not, for us? 15 A I did.

```
For the family?
     A Yes.
17
     Q And can you tell the ladies and gentlemen of
18
19
         the jury whether Mildred Wiley had in her
          lungs scars caused by asbestos -- scars
21
          caused by asbestos such as it would be
          called asbestosis?
22
23
      A No. She had no evidence of asbestosis in
          her lung. There was no evidence of asbestos
24
          bodies. The microscope -- you look under a
25
                     BURNS, M.D.-DIRECT
          microscope, and you can see these residuals
1
          of asbestos. None of those were present and
          there was no scarring consistent with
          asbestosis.
          So, Doctor, did you see -- you looked at the
5
          x-rays and other things in this case?
6
7
      A I just looked at the reports, not at the
8
          x-rays myself.
9
      Q Did you see any reports that would indicate
10
          there was any asbestos scars in this lady's
11
12
     A No, neither the x-ray reports nor the
13
          autopsy described any scarring in her lung
14
          consistent with asbestosis.
15
     Q In addition, Doctor, to --
                  MR. MOTLEY: Your Honor, you've
16
17
          already admitted this document. There's a
18
          limiting instruction. May I hand it to Your
19
          Honor?
20
                   THE COURT: All right.
                   MR. OHLEMEYER: Your Honor, again,
21
          I object to any use or the eliciting of any
          opinions from this witness on these
23
24
          documents, because they're not the subject
25
          of his previously disclosed testimony.
                     BURNS, M.D.-DIRECT
                                                 2715
1
                   MR. MOTLEY: Your Honor, they
          certainly are. We disclosed -- we already
3
          argued this one.
                   THE COURT: What document do you
 4
5
          have?
6
                   MR. MOTLEY: I'm sorry, sir. We
7
          argued this once.
8
                   THE COURT: These are both
9
          admitted.
10
                   MR. MOTLEY: Yes.
                   THE COURT: 9645. Go ahead,
11
12
          Counselor. Objection is overruled.
13
                   MR. MOTLEY: May I have Mr. Cassell
14
          give these to the jury, Your Honor?
15
                  THE COURT: All right.
16
     Q Doctor, did I give you a copy?
17
     A No.
      Q Doctor, you notice this is dated March the
18
          7th, 1968?
19
20
     A Yes, that's correct.
21
     Q And actually held this meeting in Hilton
22
         Head. You know where that is, don't you?
23
     A I do. I've never been fortunate enough to
          visit there. I do know where it's at. It's
```

```
25
          in North Carolina.
                     BURNS, M.D.-DIRECT
                                                 2716
         No, it's not. South Carolina.
         South Carolina? I don't know where it is
3

          Everybody gives North Carolina credit.
 4
                   MR. FURR: We wish it was there.
5
 6
                   MR. MOTLEY: I imagine you wish I
7
          was there.
          Now, Doctor, this was -- I ask you to assume
8
9
          that Dr. Wakeham was the medical -- excuse
10
          me, was the head of R & D for Philip Morris;
11
          okay?
12
      Α
          I know that independently.
13
     Q You know that independently.
14
              Look on the first page, please.
15
          says, "When the smoking and health question
16
          became critical in the 1950s, the tobacco
17
          industry took two steps to meet the
18
          situation.
                "First, it adopted the, quote, vigorous
19
20
          denial approach, the statistical evidence is
21
          biased, nothing is proven, animal
          experiments don't tell us what happens in
22
23
          humans."
               Did I read that correctly?
24
      A Yes, you did.
25
                     BURNS, M.D.-DIRECT
                                                 2717
1
      Q All right. This is 30 years ago, almost to
          this day.
2.
3
      A That's correct.
      Q All right. Let me ask you this question,
          sir: Based on your personal knowledge and
5
          your involvement with the EPA report in
6
7
          1993, has the cigarette industry -- and this
8
          is in regard to people who smoke cigarettes,
9
          correct, this document right here?
10
      A That's correct.
11
      Q It's about people who smoke and get cancer;
12
          correct?
      A That's correct.
13
     Q All right. Now, in regard to people who are
14
15
          exposed to environmental tobacco smoke and
16
          get cancer, is it your experience that the
17
          position of the cigarette industry in 1993
18
          in the EPA report process was vigorous
19
          denial?
20
     A That's correct.
21
                   MR. OHLEMEYER: Excuse me, Your
22
          Honor. I object to Mr. Motley's questions
23
          being argumentative. I object to the
24
          question calling for an opinion from this
25
          witness. It isn't subject matter of his
                     BURNS, M.D.-DIRECT
                                                  2718
1
          expertise or his stated qualification.
                   MR. MOTLEY: I asked him from his
3
          personal experience. He was there.
                   MR. WAGNER: And no foundation.
                   MR. MOTLEY: Judge, he said he was
          part --
```

7		THE COURT: Objections are
8		THE COURT: Objections are overruled.
9	Q	Was it your experience that their position
10	~	was vigorous denial?
11	A	Yes. They were quite vigorous.
12		MR. OHLEMEYER: Excuse me, Your
13		Honor. He's answered the question.
14	Q	Just yes or no. Vigorous denial, yes or no?
15 16	A	Yes. Was their position about secondhand smoke
17	Q	and whether the statistical evidence is
18		biased, was that their position?
19	А	That was also their position.
20	Q	And was their position that was their
21		position that nothing is proven?
22	A	That was also their position.
23	Q	And was it their position that animal
24		experiments don't tell us what happens in
25		humans?
		BURNS, M.DDIRECT 2719
1	А	Yes.
2	Q	Let's turn to the case of Mildred Wiley, if
3	~	I might, Doctor.
4		THE COURT: Would you hand those
5		down.
6	Q	First of all, Doctor, can you tell us just
7		generally the nature of the things that you
8		looked at in Mildred Wiley's case.
9	A	I looked at her medical records, I looked at
10		the results of her autopsy, looked at
11 12		affidavits describing her work environment, and some of the legal case documents.
13	Q	Wait a minute. I missed something. You
14	Q	said medical records?
15	A	Medical records, affidavits, her autopsy
16		report, reports from other physicians
17		describing her care.
18	Q	Dr. Turner, was that a name you remember?
19	A	Yes.
20	Q	Dr. Songer?
21	A	Yes.
22	Q	You looked at their reports?
23 24	A Q	I did. And I may not be spelling his name right.
25	Q	Anything else? I'm not going to write
23		BURNS, M.DDIRECT
		2720
1		all the doctors' names up there.
2	A	And then there were some documents related
3		to some litigation.
4		MR. MOTLEY: Again, speak into this
5	0	direction, okay.
6 7	Q	I forgot to ask you one thing about
8		synergism. I apologize. The jury has heard there's something called radon gas. Are you
9		familiar with that?
10	А	Yes.
11	Q	Have you personally studied that as a health
12		physician?
13	A	Yes. One of the chapters in this report was
14		on the effects of radon gas.
15	Q	Okay. Now, this report being?

The --17 Q The one you were editor of? 18 A Cancer and Chronic Lung Disease in the 19 Workplace, yes. Q There's actually a chapter in there about 20 21 radon? A 22 There is. 23 Back to that word "synergism." Is there a 24 synergism, in your opinion, between radon 25 exposure and cigarette smoke? BURNS, M.D.-DIRECT A Yes, there is. And the synergism was 1 characterized slightly differently in that 3 it appears to be predominantly an 4 accelerating effect. That is, the effect is much more prominent early in the life 5 experience of the individual rather than at 6 7 the very end of the life. And so you get 8 both more disease than you would expect, and 9 the disease occurs earlier than you would 10 expect. So radon is an accelerant in that regard, in 11 12 connection with cigarette smoke? A It is an independent cause of lung cancer 13 14 and it also, in combination with cigarette 15 smoke, produces more lung cancer than you would expect from the sum of the two 16 17 exposures, and that cancer occurs earlier 18 than you would expect it to occur. 19 What is the typical age of people in the 20 United States who contract lung cancer? A The typical age is usually late 60s. 21 Q Late 60s. From the records you know Mildred 22 Wiley died at age 56. 23 24 A That's right. 25 I've already tried my hand at spelling this. BURNS, M.D.-DIRECT 2722 1 I failed, but --We demonstrated I don't do any better than you do, so... 3 With my pad -- I hope, if the queen will 4 5 forgive me for not being able to spell her 6 language. Would you explain for the record 7 what cumulative dose means in connection 8 with cigarette smoke diseases? 9 A Obviously there are two measures of dose. 10 One is how much you are exposed to at any 11 moment in time, and the other measure is how 12 long you've been exposed to it. With 13 cigarettes, that's been described as pack 14 years; the number of packs you smoke per day 15 times the number of years you've been 16 smoking. 17 For other occupational exposures it may be the numbers of fibers of asbestos in the 18 air times the number of years you've been 19 20 exposed to that, or the amount of radiation 21 in the air times the number of years you've 22 been -- number of months, actually, in that 23 setting, that you've been exposed. 24 Q If someone was exposed over a 30-year period

```
of time, let's say to asbestos, and got lung
25
                     BURNS, M.D.-DIRECT
                                                  2723
1
          cancer from asbestos, could you identify
          which exposure caused it or did they all
3
          contribute?
          In general, we feel biologically that they
 4
5
          all contribute.
                   MR. MOTLEY: Your Honor, may I have
6
7
          permission to do a little scientific
          demonstration for the jury?
8
9
                   THE COURT: Go ahead.
      Q Would you come down, Doctor.
10
11
      A Sure.
                   MR. MOTLEY: This is about as far
12
13
          as my science goes, too, Judge.
14
               Let me get you this microphone.
15
                   THE WITNESS: I haven't a clue as
16
          to what he's going to do.
                   MR. MOTLEY: That's good. I don't
17
          either.
18
          All right. I got a glass here, depending on
19
20
          your perspective of life, is either half
21
          full or half empty. All right? I'm going
22
          to fill this up. It's already got water in
23
          it, and I'm going to go like this. And now
          just a little bit, pour it in a glass, run
24
          over just a little bit, okay? See it's
25
                     BURNS, M.D.-DIRECT
                                                 2724
1
          overflowing now?
2
          Yeah.
      Α
3
      Q Which drop of water caused that glass to
          overflow?
      A We can't define that. I mean, we think of
5
          things in terms of the last straw that
6
          breaks the camel's back, but obviously it's
7
          the entire weight that's on the camel's
8
9
          back, not the last straw that was placed
10
          there.
11
      Q Every drop of water caused it to flow over?
12
     A That's correct. Did I get that right, that
          scientific demonstration?
13
     Q Well, I got a wet sleeve out of it. Thank
14
         you, Doctor.
15
               Doctor, in regard to Ms. Mildred Wiley,
16
17
          based on your review of all the evidence in
18
          her case, can you tell the ladies and
19
          gentlemen of the jury the cause of her
20
          death?
21
          Yes, she died of lung cancer, lung cancer
22
          caused by environmental tobacco smoke
23
          exposure.
24
          Can you tell the ladies and gentlemen of the
25
           jury, like my little scientific experiment,
                     BURNS, M.D.-DIRECT
1
          whether the summation or the total of all of
          her exposures contributed as a substantial
3
          contributing factor to the lung cancer you
 4
          diagnosed?
                   MR. OHLEMEYER: May we approach for
          the purpose of an objection, Your Honor?
```

7 THE COURT: All right. 8 (Bench discussion) 9 THE COURT: Last objection 10 overruled. Now, Mr. Motley, if you would state the 11 12 question again. MR. MOTLEY: I fear I won't be able 13 14 to, Your Honor. If I might ask the good lady to repeat the last question I posed to 15 16 the witness and listen carefully, please. 17 (The requested material was read by the 18 reporter.) 19 Yes, they do. And it means --Α 20 Now, you answered the question. 21 Α 22 Now, let me ask you why you reached that 23 opinion. 24 The people tend to think of lung cancer as Α 25 being hit by lightening because it -- they BURNS, M.D.-DIRECT perceive it as when the diagnosis is made, 1 when they're told by their physician that 3 they've got lung cancer. But the process of 4 developing lung cancer isn't a one-time step. It's not a one-step process. 6 What happens is very slowly over time, 7 gradually, there are changes in the DNA, the 8 controlling structure of the cell, that 9 slowly occur. You get one change, and then 10 that cell continues to divide, and then 11 there's another change in that cell. It now 12 has two changes. And you get several changes that occur 13 slowly over time until finally the cell 14 15 loses its normal characteristics of stopping 16 its growth and not invading, and gains the 17 characteristics of a cancer, which are that 18 it grows in an unregulated way and invades 19 the tissue around it. 20 So this is a slow process that occurs 21 over time and requires a sequential exposure 22 to carcinogens throughout that period of 23 time in order to complete the process of 24 carcinogenesis or formation of the cancer. 25 So the only exposures that would not BURNS, M.D.-DIRECT 1 have contributed to Mrs. Wiley's lung cancer would be the ones that she received after she actually had the lung cancer. 4 Q Doctor, in general, in American society 5 today, is lung cancer a rare occurrence? 6 That is, is it a rare -- let me rephrase 7 that. 8 Is it a rare form of cancer? A No. Unfortunately, lung cancer is now the 9 most common cause of cancer death in both 10 11 men and women. 12 And can you give us an approximation of how 13 many lung cancer deaths occur each and every 14 year in America? 15 There are about 150,000 lung cancer deaths

16 17 18 19 20 21 22 23 24 25	Q A Q	each year. Now, have you, sir, in the course of your training and your experience, what you've done with the Surgeon General, come to study somewhat the rates of lung cancer in this century in the United States? Absolutely. It's one of the critical issues that we've examined. And why has it been important for you to examine the occurrence or the number of BURNS, M.DDIRECT
1 2 3 4 5 6 7 8 9	А	cases of lung cancer in the 20th Century in America? Because one of the early issues that raised the question of cigarette smoking causing lung cancer was the fact that lung cancer rates were increasing very dramatically during this century, and that led to the correct perception that we had an epidemic of lung cancer and there began to search for
10 11 12 13	Q	the cause of that epidemic of lung cancer. I have displayed on the screen here are you familiar with that, or something similar to that, that graphic we just displayed?
14 15 16 17 18	A Q	Yes, I am. Doctor, if you don't mind, come down. Let me ask you this: Does this fairly and accurately depict part of the basis of your opinion?
19 20 21 22 23 24 25	A Q A	Yes, it does. And if you'll stand right there. And remember the lady right beside you has to that take this down, the Court and jury have to hear you, Counsel does. Tell us the significance of this chart. This is a chart that looks at lung cancer
1 2 3 4 5 6		BURNS, M.DDIRECT 2729 death rates per hundred thousand people. That's the standard way of examining the frequency with which people die of given diseases. That is averaged over the population. And this is from 1950 through 1992 or 3. What you can see
8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Q A	Guess what Mr. Howard had. Oh, good. What you can see is that lung cancer death rates in white males have climbed substantially from 1950 peaking in the late 1980s and have begun to decline. Lung cancer death rates in black males, which in the 1950s were below those for white males, have now increased to well above those for white males. And rates in women, which had been relatively low prior to the 1960s, have begun to increase dramatically, with no real difference between black and white women. Doctor, has it sometimes been said that epidemiologists are medical detectives? That's correct. They are commonly called
24		that.

25	Q	Medical detectives. By training and BURNS, M.DDIRECT
		2730
1 2	_	experience and work with the Surgeon General, are you an epidemiologist?
3	A	Yes.
4	Q	Have you yourself personally investigated
5		what's caused this dramatic lung cancer
6		change in incidence in the United States?
7	A	Yes, I have.
8	Q	I'm asking about you. Have you?
9	A	Yes. Yes, I have. All of the work we do
10		tends to be with several individuals, but
11		yes.
12	Q	You don't claim to be the author of all of
13		those pages over there.
14	A	No.
15	Q	Okay. Can you tell me, to a reasonable
16	×.	degree of scientific certainty, what the
17		cause the leading cause of those numbers
18		shown on that graph are in your opinion in
19		the United States? What's been the reason
20		for this dramatic increase? You would call
21		
	70	that a dramatic increase, wouldn't you?
22	A	I would call it a dramatic increase, and if
23	0	we go back further, it's even more dramatic.
24	Q	What is the leading cause of that in the
25		United States?
		BURNS, M.DDIRECT
		2731
1	A	The overwhelmingly largest cause of lung
2		cancer death is cigarette smoking.
3	Q	Thank you. You may return.
4		Is there anything on there that you
5		think would be constructive or have we
6		covered it?
7	A	No. Just if you go back further, the rates
8		drop even much lower.
9	Q	Back further meaning the turn of the
10		century?
11	A	At the turn of the century lung cancer could
12		be accurately described as a rare disease.
13	Q	It was rare at the turn of the century?
14	A	That's correct.
15		MR. MOTLEY: Your Honor, I'm about
16		to embark on another area, and as you
17		recall, we didn't quite get done this
18		morning with our notebook full of things we
19		were looking at. And I wonder if it might
20		be, particularly since the doctor is not
21		feeling well, if we could take that time up
22		doing that.
23		THE COURT: I think we will send
24		the jury home at this point. We've had a
25		good day. We've got a lot done today.
20		BURNS, M.DDIRECT
		2732
1		Ladies and gentlemen, I discussed the
2		matter with the lawyers regarding tomorrow
3		afternoon. I realize, well realize, you
4		have things to do, errands and things of
5		that nature, business things. We're going
5 6		to knock off tomorrow about 4:00, maybe even
U		to Allock off comoffow about 4.00, maybe even

a little bit before, so you can maybe plan 8 your day a little bit better. 9 (Standard admonition). 10 I will see you tomorrow morning at 11 12 MR. CASSELL: All rise. THE COURT: Doctor, you may step 13 14 down. 15 THE WITNESS: Thank you, sir. 16 THE COURT: Thank you. 17 MR. MOTLEY: May the doctor be 18 excused? 19 THE COURT: I just did. MR. MOTLEY: I'm sorry. I meant to 20 21 go back to the hotel. 22 THE COURT: Yes. Absolutely. MR. MOTLEY: Your Honor, may I 23 24 approach for a moment? 25 THE COURT: Sure. BURNS, M.D.-DIRECT MR. MOTLEY: Before I do that, may 1 I consult with my colleagues? 3 (A discussion was held off the record.) MR. MOTLEY: Judge, I just want to 4 say, this puts me in an embarrassing 6 position. I overlooked this. You know, I 7 hate to keep bringing this up but it's an 8 important document, 33608. One of the 9 recipients of the document is none other 10 than Mr. Furr, who is counsel. 11 THE COURT: I saw that. MR. MOTLEY: Oh, you did? Well, I 12 mean, you know, I'm sitting here being told 13 that they don't know who Bob is, and they 15 don't know who Sam is, and I think --THE COURT: No. Actually I'm the 16 17 one that said that. And what I said was that we need some evidence as to who Bob and 18 19 Sam might be here. And if there is evidence 20 in the record already, some of your 21 attorneys can show me. 22 But other than that, that's what I said. And I did notice that he was on the 23 24 distribution list. 25 MR. MOTLEY: Well, let me say, Your BURNS, M.D.-DIRECT 2734 1 Honor, I misspoke. I said it was Bob Kloepfer, but I have now learned it was Bob Lewis. And it is Sam Chilcoate who was president of the institute. I now have 5 minutes from 1991. All I'm saying is, Judge, you know, 7 this is going to be a long trial and I 8 just -- and I'm not casting any aspersions, but it just seems to me as an officer of the 9 10 Court, we ought not to play games about who Bob and Sam are and make me jump through 11 12 those hoops and make me go take depositions. 13 Well, I know and I think Mr. Furr knows well 14 who they are. Maybe he doesn't. But since 15 I have the minutes from 1991, Your Honor, of

the -- I don't mean to embarrass Mr. Furr. 17 He's been very nice to me. And I know what 18 I'm saying doesn't embarrass him. But 19 when -- let me finish. MR. OHLEMEYER: We can short 20 21 circuit this. THE COURT: Go ahead. 22 MR. OHLEMEYER: The fact that Bob 23 and Sam can be identified still doesn't tell 24 25 us whether Bob thinks that anybody agrees BURNS, M.D.-DIRECT with this or whether this was Sam's idea 1 that Bob said was silly or whether -- I mean, that's the point. There's got to be 4 more to this than just saying, well, I know who Bob is. 5 6 THE COURT: You're telling me now 7 you're stipulating to who Bob and Sam might 8 be? 9 MR. OHLEMEYER: No, I don't know 10 who Sam and Bob might be. 11 MR. MOTLEY: Here's Mr. Furr. 12 Here's the minutes that demonstrate the same 13 Mr. Johnson who was at this meeting in 1991 14 with guess who, Sam Chilcoate Jr., the president of the institute, Robert J. Lewis. 15 And they're talking about the Veteran's 16 17 Administration, Judge. I don't mean to 18 be --19 THE COURT: Mr. Furr. 20 MR. FURR: Sure, Judge. I don't 21 know who Bob and Sam are. I've never represented the Tobacco Institute, and I 2.2 didn't then. I don't now. I had been out 2.3 of law school for a year when that document 24 25 may or may not have been routed to me. I BURNS, M.D.-DIRECT 2736 1 have no independent recollection of it. And I can't help authenticate that document. 3 MR. MOTLEY: Well --THE COURT: I'm not asking you to 4 at this point. Only thing I said, Mr. 5 6 Motley, was is there evidence in the record 7 that tells me who Bob and Sam are? 8 MR. MOTLEY: Well, I move to admit 9 these executive committee minutes, Your 10 Honor, 24389, and I think that demonstrates 11 who Bob -- it's got all three names on there: James Johnson, Robert Lewis, and Sam 12 13 Chilcoate. Kurt Milgram is also mentioned. 14 They're all in those minutes. Those are all 15 produced, Your Honor, these are produced by 16 Liggett, to which there was no objection by 17 them. I don't think they object to the 18 authenticity. THE COURT: Any objection to -- is 19 20 this marked? 21 MR. MOTLEY: Not yet, Your Honor, I 22 was just providing it. 23 MR. CASTLE: 26. 24 THE COURT: Plaintiffs' 26 would be

25 the minutes of the meeting of the executive BURNS, M.D.-DIRECT 2737 committee. Any objection to that? MR. SHOCKLEY: Who are they 3 offering it against, Your Honor? MR. MOTLEY: Tobacco Institute only. THE COURT: Tobacco Institute only. 6 MR. OHLEMEYER: Objection on the 7 basis of relevance, Your Honor. 9 THE COURT: Any other objection? 10 MR. OHLEMEYER: Well, I think under 11 Rule 403, this is confusing, prejudicial, and time consuming. And I also think it 12 13 seeks to introduce evidence of a 14 constitutionally protected lobbying activity 15 that has no relevance at this point to the 16 issues in this case. 17 There is no doubt that veterans smoke, and there is no dispute in this case that 18 there were rules and procedures that may or 19 20 may not have been followed about where and 21 whether veterans can smoke. The fact that 22 there were groups of veterans who didn't 23 like those rules really doesn't seem to be relevant. The fact that there were people 24 selling cigarettes who didn't like those 25 BURNS, M.D.-DIRECT 2738 1 rules doesn't seem to be relevant. 2 MR. MOTLEY: Should I respond? THE COURT: 26 will be admitted. 3 (Plaintiffs' Exhibit(s) 26 received in 5 evidence.) MR. MOTLEY: Your Honor, based on 26 being admitted, I now move again the 7 admission of the antecedent document, 8 9 No. 33608, against the Tobacco Institute and 10 RJ Reynolds at this time. I restrict it to 11 them at this time because Mr. Johnson was 12 the chairman of RJ Reynolds. I'd love to 13 hear them deny that. THE COURT: Any objection now to 14 15 33608? 16 MR. OHLEMEYER: Same objection. 17 THE COURT: Same objection. 18 Objection is noted. MR. OHLEMEYER: I'd ask a limiting 19 20 instruction that I hand the Court to be read 21 in connection with any publication of this 22 document. 23 MR. MOTLEY: May I have a moment to 24 look at this, Your Honor? 25 THE COURT: Certainly. BURNS, M.D.-DIRECT 1 MR. WAGNER: Of course, we have the same objections to this briefing of James W. 3 Johnson document that we had before. I mean, for all the reasons we've articulated before, it's objectionable. THE COURT: 33608 is offered

against Tobacco Institute. 8 (Plaintiffs' Exhibit(s) 33608 received 9 in evidence.) 10 MR. MOTLEY: And Reynolds. THE COURT: And RJ Reynolds. And 11 12 it will be admitted. MR. MOTLEY: Your Honor, my only 13 14 objection to the limiting instruction is the last paragraph which states, 15 "Noerr-Pennington." Noerr-Pennington, Your 16 17 Honor, is a constitutional advocacy, First Amendment right to petition the government, 19 and all the supreme court held in those 20 cases is you can't base a claim. 21 So I don't have any objection to the 22 first full paragraph which says we can't 23 base a claim, but that doesn't mean that 24 evidence of such activity cannot be the 25 basis of another claim. BURNS, M.D.-DIRECT What this limiting instruction seeks to 1 do is say, well, ladies and gentlemen of the 3 jury, you can read this and be amused by it, but it doesn't mean anything. And that's 4 not what a Noerr-Pennington says, Your Honor. It's certainly not what you just 7 ruled in admitting this document. So I 8 don't object to the first paragraph, but I 9 do the second. 10 MR. OHLEMEYER: Your Honor, I think 11 the second paragraph is essentially the 12 point, which is you can't take this evidence and then say because these people engaged in 13 this activity, I'm going to use it as a 14 15 basis for imposing liability. MR. MOTLEY: No, sir. It's a 16 difference. I'm not imposing liability for 17 18 the advocacy, Your Honor, but it can be used 19 as evidence of another claim. The other 20 claim here, Your Honor, is a product claim 21 under Indiana law and a claim for punitive damages under Indiana law. 22 23 We're not asking them to be punished 24 for their right to petition the government. 25 And that's -- the last sentence is what I BURNS, M.D.-DIRECT 2741 1 object to, because that is a misstatement and a corruption of Noerr-Pennington. MR. OHLEMEYER: Your Honor, what you just heard is exactly the problem. 5 THE COURT: No, I don't think --6 the statement is a fair statement. I will 7 read that limiting instruction when the jury 8 is provided 33608. 9 Any other matters to come before the 10 Court this evening, Counsel? 11 MR. MOTLEY: Actually, Judge, I'm 12 about to fall down on my feet as I suppose 13 everybody else is. We don't have anything 14 else right now. 15 THE COURT: All right. We are in

```
recess until tomorrow morning at 8:30.
       17
                One other thing, Counsel, before we
               leave. I don't know how this happened, we
       18
       19
               had a file stamp up here that certain
               pleadings have been used, or have been file
       21
               stamped with that file stamp. I noticed
               yesterday some of the dates on those file
       22
       23
               stamped pleadings may have read '97. I
               don't know how that got changed, but if that
       24
       25
               happens and if this happened with any
                        BURNS, M.D.-DIRECT
               particular pleading, we have corrected the
       1
               ones in the Court file, in the process right
       3
               now.
                   If you have a pleading that bears a
       5
               file stamped year of '97, the court reporter
               will correct that with her initials. So it
       6
       7
               may or may not have any import at this time
               but I just thought I'd tell you.
       8
       9
                   Thank you, Counsel.
                   (The proceedings were adjourned at 5:30
       10
       11
               p.m., to be reconvened on February 20, 1998,
       12
               at 8:30 a.m.)
